Parnassus Revisited:

Parnassus Revisited Anthony C. Yu, 1973 Essays on the Performance of Baroque Music Mary Cyr, 2024-10-28 In this collection of essays Mary Cyr explores some of the written and unwritten performance conventions that applied to French and English music of the 17th and early 18th centuries Using composers own notations marks added by 18th century performers historical treatises and pictorial evidence she investigates both vocal and instrumental genres including opera cantatas instrumental chamber music and solo music for the viol and violin Some of the performance conventions remain controversial such as the use of gesture by the French opera chorus and others are still little known such as the use of the double bass for rhythmic and harmonic support in early 18th century French opera As many of these essays demonstrate French Baroque music allowed performers a wider latitude of nuance and expression than is often assumed today The essays in this volume will be of particular interest to scholars and performers who are interested in adopting a historically informed approach to performing music by Henry Purcell Elisabeth Claude Jacquet de La Guerre Jean Philippe Rameau and their contemporaries Several studies also deal with attributions sources and the discovery of a cantata by Rameau **Parnassus Revisited** Raymond Stephen McAtee, 1981 Christianity, Art and Transformation John W. de Gruchy, 2001-01-29 Christianity Art and Transformation explores the historical and contemporary relationship between the arts and Christianity with reference to the transformation of society Several major themes are discussed among them the power of images the relationship between aesthetics and ethics the nature of beauty and its redemptive capacity aesthetic existence and Christian discipleship and the role of art in the public square and in the life of the Church The book is a contribution to the study of theological aesthetics from both an ecumenical and Reformed perspective global in its scope yet rooted in the author's South African context **The Eighteenth Century French Cantata** David Tunley, 1997 The first edition of this book is the classic study of one of the most popular musical forms in early eighteenth century France not only because it documents and examines its considerable repertoire for the first time but also because it places the genre in the wider context of both French and Italian baroque music styles In uniting the two national styles the cantata was one of the major influences in transforming the seventeenth century French classical tradition in music into a style that owed much to the Italian baroque yet retained a distinctive gallic expression As well as its musical interest the French cantata provides an arresting example of the influence of society upon music and the book commences with a chapter that views the emergence of the form in its social setting Cantata texts enjoyed a vogue as poetry and this literary aspect is also dealt with in a separate chapter This new edition incorporates research by the author and other scholars over the twenty years since the first edition reflecting today's growing interest in French baroque music It also features a new chapter dealing with the French cantata in performance **Berryman's Henry** Samuel Fisher Dodson, 2006 Berryman's Henry Living at the Intersection of Need and Art offers scholars and students the first thorough and well researched vehicle into John Berryman's epic poem The Dream

Songs Through a close reading of the text an examination of the history of its criticism and some of Berryman s letters notes and pertinent manuscripts Sam Dodson offers the reader a solid starting point to appreciate the presiding structure and thematic focus of this American classic This structure resulting from the poet s crafting and the poem s internal growth is illustrated in the text by more than thirty reproductions of some of the Dream Song drafts in progress No existing critical work examines anywhere near the number of individual Dream Songs as this reader s guide which will enable students and teachers to enter Berryman s difficult poem with confidence and a proper sense of direction Its purpose is to provide the beginning reader and the scholar with a map for approaching this large work and finding their way through its elegiac structure and appreciating its unity A close look at the poem s language and stylistic innovations epic qualities and author s poetics and most especially the elegiac movement of the poem will allow even the novice reader to enter Henry s world The elegies as a whole provide the note of mourning that is at the core of Berryman s epic *The Spacious Word* Ricardo

Padrón,2021-09-26 *The Spacious Word* explores the history of Iberian expansion into the Americas as seen through maps and cartographic literature and considers the relationship between early Spanish ideas of the world and the origins of European colonialism Spanish mapmakers and writers as Padr n shows clung to a much older idea of space that was based on the itineraries of travel narratives and medieval navigational techniques Padr n contends too that maps and geographic writings heavily influenced the Spanish imperial imagination During the early modern period the idea of America was still something being invented in the minds of Europeans Maps of the New World letters from explorers of indigenous civilizations and poems dramatizing the conquest of distant lands then helped Spain to redefine itself both geographically and imaginatively as an Atlantic and even global empire In turn such literature had a profound influence on Spanish ideas of nationhood most significantly its own Elegantly conceived and meticulously researched *The Spacious Word* will be of enormous interest to historians of Spain early modern literature and cartography **Medical Research in the Veterans' Administration**

Style and Performance for Bowed String Instruments

in French Baroque Music Mary Cyr,2016-04-01 Mary Cyr addresses the needs of researchers performers and informed listeners who wish to apply knowledge about historically informed performance to specific pieces Special emphasis is placed upon the period 1680 to 1760 when the viol violin and violoncello grew to prominence as solo instruments in France Part I deals with the historical background to the debate between the French and Italian styles and the features that defined French style Part II summarizes the present state of research on bowed string instruments violin viola cello contrebasse pardessus de viole and viol in France including such topics as the size and distribution of parts in ensembles and the role of the contrebasse Part III addresses issues and conventions of interpretation such as articulation tempo and character inequality ornamentation the basse continue pitch temperament and special effects such as tremolo and harmonics Part IV introduces four composer profiles that examine performance issues in the music of lisabeth Jacquet de La Guerre Marin Marais Jean Baptiste Barri re and the Forquerays father and son The diversity of compositional styles among this group of composers and the virtuosity they incorporated in their music generate a broad field for discussing issues of performance practice and offer opportunities to explore controversial themes within the context of specific pieces **Bolder Flights**

Frank Tierney,Angela Arnold Robbeson,1999-01-07 A growing number of literary historians and critics now recognize the contemporary long poem as a distinctively Canadian genre This collection of essays leads the reader to a deeper understanding of Canadian literary cultures in terms of their local intimacies and idiosyncrasies as well as in their national contexts Published in English **New Perspectives on Marc-Antoine Charpentier** Shirley Thompson,2017-07-05 The

tercentenary of Marc Antoine Charpentier s death in 2004 stimulated a surge of activity on the part of performers and scholars confirming the modern assessment of Charpentier 1643 1704 as one of the most important and inventive composers of the French Baroque The present book provides a snapshot of Charpentier scholarship in the early years of the new century Its 13 chapters illustrate not only the sheer variety of strands currently pursued but also the way in which these strands frequently intertwine and generate the potential for future research Between them they examine facets of the composer s compositional language and process aspects of his performance practice and notation the contexts within which he worked

and the nature of his legacy The appendix contains a transcription of the inventory of Charpentier s manuscripts prepared when their sale to the Royal Library was negotiated in 1726 an invaluable research tool as numerous chapters in the book demonstrate The wide variety of topics covered here will appeal both to readers interested in Charpentier s music and to those with a broader interest in the music and culture of the French Baroque including aspects of patronage church and theatre Far from treating his output in isolation this book places it in the wider context alongside such composers as Lully Lalande Marais Fran s Couperin and Rameau it also views the composer in relation to his Italian training In the process the under examined question of influence who influenced Charpentier whom did he influence repeatedly comes to the fore The book s Foreword was written by H Wiley Hitchcock shortly before he died Hitchcock s own part in raising the profile of Charpentier and his music to the level of recognition which it now enjoys cannot be emphasized enough Appropriately the volume is dedicated to his memory Siren Songs Lillian Eileen Doherty,1995 A feminist critique of the Odyssey

Paradise Lost and the Classical Epic Francis C. Blessington,2019-01-03 This study first published in 1979 explores the idea that all spheres of action hell heaven and earth of the classical epic is relevant to all parts of Paradise Lost The author also examines the structure style and the narrator of the text This title will be of great interest to students of Milton and English Literature **Hearings, Reports and Prints of the House Committee on Veterans' Affairs** United States.

Congress. House. Committee on Veterans' Affairs, Old Age in Greek and Latin Literature Thomas M. Falkner,Judith De Luce,1989-01-01 This volume explores the significance of old age in Greek and Latin poetry and dramatic literature not just in relation to other textual and historical concerns but as a cultural and intellectual reality of central importance to understanding the works themselves The book discusses a wide range of authors from Homer to Aristophanes Sophocles and Euripides from Horace to Vergil Ovid and beyond Classical scholarship on these texts is enriched by a variety of interdisciplinary perspectives drawn from such fields as anthropology social history literary theory psychology and gerontology The contributions examine the many and complex representations of old age in classical literature their relation to the social and psychological realities of old age their connection with the author s own place in the human life course their metaphorical and symbolic capacity as poetic vehicles for social and ethical values Baked Meats of the Funeral Charles Graham Halpine,1866
