Reading Matters Ulrich Marzolph, 2023 The present book is a special gift for a special colleague and friend Defined as an Unfestschrift it gives colleagues students and friends of Regina Bendix an opportunity to express their esteem for Regina's inspiration cooperation leadership and friendship in an adequate and lasting manner The title of the present book Reading Matters is as close as possible to an English equivalent of the beautiful German double entendre Erlesenes meaning both something read a reading and something exquisite Presenting matters for reading the Unfestschrift unites short contributions about readings that mattered in some way or another for the contributors readings that had an impact on their understanding of whatever they were at some time or presently are interested in The term readings is understood widely Since most of the invited contributors are academics the term implies in the first place readings of an academic or scholarly nature In a wider notion however readings also refer to any other piece of literature the perception of a piece of art a painting a sculpture a performance listening to music appreciating a folkloric performance or a fieldwork experience or just anything else whose reading or individual perception has been meaningful for the contributors in different ways Contrary to a strictly scholarly treatment of a given topic in which the author often disappears behind the subject the presentations unveil and highlight the contributor's personal involvement and thus a dimension of crucial importance for ethnographers such as the dedicatee

Books As Weapons John B. Hench, 2016-10-15. Only weeks after the D Day invasion of June 6 1944 a surprising cargo crates of books joined the flood of troop reinforcements, weapons and ammunition, food and medicine onto Normandy beaches. The books were destined for French bookshops to be followed by millions more American books in translation but also in English ultimately distributed throughout Europe and the rest of the world. The British were doing similar work which was uneasily coordinated with that of the Americans within the Psychological Warfare Division of General Eisenhower's Supreme Headquarters Allied Expeditionary Force under General Eisenhower's command. **Books As Weapons** tells the little known story of the vital partnership between American book publishers and the U S government to put carefully selected recent books highlighting American history and values into the hands of civilians liberated from Axis forces. The government desired to use books to help disintoxicate the minds of these people from the Nazi and Japanese propaganda and censorship machines and to win their friendship. This objective dovetailed perfectly with U S publishers' ambitions to find new profits in international markets which had been dominated by Britain, France and Germany before their book trades were devastated by the war. Key figures on both the trade and government sides of the program considered books the most enduring propaganda of all and thus effective weapons in the war of ideas both during the war and afterward when the Soviet Union flexed its military might and demonstrated its propaganda savvy. Seldom have books been charged with greater responsibility or imbued with more significance. John B Hench leavens this fully international account of the programs with fascinating vignettes set in the war rooms of Washington and London, publishers' offices throughout the world and the jeeps in which information officers drove over bomb rutted roads to bring the books to people who were hungering for them. **Books as Weapons** provides context for continuing debates about the relationship between government and private enterprise and the image of the United States abroad.

Promoting Reading for Pleasure in the Primary School Michael Lockwood, 2008-06-24. Winner of the UKLA Author Award 2009. Lockwood has written a useful supportive book which will help teachers and librarians. He describes the background and summarises the research and then proposes thoroughly practical programmes. Carousel. Michael Lockwood has produced an excellent practical overview and analysis of what works in the primary school to promote reading for pleasure. Lockwood's work is grounded and valuable to those who need it most: teachers in the classroom working hard to engender a love of reading. English Drama Media. This book is first class. It puts the matter very clearly and succinctly and presents a great deal of evidence to support the argument that pleasure is not a frivolous extra but the very heart and essence of what reading is about. It also gives readers plenty of ideas for carrying the principle into the classroom and for justifying it. This is an excellent piece of work which I hope will find a place on every staffroom bookshelf. Philip Pullman. English primary school children are less likely to read for pleasure than their

counterparts in many other countries This practical and focused book discusses the background to this situation and looks at how government initiatives have tried to address it Drawing on the author s own research project in order to identify good practice in promoting reading for enjoyment the book presents specific activities which teachers can use to develop their own whole school and classroom practice enabling them to put the fun back into reading Each chapter features case study material and provides examples of planning from schools that have successfully created thriving reading cultures through schemes such as reading assemblies book clubs library loyalty cards school book evenings and quizzes There is also an extensive annotated list of print and internet based resources Topics covered include Becoming a reading for pleasure school Promoting a love of reading in the early years Developing reading enjoyment in the later primary years Getting boys reading Promoting Reading for Pleasure in the Primary School is written for all those involved in education who would like to see as many children as possible develop a love of reading It will be particularly relevant for primary teachers teaching assistants trainee teachers advisers and consultants as well as teacher educators and researchers

Reading Groups, Libraries and Social Inclusion Eileen Hyder,2016-04-01 Reading groups have grown rapidly in popularity and continue to be a significant cultural phenomenon Reading groups in public libraries linked to the learning and social inclusion agenda have expanded to include a wide range of groups within society including people with visual impairments VIPs This under researched area is the focus of this book Library based VIP reading groups are interesting on many levels Given that these groups predominantly use audio versions of the text rather than print this links to debates about the changing nature of reading in a multi modal age This book discusses whether contemporary

society still defines reading as a visual activity or whether technological developments have led to a broadening of the definition of reading The author goes on to discuss how policy is translated into practice within the library context and whether the wide range of reading groups linked to libraries suggests that libraries understand and are taking the social inclusion agenda seriously She also explores how effectively libraries are using reading groups as a tool for delivering on the agenda for learning and how this sits within wider priorities for post compulsory education and lifelong learning Finally the book suggests ideas for future development for these groups outlining ways in which their potential could be maximised for the benefit of both the library and the reading group members The book will be of great interest to professional librarians as well as students and scholars of librarianship It will also be of interest to those working on the emerging field of reading groups in literary studies Those interested in the role of reading in education as well as disability scholars will also find the book useful
