Political Parties and Terrorist Groups Leonard Weinberg, Ami Pedahzur, Arie Perliger, 2008-11-19 This book is the definitive guide to the topical issue of the relationship between political parties that embrace the democratic process and terrorist groups which eschew the legal and procedural strictures of democracy. The fully revised edition continues to provide the most detailed theoretical and empirical analysis of this controversial issue, highlighting the fluid nature of boundaries between terrorist organisation and legitimate political party. Drawing on a vast array of data, the authors examine a large number of international case studies from Italy, Spain, Lebanon, Turkey, Iran, Israel, Palestine, Peru, Argentina, Japan, and Northern Ireland. By incorporating substantial new material on ETA, Hizbollah, and Hamas, this book retains its position at the forefront of the worldwide political discussion on terrorism and continues to be essential reading for all students, academics, and readers with an interest in security studies, terrorism, and political violence.

Political Parties and Democracy in Turkey Jacob M. Landau, Metin Heper, 2016-03-31 Since the establishment in 1945 of a constitutional democracy, political parties have figured prominently in Turkish politics. This book, first published in 1991, examines the role they have played. Key features of the political culture of the Turkish republic have created dilemmas for multi-party democracy. Atatürkism still exerts a powerful influence on the country's bureaucratic and military elites. With their notion of responsible leadership and of democracy as rational intellectual debate in pursuit of the best policy, they have expected an unrealistic degree of idealism and statesmanlike behaviour from the leaders of political parties. Three times in 1960, 1971, and 1980, the military has intervened in politics, on the third occasion to undertake wholesale constitutional and legal restructuring aimed at producing sensible politicians. Given these ambiguous circumstances, what role have the political parties themselves played in the promotion and functioning of democracy in Turkey, and what are their attitudes to the issues involved? This collection of essays discusses political parties since the foundation of the Turkish Republic in 1923 until the 1990s. With contributions from leading political scientists and historians of modern Turkey, it is indispensable reading for all those concerned with the country.

differences and these frequent changes affect the operation of democracy This book seeks to answer these questions by presenting a comprehensive overview of the state of party organization in nineteen contemporary democracies Using a unique new data collection the book's chapters test propositions about the reasons for variation and similarities across party organizations They find more evidence of within country similarity than of cross national patterns based on party ideology After exploring parties organizational differences the remaining chapters investigate the impact of these differences The volume considers a wide range of theories about how party organization may affect political life including the impact of party rules on the selection of female candidates the links between party decision processes and the stability of party programmes the connection between party finance sources and public trust in political parties and whether the strength of parties extra parliamentary organization affects the behaviour of their elected legislators Collectively these chapters help to advance comparative studies of elections and representation by inserting party institutions and party agency more firmly into the centre of such studies Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universite libre de Bruxelles Ferdinand Muller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston

Rural protest groups and populist political parties Dirk Strijker, Gerrit Voerman, Ida Terluin, 2023-08-07 Some agricultural or rural protest groups in the Western world evolved into political parties often of a populist nature whereas others did not This book is the first to explore under which conditions this happens and to what extent current populist parties have agricultural or rural ties and related agendas Well known authors with a background in rural studies or in political sciences describe and analyse the situation in a number of Western countries the United Kingdom France Poland Austria the Netherlands Australia Finland The contributions in this book show that the accessibility and responsiveness of the political system and the institutionalized agrarian interest groups as well as the existing political landscape are influencing the decisions of rural protest groups to found a political party However nowadays the chances of these parties being successful are small due to the declining share of the agricultural sector within European societies Although there will always be grounds for agrarian protest it seems safe to say that the heyday of agrarian populism is over

Political Parties in Post-Uprising Tunisia and Morocco Giulia Cimini, 2023-03-31 This book offers a comparative theory grounded study of Maghrebi political parties since the Arab uprisings specifically focused on Tunisia and Morocco in the first decade after the 2011 watershed elections Based on primary sources including in depth interviews and updated party statutes and bylaws the author introduces four case studies of key Islamist and anti Islamist parties exploring their organisational standing internal working and legitimating assets By

dwelling into a topic long neglected the author provides insight into the hybrid nature of political parties in the Maghreb oscillating between juxtaposed traditional and modern discourses and ambivalent sources of political authority As such it is hybridisation that shapes parties organisational choices and development and accounts for differences within parties In the wake of political liberalisation the author argues that political parties have become increasingly distant from society distrusted by a large part of the citizenry Ultimately the Tunisian and Moroccan cases invite reflection on similar phenomena taking place within the Middle East and North Africa region and even outside of it Bridging disparate disciplines including comparative politics area studies and contemporary Middle Eastern history the book will be of interest to a broad range of graduate level students and academics

Funding of Political Parties and Election Campaigns, 2014-04-01 All political parties need funding to play their part in the political process yet the role of money in politics is arguably the biggest threat to democracy today This global threat knows no boundaries and is evident across all continents from huge corporate campaign donations in the United States and drug money seeping into politics in Latin America to corruption scandals throughout Asia and Europe Attempts to tackle these challenges through political finance
