War Monuments, Museums and Library Collections of 20th Century Conflicts Steve Rajtar, Frances Elizabeth Franks, 2015-07-11 This unique state by state directory covers monuments memorials museums markers statues and library collections that relate to the veterans weapons vehicles airplanes victims or any other aspect of war in which the United States participated While a site may have been created before 1900 such as a fort there must be some operational or historical tie to a twentieth century conflict to be included here General collections such as museums of aviation are included if they house materials related to a twentieth century conflict The coverage is so thorough that statues honoring veterans of the Civil War appear if veterans of later wars are on their rosters of honorees Another example of the comprehensiveness of this compilation is in the inclusion of memorials to victims of war such as the Holocaust Museum in Houston Texas For each site the following information is given street address phone number website and email address if applicable days and hours of operation admission fees other necessary information and a brief description of the site Otherworldly Maine Noreen Doyle, 2008-09-01 Elizabeth Hand Stephen King and Edgar Pangborn put Maine on the map as a place where otherworldly things happen But they re not the only authors who see the state as a source of inspiration for fantasy and science fiction Twenty four writers from Mark Twain to Jack L Chalker Gardner Dozois and yes Hand King and Pangborn present everything from dark fantasies of the past to a utopian vision of the future **The Return of Marco Polo's World** Robert D. Kaplan, 2019-05-21 A bracing assessment of U S foreign policy and world disorder over the past two decades from the bestselling author of The Revenge of Geography and The Coming Anarchy Kaplan has emerged not only as an eloquent defender of foreign policy realism but as a grand strategist to whom the Pentagon turns for a tour d horizon The Wall Street Journal In the late thirteenth century Marco Polo began a decades long trek from Venice to China along the trade route between Europe and Asia known as the Silk Road a foundation of Kublai Khan s sprawling empire Now in the early twenty first century the Chinese regime has proposed a land and maritime Silk Road that duplicates exactly the route Marco Polo traveled Drawing on decades of firsthand experience as a foreign correspondent and military embed for The Atlantic Robert D Kaplan outlines the timeless principles that should shape America s role in a turbulent world that encompasses the Chinese challenge From Kaplan s immediate thoughts on President Trump to a frank examination of what will happen in the event of war with North Korea these essays are a vigorous reckoning with the difficult choices the United States will face in the years ahead Praise for The Return of Marco Polo s World Elegant and humane a prophecy from an observer with a depressingly accurate record of predictions Bret Stephens The New York Times Book Review These essays constitute a truly pathbreaking brilliant synthesis and analysis of geographic political technological and economic trends with far reaching consequences The Return of Marco Polo s World is another work by Robert D Kaplan that will be regarded as a classic General David Petraeus U S Army Ret Thoughtful unsettling but not apocalyptic analyses of world affairs flow steadily off the presses and this is a
