Royal R. Rife Humanitarian Gerald F. Foye, 2002-03-30 Royal Raymond Rife 6 16 1888 8 5 1971 inventor innovator researcher optical technician microbiologist A true genius a man of phenomenal capabilities Rife was not satisfied with the limited capabilities of microscopes of the era due to insufficient magnification and inability to view microorganisms in their live natural state In order to solve these troublesome issues Rife spent years in optical research before he was able to design and construct a microscope to meet his requirements On completion of his Rife Prismatic Virus Microscope Rife was able to view a previously hidden microscopic realm never before seen by man A new understanding of microorganisms allowed Rife to identify isolate and manipulate disease causing organisms including cancer He thus was able to cure major diseases including cancer This was done with a system of radiant frequency energy emission a simple non invasive procedure Although Rife proved over and over that diseases could be controlled with his simple concept the world of medical science was not ready for such technology and refused to accept it The material in this book covers the historical background of Rife and his concepts of radiant frequency energy healing

Infinite Energy Technologies Finley Eversole, 2012-12-14 Clean sustainable energy solutions from the geniuses of our past and the visionaries of our future Explores five great but nearly forgotten minds of the past John Worrell Keely Nikola Tesla Viktor Schauberger Royal Raymond Rife and T Townsend Brown and their revolutionary discoveries Reveals information from leading experts on cold fusion zero point energy power from water antigravity and the free energy potential of the Searl Effect Generator As the global need for clean renewable energy grows and the shortage of viable large scale solutions continues it is time to look to the geniuses of our past and the visionaries of our future for answers Taking inspiration from Albert Einstein s statement that Problems cannot be solved by the same level of thinking that created them Finley Eversole explains that the key to a pollution and poverty free future of infinite energy lies not in pursuing one single method but in investigating all the possibilities in uniting as a world in creative pursuit of global transformation Exploring five nearly unknown geniuses of our past John Worrell Keely Nikola Tesla Viktor Schauberger Royal Raymond Rife and T Townsend Brown and their revolutionary discoveries about free energy electricity water vortex motion electric ray and super microscope technology and antigravity this book helps to restore their long suppressed scientific legacies and bring us one step closer to the destiny they foresaw Eversole has gathered research from leading experts on cold fusion zero point energy power from water and the free energy potential of the Searl Effect Generator to reveal technologies that work with Nature s laws and that if fully implemented could establish sustainable energy systems in a single generation

Rhythmic Stimulation Procedures in Neuromodulation James R. Evans, Robert Turner, 2017-06-24 Rhythmic Stimulation Procedures in Neuromodulation offers a unique approach to rhythm related stimulation as it pertains to modulating neural functioning with the goal of alleviating symptoms of mental disorder Rhythm and related concepts frequency resonance entrainment are thought by many to be closely linked to human health and disease

Neurologists and clinical psychologists facilitate neuroplasticity by using pulsed rhythmic sensory or electromagnetic stimulation a group of techniques broadly referred to as neuromodulation This edited volume describes details of rhythm related neuromodulation techniques and experts in the field have detailed the pros and cons of each approach citing both clinical and scientific support Each technique chapter provides a detailed description of the procedure a rationale for application with specific populations discussion of similarities differences relative to other approaches and support for efficacy This volume offers readers a historical overview of the roles of rhythm and dysrhythmia in health and disease including examples of past and present therapeutic uses of rhythmic stimulation entrainment and or modification It also facilitates speculation about potential developments in rhythm related methods for the future of mental health Few books published in the general area of rhythm have focused on the scientific study of the significance of biological rhythms Discusses features of the generally unknown early history of using rhythmic stimulation procedures in treating various disorders Provides an overview of the extent to which rhythmic stimulation of various types are basic to the majority of alternative and complementary medicine fields Provides details of several of today s more commonly used stimulation techniques for neuromodulation discussing the theoretical foundations and limitations of each and providing clinical and scientific research evidence for their treatment efficacy in specific applications Discusses current directions in which stimulation techniques are moving and speculates on the promise they hold for major changes in mental health care

An End to All Disease Lt. Lawrence F. Frego, 2006-07-19 We are at the crossroads of world health On the one hand we face the possibility of a world wide pandemic the likes of which has never been seen before We are likewise on the threshold of discovering natural cures for nearly every disease As choosing wisely may mean the difference between life and death this book is designed to help the reader choose alternative options that are seldom if ever in the news Jared Diamond in his groundbreaking work *Collapse How Societies Choose to Fail or Succeed* addresses the fact that only civilizations that recognize the threats against their existence and deal with the threat effectively survive Civilizations with their heads in the sand become extinct or are conquered by more vigorous nations The robber barons of the last century were able to create a monopoly for oil and the automobile by ruthlessly and systematically destroying all competition They tore up cable car lines and public transportation so the public would have no other alternative except their oil Today the drug monopolies owned by the descendants of these same robber barons are nearly complete in their plot to eradicate all natural low cost remedies for disease prevention and treatment In the state of Florida naturopathic physicians were de licensed unless they also had a conventional medical license The powers that be want to create a drug induced society at an enormous financial and emotional cost to the public at large They are even trying to outlaw vitamins via European health treaties and side step the American constitution and the public The ever escalating cost of medical care created by lack of natural alternative options can only lead to the eventual total collapse of the entire medical system It is exceedingly difficult finding the truth about

alternative medicine as the system has a vested interest in making profits and keeping the truth from you A few thousand deaths is an acceptable loss if a few billion dollars can be made And it will be a cold day in hell before a drug company puts itself out of business by telling you about a low cost natural cure that their product can manage The guardians of public health know which side their toast is buttered on also The career politicians and beltway bandits at the FDA know where the money is and they don't get it from you or providers of natural cures The drug monopolies pay the big bucks There have been no checks and balances Corruption has become so pronounced that the US House of Representatives is seeking to pass the Consumers Access to Health Information Act H R 2352 to ensure that accurate health claims ARE NOT SUPPRESSED Consumers would be given TRUTHFUL AND COMPLETE information about the curative mitigation treatment and prevention effects of foods and dietary supplements on disease or health related conditions The time to exercise your God given right to the health care of your choice is now www.lef.org America has the finest emergency health care in the world Bar none However that is not the nature of the coming threat American baby boomers will soon be retiring in the tens of millions Their health care needs will be staggering and costly However 92% of American health care providers are trained in emergency medicine and only 8% in long term preventative medicine As it takes a minimum of 6 7 years to obtain a medical degree America is unprepared for a crisis that is inevitable *CANCER REMEDIES That the Medical Establishment Doesn't Want You to Use* Carolyn D'Our, 2016-05 This book is about the cancer industry's conspiracy to suppress alternative natural cancer therapies because they are not profitable It discusses and provides evidence of the medical industry's plot to destroy the work and therapies of alternative practitioners It also lists a number of successful cancer therapies and discusses techniques to aid in the prevention of cancer Chemical Warfare on America George Orville, 2018-03-05 I received my bachelor of science degree in analytical chemistry from Wayne State University in Detroit Michigan My first full time employment after graduation was with Federal Food and Drug Administration The duties consisted of analyzing food and drugs that was being sold in the United States It also included analyzing food products imported from foreign nations for any pest contamination The food products from large food producing manufacturers were also analyzed for pest contamination and content The drugs were analyzed for amount specified on labels There were numerous FDA laboratory districts established nationwide The Detroit district employed about forty analytical chemists and about forty to fifty inspectors Our district director emphasized on us the importance of our work Two of the important items mentioned to our occasional gathering emphasized the importance of FDA work One was the advent of sulfa drugs prior to antibiotics that were widely used and they were highly not soluble Someone at one of the manufacturing outfits figured out a way of dissolving the sulfa drugs in ethylene glycol car cooling system liquid highly poisonous This elixir was used on a ten year old boy who died due to the poison The other item he mentioned was an inspector at a tuna canning manufacturer observed how some decomposed sections of the fish were slowly incorporated into the final canned product It is a shame that these highly guarded human health districts
