The Queer Encyclopedia of the Visual Arts is a comprehensive work showcasing the enormous contribution of gay, lesbian, bisexual, transgender, and queer artists to painting, drawing, photography, printmaking, sculpture, and architecture. International in scope, the volume includes overviews of the various periods in art history from Classical Art to Contemporary Art and from African Art to Erotic and Pornographic Art, discussions of topics ranging from AIDS Activism in the Arts, Censorship in the Arts, and the Arts and Crafts Movement to Pulp Paperbacks and Their Covers, surveys of the representation of various subjects in the visual arts from Androgyny to Vampires, and biographical entries on significant figures in the history of art such as Andy Warhol, Keith Haring, El Greco, Leonardo da Vinci, David Hockney, Ruth Bernhard, Rosa Bonheur, Romaine Brooks, Simeon Solomon, and Nahum Zenil. Includes more than 100 illustrations and photographs. **Travel & See** Kobena Mercer,2016-02-04 Over the years Kobena Mercer has critically illuminated the visual innovations of African American and black British artists. In *Travel & See* he presents a diasporic model of criticism that gives close attention to aesthetic strategies while tracing the shifting political and cultural contexts in which black visual art circulates. In eighteen essays which cover the period from 1992 to 2012 and discuss such leading artists as Isaac Julien, Renée Green, Kerry James Marshall, and Yinka Shonibare, Mercer provides nothing less than a counternarrative of global contemporary art that reveals how the dialogical principle of cross-cultural interaction not only has transformed commonplace perceptions of blackness today but challenges us to rethink the entangled history of modernism as well. **Photography - A Queer History** Flora Dunster,Theo Gordon,2024-02-29 *Photography: A Queer History* examines how photography has been used by artists to capture, create, and expand the category 'Queer'. It bookmarks different thematic concerns central to queer photography, forging unexpected connections to showcase the diverse ways the medium has been used to fashion queer identities and communities. How has photography advanced fights against LGBTQ discrimination? How have artists used photography to develop a queer aesthetic? How has the production and circulation of photography served to satisfy the queer desire for images and created transnational solidarities? *Photography: A Queer History* includes the work of 84 artists. It spans different historical and national contexts and, through a mix of thematic essays and artist-centred texts, brings young photographers into conversation with canonical images. **Queer Methodology for Photography** Asa Johannesson,2024-02-01 This book presents new ways of approaching photographic discourse from a queer perspective, offering discussions on what a queering methodology for photography may entail by drawing links between artistic strategies in photographic practice and key theoretical concepts from photography theory.

queer theory critical theory and philosophy With different examples of conceptual perspectives including representation formalism and mediumlessness it seeks to diversify queer methodology for photography While primarily addressing photography this book is entwined with broader philosophical questions concerning identity difference and the creations of systems of thought that limit the possibilities of existence to binary categorisation It proposes a new concept of the photographic image that addresses its materiality in the form of the poetic and the political in relationship to a generative principle that is named as a queer quality the photograph's ability to voice queer concerns also beyond its role as representation This book will be of interest to scholars working in photography art history queer studies new materialism and posthumanism
