Part-time Academic Employment in the Humanities M. Elizabeth Wallace, 1984 **Part-time Instructional Faculty and Staff** Valerie M. Conley, 2002 **Instructional faculty and staff in public 2-year colleges**, **Education Statistics Quarterly**, 2000 *Hidden Academics* Indhu Rajagopal, 2002-01-01 Rajagopal examines the multiple ways contract faculty have emerged as an underclass in academia with differences in status compensation career opportunities and professional development **Community College Faculty** J. Levin, S. Kater, Richard L. Wagoner, 2006-01-31 John S Levin Susan T Kater and Richard L Wagoner collectively argue that as community colleges organize themselves to respond to economic needs and employer demands and as they rely more heavily upon workplace efficiencies such as part time labor they turn themselves into businesses or corporations and threaten their social and educational mission *Women and Work* Marjie C. Barrett, LaVerne Knezek, Sheila K. Collins, 1985 **Higher Education: Handbook of Theory and Research** J.C. Smart, William G. Tierney, 2003-04-30 **Demographic Trends and the Scientific and Engineering Work Force** United States. Congress. House. Committee on Science and Technology. Task Force on Science Policy, 1986 **Women in Academe** Mariam K. Chamberlain, 1989-03-16 The role of women in higher education as in many other settings has undergone dramatic changes during the past two decades This significant period of progress and transition is definitively assessed in the landmark volume *Women in Academe* Crowded out by returning veterans and pressed by social expectations to marry early and raise children women in the 1940s and 1950s lost many of the educational gains they had made in previous decades In the 1960s women began to catch up and by the 1970s women were taking rapid strides in academic life As documented in this comprehensive study the combined impact of the women s movement and increased legislative attention to issues of equality enabled women to make significant advances as students and to a lesser extent in teaching and academic administration *Women in Academe* traces the phenomenal growth of women s studies programs the notable gains of women in non traditional fields the emergence of campus women s centers and research institutes and the increasing presence of minority and re entry women Also examined are the uncertain future of women s colleges and the disappointingly slow movement of women into faculty and administrative positions This authoritative volume provides more current and extensive data on its subject than any other study now available Clearly and objectively it tells an impressive story of progress achieved and of important work still to be done **Gypsy Academics and Mother-teachers** Eileen E. Schell, 1998 Eileen Schell investigates from a feminist perspective the complex reasons why women are disproportionately represented in the ranks of contingent writing faculty *Resources in Education*, 1993 **The Questions of Tenure** Richard P. Chait, 2009-07-01 Chait and his colleagues offer the results of their research on key empirical questions and conclude that no single tenure system exists Still since no academic reward carries the cachet of tenure few institutions will initiate significant changes without either powerful external pressures or persistent demands from new or disgruntled faculty *Bulletin of the*

[United States Bureau of Labor Statistics ,1913](#) [Resources in Women's Educational Equity ,](#) **Classics** Phyllis Culham,1989 Books like *The Closing of the American Mind* and debates like the one over the Stanford reading list have called for reconsideration of the role of the Greek and Roman classics in American education This collection meets that challenge by offering classicists of divergent viewpoints the opportunity to rethink Classics as a discipline Contents The State of the Classics Classics as a Profession Classics as an Academic Discipline and The Classics Community *Neoliberalizing the University: Implications for American Democracy* Sanford Schram,2017-10-02 This collection brings together essays to address the crisis of Higher Education today focusing on its neoliberalization Higher Education has been under assault for several decades as neoliberalism's preference for market based reforms sweeps across the US political economy The recent push for neoliberalizing the academy comes at a time when it is ripe for change especially as it continues to confront growing financial pressure particularly in the public sector The resulting cutbacks in public funding especially to state universities led to a variety of debilitating changes increases in tuition growing student debt more students combining working and schooling declining graduation rates for minorities and low income students increased reliance on adjuncts and temporary faculty and most recently growing interest in mass processing of students via online instruction While many serious questions arise once we begin to examine what is happening in higher education today one particularly critical question concerns the implications of these changes on the relationship of education to as yet still unrealized democratic ideals The 12 essays collected in this volume create important resources for students faculty citizens and policymakers who want to find ways to address contemporary threats to the higher education democracy connection This book was originally published as a special issue of *New Political Science* *The Role of Non-academic Employment in the Education of Graduate Students and Faculty* David B.
