**Taming China's Wilderness** Patrick Fuliang Shan, 2016-04-01 Until the beginning of the twentieth century the Chinese province of Heilongjiang historically known as Northern Manchuria remained a sparsely populated territory on the northeastern frontier For about two centuries the rulers of the Qing dynasty 1644 1912 whose historical homeland was in Manchuria enforced a policy that prohibited Chinese immigration and settlement and maintained the region's reputation as the Great Northern Wilderness Yet as this new study demonstrates by the early 20th century the Chinese government reversed its previous policy and began to encourage immigration into Heilongjiang turning a backwater into a thriving frontier region Covering the period between the reversal of the anti immigration policy around 1900 and the Japanese occupation of Heilongjiang in 1931 this book investigates this distinctive frontier and the impact upon it of the settlement of four million Chinese settlers during a thirty one year period Following an introduction providing a background to the period covered the study is divided into five chapters The first chapter looks at patterns of immigrations settlement and the features of the newly developing frontier society Chapter two then deals with land possession tenure and relations

amongst the newly arrived settlers The third chapter discusses the transformation of the ethnic make up of the region and the move from a largely nomadic culture to one of settled farmers Chapter four probes the social problems these changes caused particularly banditry The final chapter revises commonly held notions about Russian dominance of the region arguing that Russia's influence was limited to the railway zone Taken together these chapters not only provide an overview of a territory undergoing rapid and sustained change but also provide insights into wider Chinese history as well as adding to the on going scholarly interest in border and frontier studies

*The Japanese Empire* S. C. M. Paine, 2017-03-06 The Japanese experience of war from the late nineteenth to the mid twentieth century presents a stunning example of the meteoric rise and shattering fall of a great power As Japan modernized and became the one non European great power its leaders concluded that an empire on the Asian mainland required the containment of Russia Japan won the First Sino Japanese War 1894-5 and the Russo Japanese War 1904-5 but became overextended in the Second Sino Japanese War 1931-45 which escalated with profound consequences into World War II A combination of incomplete institution building an increasingly lethal international environment a skewed balance between civil and military authority and a misunderstanding of geopolitics explains these divergent outcomes This analytical survey examines themes including the development of Japanese institutions diversity of opinion within the government domestic politics Japanese foreign policy and China's anti Japanese responses It is an essential guide for those interested in history politics and international relations

*The Tide at Sunrise* Denis Warner, Peggy Warner, 2002 The Russo Japanese War was fought in the waters of the Yellow Sea and the Straits of Tsushima that divide Japan from Korea and in the mountains of Manchuria borrowed without permission from China It was the first war to be fought with modern weapons The Japanese had fought the Chinese at sea in 1894 and had gained a foothold in Manchuria by taking control of Port Arthur In 1895 however Japan was forced to abandon its claims by the Russian fleet's presence in the Straits of Tsushima Tsar Nicholas had obtained a window to the East for his empire and Japan had been humiliated Tensions between the two countries would rise inexorably over the next decade Around the world no one doubted that little Japan would be no match for the mighty armies of Tsar Nicholas II Yet Russia was in an advanced state of decay the government corrupt and its troops inept and demoralized Japan meanwhile was emerging from centuries of feudal isolation and becoming an industrial power led by zealous nationalist warlords keen to lead the Orient to victory over the oppressive West From the opening surprise attack on the Russian fleet at Port Arthur in 1904 the Japanese out fought and out thought the Russians This is a definitive account of one of the pivotal conflicts of the

twentieth century whose impact was felt around the world      **Dictionary Catalog of the Slavonic Collection** New York Public Library. Slavonic Division, New York Public Library.
