Forward Air Bases in Europe from D-Day to the Baltic Trevor Stone,2025-08-05 The largely sea borne invasion of Northern France in June 1944 Operation Overlord is acknowledged as one of the key actions which hastened the end of the Second World War The RAF played a vital part in the landings It then supported the subsequent advance of Montgomery s 21st Army and the Allies as a whole through France Belgium Holland and into Germany Following the breakout from the Normandy bridgehead in early August 1944 the RAF s Second Tactical Air Force moved forward in support of the troops occupying a number of temporary airfields as it went The ground support for this operation was complex a situation that was exacerbated by the fact that much of it had to be highly mobile The advance however was rapid and soon ran into problems as the supply lines grew longer by the day The planners

had envisaged that capturing the Belgian port of Antwerp would eventually enable them to bring in vitally needed supplies much further north on the Continent Although the city and its port were liberated in September 1944 the port's route to the sea along the River Scheldt was still controlled by German forces It took nearly three months until this was resolved and the port opened for business Until then in the RAF's equivalent of the US Army's famed Red Ball Express it was some 300 miles by road from Normandy with the Second Tactical Air Force largely reliant on the Army for transporting its needs For an air force needing large volumes of fuel and ammunition demand soon began to outpace supply A number of emergency measures were put in place to keep the aircraft operational which saw the RAF resorting to the use of its heavy bombers to fly in supplies Even when Antwerp was up and running supplying the Second Tactical Air Force remained a hand to mouth affair right through until the enemy's surrender in May 1945 In *Forward Air Bases in Europe from D Day to the Baltic* the author explores the challenges of supporting a mobile air force in those uncertain days as Hitler's forces were retreating to their homeland As the Allies found things can go badly wrong when thinking loses touch with the art of the possible logistics In the end miraculously it worked but it was a close run thing *The Statesman's Year Book*, 1919 *The Statesman's Year-Book* J. Scott-Keltie, M. Epstein, 2016-12-28 The classic reference work that provides annually updated information on the countries of the world *Churchill's Eagles* Richard Mead, 2024-06-30 An in depth overview of the role of the Royal Air Force's leaders during World War II The RAF did not come of age until the Second World War The role of its forerunners in the Great War the Royal Flying Corps and the Royal Naval Air Service although important was peripheral to that of the ground forces The founding father of the RAF Lord Trenchard was determined that it should become a fully fledged third service equal in status to the Royal Navy and British Army and this he succeeded in doing between the wars firstly by setting up the RAF College at Cranwell and Staff College at Andover and secondly by providing a cost effective policeman of the more rebellious parts of the British Empire By 1939 the RAF had grown substantially but of the three best aircraft of the coming War only the Supermarine Spitfire was in service as neither the Avro Lancaster nor the De Havilland Mosquito would be available until early 1942 Aircraft however were not enough It was the leaders of the RAF the subjects of this book who would take the battle to the enemy and who after six long years would prevail *Who's who in American Aeronautics ...*, 1922 *Aviation and Aircraft Journal*, 1921 *The Statesman's Year-book* Frederick Martin, Sir John Scott Keltie, Isaac Parker Anderson Renwick, Mortimer Epstein, Sigfrid Henry Steinberg, John Paxton, Brian Hunter (Librarian), Barry Turner, 1919 **Air University Library Index to Military Periodicals**, 1968
