Routemaster Jubilee:

Routemaster Jubilee Geoff Rixon,2004-10 Geoff Rixon presents a pictorial tribute to the Routemaster and its decades of service both inside and beyond London The reader is provided with a history of the type from its origins in the early 1950s through to the present day

Last Years of the London Routemaster Matthew Wharmby,2025-08-05 The last decade of Routemaster bus operation in London saw over seven hundred surviving RMs and RMLs divided between several new companies following the privatization of London Buses Ltd s subsidiaries in 1994 Now operating their existing twenty routes under contract to LRT renamed TfL in 2000 Centrewest Metroline MTL London Northern Leaside Buses Stagecoach East London South London London Central London General and London United all adopted their own predominantly red liveries but by the turn of the century these firms had clustered in pairs and generally sold out to the emerging big corporate groups Two independents BTS and Kentish Bus had also won a Routemaster route each and were similarly brought under the control of larger parents In this photographic archive each company s last Routemaster operating decade is outlined in detail up to when each route was converted to OPO one by one between 29 August 2003 and 9 December 2005 The two heritage routes are then explored all the way up to their own end in 2019

A History of British Royal Jubilees June Woolerton,2022-09-22 As Queen Elizabeth II became the only British Monarch to rule for seventy years she marked the historic moment with a simple message promising to continue her lifetime of service But while her Jubilee day was quiet it was merely the start of a year long celebration that would see millions around the world join the royal party Jubilees have become regular events in The Queen s long reign but they are a relatively modern idea which only really took hold in the reign of King George III Initially rejected by many as a frivolity the first royal Jubilee became a huge success It was a beguiling mix of pageantry religious devotion and popular celebrations including street parties that has been copied in the Jubilees that followed Queen Victoria enjoyed two successful celebrations including Britain s first Diamond Jubilee which helped re establish her popularity and consolidate the Monarchy King George V turned to the joy of a Jubilee to re invigorate his country as it recovered from war and economic woes In the reign of his granddaughter Elizabeth II Jubilees have been transformed into modern media events celebrated globally In A History of British Royal Jubilees we trace the ever evolving story of these popular celebrations bringing each of them to life and looking at how they changed the image of royalty and the country itself This is the story of how Jubilee celebrations have become vital to the success of Britain s Royal Family and to its place at the heart of a nation

Wharmby,2016-02-29 The Olympian was Leyland's answer to the competition that was threatening to take custom away from its second generation OMO double deck products. Simpler than the London Transport-centric Titan but unlike that integral model able to respond to the market by being offered as a chassis for bodying by the bodybuilder of the customer's choice the Olympian was an immediate success and soon replaced both the Atlantean and Bristol VRT as the standard double decker of the NBC. It wasn't until 1984 that London Transport itself dabbled with the model taking three for evaluation alongside trios of contemporary double deckers. The resulting L class spawned an order for 260 more in 1986 featuring accessibility advancements developed by LT in concert with the Ogle design consultancy but the rapid changes engulfing the organisation meant that no more were ordered. During the 1990s company ownerships shifted repeatedly as the ethos of competition gave way to the cold reality of big business an unstable situation which even saw London's bus operations broken up. The L class was split between three new companies but the backlog of older vehicles to replace once corporate interests released funding ensured the buses up to a further decade in service. Finally as low floor buses swept into the capital at the turn of the century Olympian operation at last declined and the final examples operated early in 2006. This profusely illustrated book describes the diversity of liveries ownerships and deployments that characterised the London Leyland Olympians two decades of service.

[The London Bendy Bus](#) Matthew Wharmby,2016-03-30 Between 2002 and 2006 six of London's bus companies put into service 390 articulated bendy buses on twelve routes for transport in London. During

what turned out to be a foreshortened nine years in service the Mercedes Benz Citaro G buses familiar on the continent and worldwide earned an unenviable reputation in London according to who you read and who you believed they caught fire at the drop of a hat they maimed cyclists they drained revenue from the system due to their susceptibility to fare evasion they transported already long suffering passengers in standing crush loads like cattle and they contributed to the extinction of the Routemaster from frontline service In short it was often referred to as the bus we hated rnrnThis account is an attempt by a long time detractor of the bendy buses to set the vehicles in their proper context not quite to rehabilitate them but to be as fair as is possible towards a mode of transport which felt about as un British as could be
