Rubens Rembrandt In Their Century:

Rubens and Rembrandt in Their Century, 1979 *Rubens and Rembrandt in Their Century* Pierpont Morgan Library, Felice Stampfle, 1979 *Drawings from the Age of Bruegel, Rubens, and Rembrandt* William W. Robinson, 2016-08-02 This superb book presents 100 notable examples from the Harvard Art Museums distinguished collection of Dutch Flemish and Netherlandish drawings from the 16th to 18th century Featuring such masters as Pieter Bruegel the Elder Peter Paul Rubens and Rembrandt van Rijn the volume showcases beautiful color illustrations accompanied by insightful commentary on prevalent styles and techniques Genres that define this artistic period landscape scenes of everyday life portraiture and still life are explored in detail The book also presents the results of new conservation and technical study including infrared analysis and scientific examinations of drawing materials This revelatory new research has allowed previously illegible underdrawings and inscriptions in many of the artworks to surface for the first time shedding light on longstanding mysteries of production and provenance *Rembrandt and the Inspiration of India* Stephanie Schrader, 2018-03-20 This sumptuously illustrated volume examines the impact of Indian art and culture on Rembrandt 1606 1669 in the late 1650s By pairing Rembrandt's twenty-two extant drawings of Shah Jahan Jahangir Dara Shikoh and other Mughal courtiers with Mughal paintings of similar compositions the book critiques the prevailing notion that Rembrandt brought life to the static Mughal art Written by scholars of both Dutch and Indian art the essays in this volume instead demonstrate how Rembrandt's contact with Mughal painting inspired him to draw in an entirely new refined style on Asian paper an approach that was shaped by the Dutch trade in Asia and prompted by the curiosity of a foreign culture Seen in this light Rembrandt's engagement with India enriches our understanding of collecting in seventeenth-century Amsterdam the Dutch global economy and Rembrandt's artistic self-fashioning A close examination of the Mughal imperial workshop provides new insights into how Indian paintings came to Europe as well as how Dutch prints were incorporated into Mughal compositions **Art Market and Connoisseurship** Anna Tummers, Koenraad Jonckheere, 2008 The question of whether seventeenth-century painters such as Rembrandt and Rubens were exclusively responsible for the paintings later sold under their names has caused many a heated debate Despite the rise of scholarship on the history of the art market much is still unknown about the ways in which paintings were produced assessed priced and marketed during this period which leads to several provocative questions did contemporary connoisseurs expect masters such as Rembrandt to paint works entirely by their own hand Who was credited with the ability to assess paintings as genuine The contributors to this engaging collection Eric Jan Sluiter Hans Van Miegroet and Neil De Marchi among them trace these issues through the booming art market of the seventeenth and eighteenth centuries arriving at fascinating and occasionally unexpected conclusions **Women in the fine arts, from the Seventh Century B.C. to the Twentieth Century A.D** Clara Erskine Clement Waters, 2019-11-25 In *Women in the Fine Arts from the Seventh Century B.C. to the Twentieth Century A.D* Clara Erskine Clement Waters

meticulously chronicles the often overlooked contributions of women to the fine arts across centuries This pioneering work is characterized by its scholarly rigor and a narrative style that weaves together biographical sketches critical analysis and historical context Waters highlights significant female artists from early antiquity to modernity showcasing their creativity and resilience in a predominantly male dominated field The book serves not only as an informative resource but also as a call to recognize the myriad ways women have shaped artistic expression throughout history Clara Erskine Clement Waters a prominent art historian and women s rights advocate in the late 19th and early 20th centuries drew upon her own experiences and the social movements of her time to illuminate the narrative of women in the arts As a member of the Boston Art Club and a respected figure in intellectual circles Waters utilized her platform to champion female artists seeking to rectify centuries of historical neglect and to empower future generations This book is an essential read for anyone interested in art history feminism and the cultural contributions of women By engaging with Waters insightful analysis readers will deepen their understanding of the dynamic role women have played in artistic endeavors uncovering a rich tapestry of creativity that deserves recognition and celebration

Conceptual Revolutions in Twentieth-Century Art David W. Galenson, 2009-09-28 Galenson combines social scientific methods with qualitative analysis to produce a new interpretation of modern art

The Sublime in the Visual Culture of the Seventeenth-Century Dutch Republic Stijn Bussels, Bram Van Oostveldt, 2023-11-07 Contrary to what Kant believed about the Dutch and their visual culture as being of an orderly and diligent position and thus having no feeling for the sublime this book argues that the sublime played an important role in seventeenth century Dutch visual culture By looking at different visualizations of exceptional heights divine presence political grandeur extreme violence and extraordinary artifacts the authors demonstrate how viewers were confronted with the sublime which evoked in them a combination of contrasting feelings of awe and fear attraction and repulsion In studying seventeenth century Dutch visual culture through the lens of notions of the sublime we can move beyond the traditional and still widespread views on Dutch art as the ultimate representation of everyday life and the expression of a prosperous society in terms of calmness neatness and order The book will be of interest to scholars working in art history visual culture architectural history and cultural history The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 4 0 International license Funded by Ghent University

Seventeenth-century Art & Architecture Ann Sutherland Harris, 2005

Encompassing the socio political cultural background of the period this title takes a look at the careers of the Old Masters and many lesser known artists The book covers artistic developments across six countries and examines in detail many of the artworks on display

Rembrandt's Passion Series Simon McNamara, 2015-05-13 Rembrandt s Passion Series is the name given to five paintings of similar size and format executed over a six year time frame 1633-39 The works were commissioned by Frederick Hendrick Prince of Orange and Stadtholder of the United Provinces for his gallery at The Hague

Although each of the paintings depicts a traditional scene from the Passion of Christ they do not form anything like a complete Passion Cycle Seven years later Hendrick ordered a further two works of the same size and format of subjects from the Nativity of Christ Six of the seven paintings now hang in the Alte Pinakothek Munich As the works were executed between Rembrandt's well documented early Leiden period and his rapid rise to prominence as a portraitist in Amsterdam the works have not attracted the scholarly attention they might although the commission was undoubtedly the most prestigious of the young Rembrandt's career Rembrandt's Passion Series is the first monograph to focus solely on this important group of paintings by the most famous artist of the Dutch Golden Age In it Simon McNamara traces the history of the commission by way of extant documentation places the works in a seventeenth century Dutch religious milieu and shows how the series is both reflective of contemporary theological exegesis and embedded in theoretical artistic debates of the age The book also highlights the extraordinary nature of the self images seen in three of the paintings and discusses the legacy of the series in later graphic works by Rembrandt and in paintings by his pupils In doing so Rembrandt's Passion Series presents a series of unifying factors both stylistically and thematically for the works that allows the Passion Series to be properly and finally called a series

A Hand-book for Young Painters Charles Robert Leslie, 1870 **The Century Illustrated Monthly Magazine**, 1895 Nineteenth Century, 1896 The Century Illustrated Monthly Magazine Josiah Gilbert Holland, Richard Watson Gilder, 1895 **The Imprint of the Picturesque on Nineteenth-Century British Fiction** Alexander M. Ross, 2006-01-01 Despite the negative criticism directed at its sentiment its heartlessness its superficiality the picturesque remained in both art and fiction of Victorian England a mode of seeing that even the greatest of the artists and novelists relied upon from time to time so that their viewers and readers could rejoice in the instant recognition of place and character distinctly limned and sometimes subtly enough to elicit sympathy Preface After briefly tracing the development of the theory of the picturesque in the eighteenth century writings of William Gilpin Sir Uvedale Price and Richard Payne Knight and examining how nineteenth century novelists accommodated aesthetic theory to the practice of fiction Ross focuses on the use of the picturesque in the works of Sir Walter Scott Charlotte Bronte Charles Dickens George Eliot and Thomas Hardy The persistence of the picturesque through novels ranging from Waverley to Jude the Obscure and in writers like Dickens and Eliot who had little respect for its conventions attests to its strength and attraction in nineteenth century literature **Century Illustrated Monthly Magazine ...**, 1885 **The Ashgate Research Companion to Dutch Art of the Seventeenth Century** Wayne Franits, 2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public's ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field As the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century Dutch art and also serves as a

springboard for further research Its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently Musical and Personal Recollections During Half a Century Henry Phillips, 1864 **Musical and Personal Recollections During Half a Century** Henry PHILLIPS (Vocalist), 1864 The Twentieth Century , 1898
