Partners In Plunder:

Women and English Piracy, 1540-1720 John C. Appleby, 2013 Drawing on a wide body of evidence the book argues that the support of women was vital to the persistence of piracy around the British Isles at least until the early seventeenth century The emergence of long distance and globalized predation had far reaching consequences for female agency Piracy was one of the most gendered criminal activities during the early modern period As a form of maritime enterprise and organized criminality it attracted thousands of male recruits whose venturing acquired a global dimension as piratical activity spread across the oceans and seas of the world At the same time piracy affected the lives of women in varied ways Adopting a fresh approach to the subject this study explores the relationships and contacts between women and pirates during a prolonged period of intense and shifting enterprise Drawing on a wide body of evidence and based on English and Anglo American patterns of activity it argues that the support of female receivers and maintainers was vital to the persistence of piracy around the British Isles at least until the early seventeenth century The emergence of long distance and globalized predation had far reaching consequences for female agency Within colonial America women continued to play a role in networks of support for mixed groups of pirates and sea rovers at the same time such groups of predators established contacts with women of varied backgrounds in the Caribbean and the Indian Ocean As such female agency formed part of the economic and social infrastructure which supported maritime enterprise of contested legality But it co existed with the victimisation of women by pirates including the Barbary corsairs As this study demonstrates the interplay between agency and victimhood was manifest in a campaign of petitioning which challenged male perceptions of women's status as victims Against this background the book also examines the role of a small number of women pirates including the lives of Mary Read and Ann Bonny while addressing the broader issue of limited female recruitment into piracy JOHN C APPLEBY is Senior Lecturer in History at Liverpool Hope University *Black Freedom, White Resistance, and Red Menace* Yasuhiro Katagiri, 2014-01-06 In *Black Freedom White Resistance and Red Menace* Yasuhiro Katagiri offers the first scholarly work to illuminate an important but largely unstudied aspect of U S civil rights history the collaborative and mutually beneficial relationship between professional anti Communists in the North and segregationist politicians in the South In 1954 the Supreme Court outlawed racial segregation in public schools with the *Brown v Board of Education* ruling Soon after while the political demise of U S senator Joseph R McCarthy unfolded northern anti Communists looked to the South as a promising new territory in which they could expand their support base and continue their cause Southern segregationists embraced the assistance and the methods of these Yankee collaborators and utilized the northern messiahs in executing a massive resistance to the Supreme Court's desegregation decrees and the civil rights movement in general Southern white leadership framed black southerners' crusades for social justice and human dignity as a foreign scheme directed by nefarious outside agitators race mixers and worse outright subversives and card carrying Communists Based on years of extensive

archival research *Black Freedom White Resistance and Red Menace* explains how a southern version of McCarthyism became part of the opposition to the civil rights movement in the South an analysis that leads us to a deeper understanding and appreciation for what the freedom movement and those who struggled for equality fought to overcome **The Making of the American Creative Class** Shannan Clark,2021 *The Making of the American Creative Class* narrates the history of workers in New York s publishing advertising design and broadcasting industries and their efforts to improve their working conditions set against the backdrop of the economic dislocations of twentieth century capitalism **Advertising on Trial** Inger L. Stole,2010-10-01 In the 1930s the United States almost regulated advertising to a degree that seems unthinkable today Activists viewed modern advertising as propaganda that undermined the ability of consumers to live in a healthy civic environment Organized consumer movements fought the emerging ad business and its practices with fierce political opposition Inger L Stole examines how consumer activists sought to limit corporate influence by rallying popular support to moderate and change advertising Stole weaves the story through the extensive use of primary sources including archival research done with consumer and trade group records as well as trade journals and engagement with the existing literature Her account of the struggle also demonstrates how public relations developed in order to justify laissez faire corporate advertising in light of a growing consumer rights movement and how the failure to rein in advertising was significant not just for civic life in the 1930s but for our era as well **The Defeat of a Renaissance Intellectual** Francesco Guicciardini,2019-05-17 A papal advisor and sixteenth century power broker Francesco Guicciardini wrote voluminously throughout his time in service to the Medici The texts in this volume chart his career chronologically revealing an intellectual whose philosophy of self interest failed not only to perceive the interests of others but ultimately to serve his own During Guicciardini s life Florentine politics was dominated by the struggle of republican leaders to retain civic political autonomy against the ambitions of the Medici family Like Machiavelli and Petrarch and arguably even Dante Guicciardini was what Carlo Celli calls an establishment intellectual one whose talents furthered the hegemony of authoritarian rule against the interests of his own class The letters treatises reports and orations included in this volume span Guicciardini s long career from his first appointment as ambassador to the Spanish court to just a few years before his forced retirement from political life They reveal Guicciardini s role as a protagonist in the events related in his famous *History of Italy* 1540 shed light on the self recriminations and remorse that sometimes gnawed at his conscience and explain why ultimately Guicciardini fell from political grace into irrelevance Through these previously untranslated writings *The Defeat of a Renaissance Intellectual* evidences the hard lessons Guicciardini learned in service to the Medici working within a corrupt system does not lead to solutions and reason and self interest are not foolproof guides for predicting human behavior This book will appeal especially to scholars who study the Medici clan the Italian Wars and Renaissance politics and history **The Rebirth of the West** Peter Duignan,Lewis H. Gann,1996 The years following World War II witnessed perhaps the greatest success story in

Western history the economic and political recovery of European democracies that had been devastated by the cataclysmic war Peter Duignan and L H Gann convincingly demonstrate that the deep involvement of the United States was a key factor in this success The Rebirth of the West is a broad narrative analysis of every important aspect of Western society during this formative period political economic social cultural and scientific In addition to providing an interpretive synthesis of the vast literature on the subject the authors make an important and original contribution to both the historical record of this period and current debates over the future of Europe Shaping the Future Horst Hutter,2006-01-01 Shaping the Future maps out the ascetic practices of a Neitzschean way of life Hutter argues that Nietzsche s doctrines are attempts and temptations that aim to provoke his free spirited readers into changing themselves by putting philosophy into practice in their lives **The Development Dictionary** Wolfgang Sachs,2010-01-15 In this classic collection some of the world s most eminent critics of development review the key concepts of the development discourse Each essay examines one concept from a historical and anthropological point of view highlights its particular bias and exposes its historical obsolescence and intellectual sterility The authors argue that a bidding farewell to the whole Eurocentric development idea is urgently needed in order to liberate people s minds in both North and South for bold responses to the environmental and ethical challenges now confronting humanity The combined result forms a must read invitation to experts grassroots movements and students of development to recognize the tainted glasses they put on whenever they participate in the development discourse **A Practical Treatise on the Law of Partnerships** Niel Gow,1825 **The Adelphi** ,1935 *A Study of Current Consumer Education Issues, Based Upon Opinions of Home Economics Professors, Business Professors and Other Professionals who are Members of the American Council on Consumer Interests* Fern Helene Rennebohm,1971 **The Goblin of Crotchets in the Gladstone Mind.
