Second Metropolis Blair A. Ruble, 2001-05-28 By exploring and comparing North America's Russia's and Japan's second cities Chicago Moscow and Osaka *Second Metropolis* discloses the extent to which social fragmentation frequently viewed as an obstacle to democratic development actually fostered a pragmatic pluralism that nurtured pluralistic public policies Such policies are explored through six case studies the politics of street railways and charter reform in Chicago adult education and housing in Moscow and harbor revitalization and poverty alleviation in Osaka that illustrate how even those with massive political and economic power were stymied by the complexity of their communities Chicago Moscow and Osaka though the products of very different nations and cultures nonetheless shared an important experience of inclusive politics during an era of extraordinary growth and social diversity The success of all three cities which went well beyond mere survival rested on a distinctive

United States-Russian/Soviet Relations** Norman E. Saul,2008-11-18 For more than 200 years the United States and
Russia have shared a multi faceted relationship Because of the rise of power the two countries enjoyed in the late 19th and
through the 20th century Russian American relations have dominated much of recent world history Prior to World War II the
two countries had relatively friendly contacts in culture commerce and diplomacy however as they contested for supremacy
during the Cold War relations turned hostile and competitive With the apparent end of the Cold War with the collapse of the
Soviet Union and of communism in 1991 the relationship continues to evolve and the future looks uncertain but promising
The Historical Dictionary of United States Russian Soviet Relations identifies the key issues individuals and events in the
history of U S Russian Soviet relations and places them in the context of the complex and dynamic regional strategic political

War is often viewed in absolutist terminology the United States and the Soviet Union characterized one another in
oppositional rhetoric and pejorative propaganda State sanctioned communications stressed the inherent dissimilarity
between their own citizens and those of their Cold War foe Such rhetoric exacerbated geopolitical tensions and heightened
Cold War paranoia most notably during the Red Scare and brinkmanship incidents Government leaders stressed the reactive
defensive foreign policies they implemented to retaliate against their counterparts offensive maneuvers Only brief periods of
d tente gave glimpses into the possibility of concerted peaceful coexistence Yet such characterizations neglect the
complexities and rhetorical nuances that created fissures throughout the long standing ideological conflict Grassroots
diplomacy rarely coalesced with official governmental rhetoric and often contradicted the discourse emanating from the
White House and the Kremlin Organizations such as Women Strike for Peace WSP the Committee for Nonviolent Action
CNVA and the Moscow Trust Group MTG defied policy directives and sought to establish genuine peaceful coexistence
Traveling citizens posited that U S and Soviet citizens possessed more underlying commonalities than their governmental
leaders cared to admit phenomena underscored in events such as the San Francisco to Moscow Walk for Peace Spacebridge
programs railed against the Strategic Defense Initiative SDI and proclaimed that figurative and literal links between their
country and the Other proved more conducive to public opinion than Star Wars Iron Curtain Twitchers examines such
juxtaposing rhetorics through three lexical themes contamination containment and coexistence It analyzes the disparate

perspectives of public politicians and private citizens throughout the Cold War's duration and its aftermath to better understand the political cultural and geopolitical nuances of U S Russia relations Vacillating rhetoric among politicians journalists and traveling citizens complicated geopolitical relationships sociopolitical disagreements and cultural characterizations These dialogues are contrasted with the cultural mediums of film and political cartoons to underscore fluctuating Cold War identity dynamics Manifestations of one's own country contrasted with propagations of the Other and indicate that the Cold War lasted much longer and remains more virulent than previously conceived

Transnational Russian-American Travel Writing Margarita Marinova, 2012-05-22 In this study Marinova examines the diverse practices of crossing boundaries tactics of translation and experiences of double and multiple political and national attachments evident in texts about Russo American encounters from the end of the American Civil War to the Russian Revolution of 1905 Marinova brings together published writings archival materials and personal correspondence of well or less known travelers of diverse ethnic backgrounds and artistic predilections from the quintessential American Mark Twain to the Russian Jewish ethnographer and revolutionary

Vladimir Bogoraz from masters of realist prose such as the Ukrainian born Vladimir Korolenko and the Jewish Russian American Abraham Cahan to romantic wanderers like Edna Proctor Isabel Hapgood or Grigorii Machtet By highlighting the reification of problematic stereotypes of ethnic and racial difference in these texts Marinova illuminates the astonishing success of the Cold War period s rhetoric of mutual hatred and exclusion and its continuing legacy today **Catalogue** New York Free Circulating Library.
