Russia Since Eighteen One The Making Of A New Society:

A Rosicrucian Utopia in Eighteenth-Century Russia Raffaella Faggionato, 2006-01-18 The author undertakes an investigation into the history of Russian Freemasonry that has not been attempted previously Her premise is that the Russian Enlightenment shows peculiar features which prevent the application of the interpretative framework commonly used for the history of western thought The author deals with the development of early Russian masonry the formation of the Novikov circle in Moscow the programme of Rosicrucianism and the character of its Russian variant and finally the clash between the Rosicrucians and the State The author concludes that the defenders of the Ancien R gime were not wrong In fact the democratic behaviour the critical attitude the practice of participation the freedom of thought the tolerance for the diversity the search for a direct communication with the divinity in short all the attitudes and behaviours first practiced inside the eighteenth century Rosicrucian lodges constituted a cultural experience which spread throughout the entire society Novikov's imprisonment in 1792 and the war against the Rosicrucian literature were attempts to thwart a culture based on the independence of thought that was taking root inside the very establishment representing a menace to its stability Russia

The Russian Empire in the Eighteenth Century Aleksandr B. Kamenskii, 1997-08-28 Russia's eighteenth century drive toward modernity and empire under the two greats Peter I and Catherine II is fully captured in this new work by one of Russia's outstanding young historians The author develops three themes Russia's relationship to the West the transformation of Holy Russia into a multinational empire and the effects of efforts to modernize Russia selectively along Western lines Writing in a clear crisp style Kamenskii enlivens the narrative with observations from contemporary literary figures and political commentators that point up the lasting significance of the events he describes **The Life**

Eighteenth-Century Russian Music Marina Ritzarev,2017-07-05 Little is known outside of Russia about the nation s musical heritage prior to the nineteenth century Western scholarship has tended to view the history of Russian music as not beginning until the end of the eighteenth century Marina Ritzarev s work shows this interpretation to be misguided Starting from an examination of the rich legacy of Russian music up to 1700 she explores the development of music over the course of the eighteenth century a period of especially intense Westernization and secularization The book focuses on what is characteristic and crucial to Russian music during this period rather than seeking to provide a comprehensive survey The musical culture of the time is discussed against the rich background of social political and cultural life tying together many of the phenomena that used to be viewed separately The book highlights the importance of previously marginalized sectors serf culture choral sacred culture the contribution of foreign musicians the significant influence of Freemasonry the role of Ukrainian and West European cultures and so on as well as casting new light on the well researched topic of Russian opera Much new archival material is introduced and revised biographies of the two leading eighteenth century Russian composers Maxim Berezovsky and Dmitry Bortniansky are provided as well as those of the serf composer Stepan Degtyarev and the Italian Giuseppe Sarti The book places eighteenth century Russian music on the European map and will be of particular importance for the study of European musical cultures remote from such centres as Italy Germany Austria and France Eighteenth century Russian music is organically linked with its past and future and its contributory role in forming the Russian national identity and developing the Russian idiom is clarified Journal California. Legislature,1868 Piano Makers in Russia in the Nineteenth Century Anne Swartz,2014-08-01 Piano Makers in Russia in the Nineteenth Century is a richly detailed thematic study of the history of the piano in Russian society from its beginnings with the European artisans who settled in St Petersburg in the early decades of the century through the transition to Russian owned family firms The piano played a defining role in the shaping of Russia s musical culture in the nineteenth century as artisans and entrepreneurs provided the foundation for the great tradition of the Russian virtuoso in the performance and the composition of piano music It also helped bring about a transformative change in the material culture as the piano expanded its reach from the court and the nobility to include music enthusiasts from all social classes and Russian families in their homes This historical study brings to light the impact of neglected piano artisans in nineteenth century Russia and presents a fresh view of the social and economic ties between the state and the piano manufacturing artisans in an era largely defined by handcrafting and entrepreneurship It contributes significantly to current issues surrounding the role of the piano and the entrepreneur artisans in the urban centers of imperial Russia and represents an expansion of what is currently known about the piano builders who established workshops in Russia beginning in the late 1830s and 1840s well before the heyday of the

virtuoso in that country Rare documents including letters memoirs gazettes exhibition catalogs music journals and administrative reports form the nucleus of this book and provide fascinating insights about state and private patronage and the class economic issues related to the affordability and prestige of the piano in Russia Issues surrounding the transformation of the music industry in Russia the role of women as patrons and performers the exportation of instruments to the Russian Far East and the complex system of tariffs and trade protection that benefited domestic piano manufacturers provide this book s thematic links Conclusions indicate that while favorable tariff laws and state imposed economic policies benefited the family owned firms in the nineteenth century they remained in effect in the decades after the nationalization of the piano industry in 1917
