Nationalism Without Walls:

Nationalism Without Walls Richard J. Gwyn, 1995 All nation states are being changed by global economy computer technology and cultural revolutions This book is an examination of Canadian nationhood **Vive Quebec!** Michel Venne, 2001-04-16 Published in 2001 this collection brings together the province's leading writers and thinkers in a lively and challenging debate about Quebec nationalism This collection of articles from leading Quebec intellectuals debates such topics as the federal government's clarity bill the prospects for another referendum and Quebec's place in Canada Included are leading writers politicians and thinkers spanning a wide range of viewpoints including Charles Taylor Gregory Baum Jean Charest and Lucien Bouchard *Vive Quebec* is a vital introduction to the issues of concern in contemporary Quebec society

Charles Taylor Mark Redhead, 2002-03-04 An examination and critique of the theoretical and political efforts of Taylor to promote deep diversity as an antidote to the process of political fragmentation in general and specifically in his home of Quebec Redhead political theory Oregon State U argues that Taylor's opposition to Quebecois separatists is equally rooted in a political theory of communitarian liberalism his political activities within the New Democratic Party of Canada and Quebec his understanding of his Catholic faith and his experiences growing up in an Anglo French household Redhead argues that Taylor's philosophy ultimately fails to address questions of nationalist projects that simplify identity or questions of openness to different moral ontologies *A World Without Walls* Mike Moore, 2003-01-21 Mike Moore's insight as Director General of the World Trade Organization contributes to the globalization debate **The Rights Revolution** Michael

Ignatieff, 2008-12-01 With an updated preface by the author Since the proclamation of the Universal Declaration of Human Rights in 1948 rights have become the dominant language of the public good around the globe Indeed rights have become the trump card in every argument Long standing fights for aboriginal rights the issue of preserving the linguistic heritage of minorities and same sex marriage have steered our society into a full blown rights revolution This revolution is not only deeply controversial in North America but is being watched around the world Are group rights jeopardizing individual rights When everyone asserts their rights what happens to responsibilities Can families survive and prosper when each member has rights Is rights language empowering individuals while weakening community Michael Ignatieff confronts these controversial questions head on in *The Rights Revolution* defending the supposed individualism of rights language against all comers For Ignatieff believing in rights means believing in politics believing in deliberation rather than confrontation compromise rather than violence *The Politics of Multiculturalism* A. Fleras, 2015-10-14 This book develops an account of inclusive

multicultural governance which is contrasted with assimilationist and separatist differentialist approaches to the political management of and accommodation of multicultural diversity in liberal democracies **Secular States and Religious**

Diversity Bruce J. Berman, Rajeev Bhargava, André Laliberté, 2013-10-25 Contemporary nation states have seen the rise of religious pluralism within their borders brought about by global migration and the challenge of radical religious movements

Secular States and Religious Diversity explores the meaning of secularism and religious freedom in these new contexts. The contributors chart the impact of globalization, the varying forms of secularism in Western states, and the different kinds of relations between states and religious institutions in the historical traditions and contemporary politics of Islamic, Indian, and Chinese societies. They also examine the limitations and dilemmas of governmental responses to religious diversity and grapple with the question of how secular states deal and should deal with such pluralism. This volume brings in perspectives from the non-Western world and engages with viewpoints that might increase states' capacities to accommodate religious diversity positively.

Rethinking Church, State, and Modernity David Lyon, Marguerite Van Die, 2000-01-01. The contributors consider how Canada's religious experience is distinctive in the modern world, somewhere between the largely secularized Europe and the relatively religious United States.

An Independent Foreign Policy for Canada? Brian Bow, Patrick Lennox, 2008-12-27. Forty years ago, as the United States became increasingly involved in Vietnam, questions were raised in Canada about the relationship between its foreign policy agenda and that of its southern neighbour. Now, with the recent wars in Iraq and Afghanistan, it is time to raise the same questions: does Canada need an independent foreign policy? Does Canada have the capacity and will to chart its own course? Divided into sections about the history of Canadian foreign policy, diplomacy, security, economics, decision making, and new policy issues, this collection of prominent political scientists provides valuable and timely perspectives on the state of Canada's international relations in the twenty-first century. Examining pertinent issues such as defence, security, the Arctic, global environmental cooperation, NAFTA, and the post-9/11 world, these accessible and insightful essays are a long overdue reassessment of Canada and its current role in international affairs. *An Independent Foreign Policy for Canada* asks the question that is perhaps more important now than forty years ago and supplies answers so pertinent to the twenty-first century. Contributors: Brian Bow, Adam Chapnick, Stephen Clarkson, Patricia Goff, Stephanie R. Golob, Geoffrey Hale, Rob Huebert, Christopher Kukucha, Patrick Lennox, Christopher Sands, Heather A. Smith.

Is There a Canadian Philosophy? Gary Brent Madison, Paul Fairfield, Ingrid Harris, 2000. *Is There a Canadian Philosophy* addresses the themes of community, culture, national identity, and universal human rights, taking the Canadian example as its focus. The authors argue that nations compelled to cope with increasing demands for group recognition may do so in a broadly liberal spirit and without succumbing to the dangers associated with an illiberal, adversarial multiculturalism. They identify and describe a Canadian civic philosophy and attempt to show how this modus operandi of Canadian public life is capable of reconciling questions of collective identity and recognition with a commitment to individual rights and related principles of liberal democracy. They further argue that this philosophy can serve as a model for nations around the world faced with internal complexities and growing demands for recognition from populations more diverse than at any previous time in their histories. Published in English.

Nations Divided Don Harrison Doyle, 2002. At the same time, Doyle negotiates the conceptual slipperiness of nationalism by discussing it as both constructed

and real unifying and divisive inspiration for good and excuse for atrocity **BOOK JACKET** *Border Law* Deborah A. Rosen, 2015-04-06 The First Seminole War shaped how the United States demarcated its spatial and legal boundaries Rooted in exceptionalism manifest destiny and racism the legal framework that emerged from Andrew Jackson's invasion of Florida laid the groundwork for the Monroe Doctrine the Dred Scott decision and westward expansion as Deborah Rosen shows

Jeffrey, 2010-01-01 The Liberal Party has governed Canada for much of the country's history Yet over the past two decades the natural governing party has seen a decrease in traditional support finding itself in opposition for nearly half of that time In Divided Loyalties Brooke Jeffrey draws on her own experience as a party insider and on interviews with more than sixty senior Liberals to follow the trajectory of the party from 1984 to the leadership of Stéphane Dion in 2008 Riven by internal strife leadership disputes and financial woes the Liberal Party today faces unprecedented challenges that threaten its very future Conventional wisdom attributes the origins of the disarray to personal conflict between Jean Chrétien and Paul Martin However Jeffrey argues that this divisiveness is actually the continuation of a dispute over Canadian federalism and national unity which began decades earlier between John Turner and Pierre Trudeau This dispute as evidenced by recent leadership crises remains unresolved to this day An insightful examination of the federal Liberal Party Divided Loyalties sheds much needed light on an increasingly fissured party Canadians Roy MacGregor, 2008-05-06 Who are we In Canadians one of

Canada's most intelligent and beloved writers maps our national psyche in a wonderful and ambitious work Canadians is an entertaining portrait of this country and its people through its history popular culture literature sport landscape and weather In his pursuit of the Canadian national identity MacGregor has travelled far and wide taking our pulse telling our stories A sparkling blend of historical anecdotal and reflective writing converges in a narrative that is extraordinarily learned in its perceptions and light in its delivery all trademarks of this remarkable writer's work **Crime Fiction and National**

Identities in the Global Age Julie H. Kim, 2020-05-05 To read a crime novel today largely simulates the exercise of reading

newspapers or watching the news The speed and frequency with which today's bestselling works of crime fiction are produced allow them to mirror and dissect nearly contemporaneous socio-political events and conflicts This collection examines this phenomenon and offers original critical essays on how national identity appears in international crime fiction in the age of populism and globalization These essays address topics such as the array of competing nationalisms in Europe Indian secularism versus Hindu communalism the populist rhetoric tinged with misogyny or homophobia in the United States racial religious or ethnic others who are sidelined in political appeals to dominant native voices and the increasing economic chasm between a rich and poor More broadly these essays inquire into themes such as how national identity and various conceptions of masculinity are woven together how dominant native cultures interact with migrant and colonized cultures to explore insider/outsider paradigms and identity politics and how generic and cultural boundaries are repeatedly crossed in postcolonial detective fiction

Re-Writing Pioneer Women in Anglo-Canadian Literature Conny Steenman-Marcusse, 2021-11-15 This study investigates the connections between nineteenth century pioneer women in Canada and their putative twentieth century biographers in Anglo-Canadian women's fiction by Carol Shields Small Ceremonies 1976 Daphne Marlatt Ana Historic 1988 and Susan Swan The Biggest Modern Woman of the World 1983 These three texts reveal definite problems in the formation of Canadian female identities but they also revalorise the traditionally underprivileged halves of binary structures such as female/male other/self body/intellect subjectivity/objectivity and Canada/imperial centres

Canadian Literature and Medicine Shane Neilson, 2023-09-08 Canadian Literature and Medicine breaks new ground by formulating a series of frameworks with which to read and interpret a national literature derived from the very fabric of that literature in this case Canadian Canadian literature is of particular interest because of its consideration of coloniality Indigeneity and coincident development alongside a nascent socialized medical system currently under threat from neoliberalism The first chapters of the book carefully track the development of Canada's socialized medical system as it manifests in the imaginations of the nation's poets and authors who depict care Reciprocal flows are investigated in which these poets and authors are quoted in policy documents The archive-based methodology is sustained in subsequent chapters that rely upon a unique interdisciplinary mix of medical history philosophy of medicine medical policy theory inherent to the field of Canadian literature focusing in particular on the garrison mentality as a form of aesthetic protest and the feminist ethics of care and Indigenous ways of knowing

Racism and Anti-Racism in Canada David Este, 2020-07-10T00:00:00Z Multiculturalism is regarded as a key feature of Canada's national identity Yet despite an increasingly diverse population racialized Canadians are systematically excluded from full participation in society through personal and structural forms of racism and discrimination Race and Anti-Racism in Canada provides readers with a critical examination of how racism permeates Canadian society and articulates the complex ways to bring about equity and inclusion both individual and systemically

Whiteshift Eric Kaufmann, 2019-02-05 This ambitious and provocative work delves into

white anxiety about the demographic decline of white populations in Western nations Publishers Weekly Whiteshift is defined as the turbulent journey from a world of racially homogeneous white majorities to one of racially hybrid majorities In this data driven study political scientist Eric Kaufmann explores how these demographic changes across Western societies are transforming their politics The early stages of this transformation have led to a populist disruption tearing a path through the usual politics of left and right If we want to avoid more radical political divisions Kaufmann argues we have to enable white conservatives as well as cosmopolitans to view whiteshift as a positive development Kaufmann examines the evidence to explore ethnic change in North American and Western Europe Tracing four ways of dealing with this transformation fight repress flight and join he makes a persuasive call to move beyond empty talk about national identity Deeply thought provoking enriched with illustrative stories and drawing on detailed and extraordinary survey demographic and electoral data Whiteshift will redefine the way we discuss race in the twenty first century
