New Zealand's Vietnam War Ian McGibbon, 2014-06-18 This landmark publication provides a comprehensive and authoritative account of New Zealand's involvement in the Vietnam War and will remain the standard reference work on the subject for decades. Its publication completes the programme of official war histories that began in 1945. Ian McGibbon's primary focus is what New Zealand did in South Vietnam. He traces in detail the operations carried out by New Zealand forces and seeks to illuminate the experience of New Zealand soldiers fighting in a guerrilla war. The command structure, logistic support and operational context of fighting within a primarily Australian framework are all covered. He addresses controversial aspects such as friendly fire incidents, atrocity allegations and veterans' grievances including over Agent Orange. Maori participation in V Force was substantial and its impact is assessed. Although the book is inevitably weighted towards the military, the efforts of civilians in South Vietnam are also covered in depth. The surgical team operated from 1963 until their evacuation from Qui Nhon just days before North Vietnamese columns entered the city. Not forgotten are the efforts of courageous civilians like Sister Mary Laurence and of Red Cross volunteers to alleviate misery among refugees. The book also describes the dramatic end of New Zealand's involvement in South Vietnam with the surgical team and the New Zealand Embassy evacuated by RNZAF Bristol Freighters just before the communist victory. Finally, McGibbon surveys the war's troubled aftermath culminating in the Prime Minister's apology to veterans in 2008.

The British Commonwealth and Victory in the Second World War Iain E. Johnston-White, 2016-12-28 This book is the first comprehensive study of the British Commonwealth in the Second World War. Britain and its Dominions—Canada, Australia, New Zealand and South Africa—formed the most durable cooperative and interchangeable alliance of the war. Iain E. Johnston-White looks in depth at how the Commonwealth war effort was financed, the training of airmen for the air war, the problems of seaborne supply and the battles fought in North Africa. Fully one-third of the British effort originated in the Dominions, a contribution that was only possible through the symbiotic relationship that Britain maintained with its former settler colonies. This cooperation was based upon a mutual self-interest that was largely maintained throughout the war. In this book, Johnston-White offers a fundamental reorientation in our understanding of British grand strategy in the Second World War.

New Zealand and the Vietnam War Roberto Rabel, 2013-11-01 Starting with the first Indochina War in the 1950s, this historical analysis covers the story of New Zealand's relations with Vietnam up to the end of the Vietnam War in the 1970s. Exploring the diplomatic history of the engagement, which is not well known or understood, and showing that New Zealand officials and politicians in fact entered the war with extreme reluctance, this describes how the dispatch of troops to Vietnam divided the country, enraged a generation and forced the government to publicly defend its policy. Readers quickly discover that the

fallout from the Vietnam conflict still affects New Zealand's position today from its well known antinuclear stance to its position over the recent Iraq conflict
