The Sound of a Superpower Emily Abrams Ansari, 2018-05-15 Classical composers seeking to create an American sound enjoyed unprecedented success during the 1930s and 1940s Aaron Copland Roy Harris Howard Hanson and others brought national and international attention to American composers for the first time in history In the years after World War II however something changed The prestige of musical Americanism waned rapidly as anti Communists made accusations against leading Americanist composers Meanwhile a method of harmonic organization that some considered more Cold War appropriate serialism began to rise in status For many composers and historians the Cold War had effectively killed off musical Americanism In The Sound of a Superpower Musical Americanism and the Cold War Emily Abrams Ansari offers a fuller more nuanced picture of the effect of the Cold War on Americanist composers The ideological conflict brought both challenges and opportunities Some Americanist composers struggled greatly in this new artistic and political environment Those with leftist politics sensed a growing gap between the United States that their music imagined and the

aggressive global superpower that their nation seemed to be becoming But these same composers would find unique opportunities to ensure the survival of musical Americanism thanks to the federal government which wanted to use American music as a Cold War propaganda tool By serving as advisors to cultural diplomacy programs and touring as artistic ambassadors the Americanists could bring their now government backed music to new global audiences Some with more right wing politics meanwhile would actually flourish in the new ideological environment by aligning their music with Cold War conceptions of American identity The Americanists efforts to safeguard the reputation of their style would have significant consequences Ultimately Ansari shows they effected a rebranding of musical Americanism with consequences that remain with us today

Nationalist and Populist Composers Steve Schwartz,2017-12-22 Populism and nationalism in classical music held a significant place between the world wars with composers such as George Gershwin Aaron Copland and Leonard Bernstein creating a soundtrack to the lives of everyday Americans While biographies of these individual composers exist no single book has taken on this period as a direct contradiction to the modernist dichotomy between the music of Stravinsky and Schoenberg In *Nationalist and Populist Composers Voices of the American People* Steve Schwartz offers an overdue correction to this distortion of the American classical music tradition by showing that not all composers of this era fall into either the Stravinsky or Schoenberg camps Exploring the rise and decline of musical populism in the United States Schwartz examines the major works of George Gershwin Randall Thompson Virgil Thomson Aaron Copland Roy Harris Kurt Weill Morton Gould and Leonard Bernstein Organized chronologically chapters cover each composer s life and career and then reveal how key works participated in populist and nationalist themes Written for the both the scholar and amateur enthusiast interested in modern classical music and American social history *Nationalist and Populist Composers* creates a contextual frame through which all audiences can better understand such works as *Rhapsody in Blue* *Appalachian Spring* and *West Side Story*
