**Rousseau and Marx** Galvano Della Volpe, 1979      The Humanist Controversy and Other Writings François Matheron, Louis Althusser, 2020-05-05 There can be little doubt that Louis Althusser was one of the most influential philosophers of the twentieth century and his influence subsists in many of the concepts currently deployed in disciplines such as cultural studies social theory and literary criticism Yet Althusser was also a leading intellectual in the French Communist Party and a foremost participant in the debates in the human sciences that are marked by the names of Claude Lvi Strauss Jacques Lacan and Georges Canguilhem His writings were major interventions in a specific political and theoretical conjuncture and it is this aspect of his work that this new collection of previously untranslated texts seeks to reflect Consisting of writings from the very height of Althusser's intellectual powers during the period 1966-67 this book covers among other things the critique of Lvi Strauss's structuralism the theory of discourse and its relationship to psychoanalysis the place of Ludwig Feuerbach the tasks of Marxist philosophy and the famous humanist controversy

Marxism and Totality Martin Jay, 1984 Totality has been an abiding concern from the first generation of Western Marxists most notably Lukács Korsch Gramsci and Bloch through the second exemplified by the Frankfurt School Lefebvre Goldmann Sartre Merleau-Ponty and Della Volpe up to the most recent typified by Althusser Colletti and Habermas Yet no consensus has been reached concerning the term's multiple meanings expressive decentered longitudinal latitudinal normative or its implications for other theoretical and practical matters By closely following the adventures of this troublesome but central concept Marxism Totality offers an unconventional account of the history of Western Marxism      *Constitutionalism beyond Liberalism* Michael W. Dowdle, Michael A. Wilkinson, 2017-01-26 Constitutionalism beyond Liberalism bridges the gap between comparative constitutional law and constitutional theory The volume uses the constitutional experience of countries in the global South China India South Africa Pakistan Indonesia and Malaysia to transcend the liberal conceptions of constitutionalism that currently dominate contemporary comparative constitutional discourse The alternative conceptions examined include political constitutionalism societal constitutionalism state-based Rousseauian conceptions of constitutionalism and geopolitical conceptions of constitutionalism Through these examinations the volume seeks to expand our appreciation of the human possibilities of constitutionalism exploring constitutionalism not merely as a restriction on the powers of government but also as a creating collective political and social possibilities in diverse geographical and historical settings

**Social Institutions and the Politics of Recognition: From the Reformation to the French Revolution** Tony Burns, 2020-08-19 This second volume continues the story told in the first by focusing on the writings of a selection of seminal thinkers in the seventeenth and eighteenth centuries in England the German-speaking world and in France ending with the debate around the French Revolution of 1789 Tony Burns discusses the work of Thomas Hobbes John Selden Sir Matthew Hale John Locke Samuel Clarke Johannes Althusius Samuel Pufendorf Gottfried Wilhelm Leibniz Jean Barbeyrac the

anonymous author of Militaire philosophe Claude Buffier l abb de Saint Pierre Jean Jacques Burlamaqui Montesquieu Jean Jacques Rousseau l abb de Siey s Jeremy Bentham Immanuel Kant Mary Wollstonecraft and Claude Henri de Saint Simon The author concludes with an analysis of the concept of administration in the writings of Saint Simon as a point of transition to the discussion of the themes of bureaucracy technocracy and managerialism in the third volume *Marx for Our Times* Daniel Bensaïd,2002 Without denying the contradictory character of Marx s thought Daniel Bensaïd sets out to demonstrate that it was not a philosophy of the end of history an empirical sociology of classes or a positive science of economics positing an inexorable progress towards an ineluctable communism Instead Marx s critique of political economy encompassed three great critiques of the scientific and political canons of its age of historical reason sociological rationality and scientific positivism which make the thinker from the nineteenth century fully relevant to the twenty first century of global capitalism Indeed we find here a post postmodern Marx able to inhabit a contemporary world replete with contingency emergency and contradictory temporalities Published in France on the eve of the strikes of 1995 that signalled a profound revolt against la pensee unique Marx for Our Times is an invitation to rediscover our foremost contemporary Karl Marx People's Power Peter Roman,2019-07-11 The study on which this book is based began in 1986 with the fifth legislative session of the Cuban municipal assemblies The research on which the book is based was supported in part by grants from the City University of New York PSC CUNY Research Foundation **Hegel's Philosophy of Right After 200 Years** Shterna Friedman,2022-10-20 Hegel s Philosophy of Right 1820 articulated a startling new vision of modern society as an integrated whole governed by the principle of freedom a vision that profoundly altered political theory and through Hegel s influence on Marx deeply changed the world in which we live Yet Hegel s thought is so notoriously obscure that it is difficult to pull together its many complex threads in order to understand what he accomplished and how he managed to do it In this volume leading political theorists and philosophers attempt to illuminate the impact of Hegel by looking back on the Philosophy of Right after two centuries shedding light on some of its most controversial elements Among the topics discussed are Hegel s theory of bureaucracy Marx s critique of that theory Hegel s alternative to nationalism his political cosmology his critique of natural law his organic idea of the good and his view of totality The contributors are Frederick Beiser Shterna Friedman Darren Nah Frederick Neuhausser Angelica Nuzzo Alan Patten Terry Pinkard Paul Rosenberg and Jacob Roundtree This book was originally published as a special issue of Critical Review **The Unfinished System of Karl Marx** Judith Dellheim,Frieder Otto Wolf,2018-04-13 This book examines what we can gain from a critical reading of Marx s final manuscript and his conclusion of the systematic presentation of his critique which was the basis for Engels s construction of the third volume of his infamous Capital The text introduces the reader to a key problem of Marx s largely implicit epistemology by exploring the systematic character of his exposition and the difference of this kind of systematicity from Hegelian philosophical system construction The volume contributes to establishing a new understanding of the critique of

political economy as it has been articulated in various debates since the 1960s especially in France Germany and Italy and as it had already been initiated by Marx and some of his followers with Rosa Luxemburg in a key role All the chapters are transdisciplinary in nature and explore the modern day relevance of Marx's and Luxemburg's theoretical analysis of the dominance of the capitalist mode of production

*The Regime of the Brother* Juliet Flower MacCannell, 2002-01-22 The Regime of the Brother is one of the first attempts to challenge modernity on its own terms Using the work of Lacan Kristeva and Freud Juliet MacCannell confronts the failure of modernity to bring about the social equality promised by the Enlightenment On the verge of its destruction the Patriarchy has reshaped itself into a new and often more oppressive regime that of the Brother Examining a range of literary and social texts from Rousseau's Confessions to Richardson's Clarissa and from Stendhal's De L'Amour to James's What Maisie Knew and Jean Rhys's Wide Sargasso Sea MacCannell illustrates a history of the suppression of women revealing the potential for a specifically feminine alternative

**The Radical Attitude and Modern Political Theory** J. Edwards, 2006-11-14 The Radical Attitude and Modern Political Theory focuses on the appearance of modernity that can be best described as radical First appearing in the sixteenth century the attitude is best seen not as a coherent ideology or tradition but as a series of conceptual resources that continue to inform political discourse in the present

**Harold Laski, the Reluctant Marxist** Peter Lamb, 2024-09-13 This book examines Harold Laski's relationship to Marxism Laski was a reluctant Marxist he had been a pluralist democratic socialist who wanted to reach a better society by means of parliamentary constitutional and associational channels In fact he never abandoned these early aspirations In the 1930s and 1940s he wove them into a distinctive Marxist position as he gradually came to believe that there was no answer to Marxist philosophy on history social change and the prospects for socialism It is the incorporation of his earlier political thought into his later work that makes his Marxism so fascinating and his work raises important questions Harold Laski's Marxism aims to bring a relatively forgotten political theorist back into the spotlight Peter Lamb provides an overview to Laski's political thought in the 20th century and explores his connections to essential foundations of Marxist thought He ends with a discussion of ways in which Laski's Marxism is of lasting significance and can contribute to more recent Marxist and neo Marxist debates

*The First Marx* Peter Lamb, Douglas Burnham, 2018-11-15 Marx's early work is well known and widely available but it usually interpreted as at best a kind of stepping stone to the Marx of Capital This book offers something completely different it reconstructs from his first writings spanning from 1835 to 1846 a coherent and well rounded political philosophy The influence of Engels upon the development of that philosophy is discussed This it is argued was a philosophy that Marx could have presented had he put the ideas together as he hinted was his eventual intention Had he done so this first Marx would have made an even greater contribution to social and political philosophy than is generally acknowledged today Arguments regarding revolutionary change contradiction and other topics such as production alienation and emancipation contribute to a powerful analysis in the early works of Marx one which is

worthy of discussion on its own merits This analysis is distributed among a range of books papers letters and other writings and is gathered here for the first time Marx s work of the period was driven by his commitment to emancipation Moreover as is discussed in the conclusion to this book his emancipatory philosophy continues to have resonance today This new book presents Marx in a unique new light and will be indispensable reading for all studying and following his work
