The Russia-China Axis Douglas E. Schoen,Melik Kaylan,2014-09-09 The United States is a nation in crisis While Washington s ability to address our most pressing challenges has been rendered nearly impotent by ongoing partisan warfare we face an array of foreign policy crises for which we seem increasingly unprepared Among these none is more formidable than the unprecedented partnership developing between Russia and China suspicious neighbors for centuries and fellow Communist antagonists during the Cold War The two longtime foes have drawn increasingly close together because of a confluence of geostrategic political and economic interests all of which have a common theme of diminishing subverting or displacing American power While America s influence around the world recedes in its military and diplomatic power in its political leverage in its economic might and perhaps most dangerously in the power and appeal of its ideas Russia and China have seen their influence increase From their support for rogue regimes such as those in Iran North Korea and Syria to their military and nuclear buildups to their aggressive use of cyber warfare and intelligence theft Moscow and Beijing are playing the game for keeps Meanwhile America pledged to leading from behind no longer does much leading at all In *The Russia China Axis* Douglas E. Schoen and Melik Kaylan systematically chronicle the growing threat from the Russian Chinese Axis and they argue that only a rebirth of American global leadership can counter the corrosive impact of this antidemocratic alliance which may soon threaten the peace and security of the world

Minimum Deterrence: Examining the Evidence Keith B. Payne,James

Schlesinger,2016-04-14 The National Institute for Public Policy's new book *Minimum Deterrence Examining the Evidence* is the first of its kind. Dr. Keith Payne, former Secretary of Defense, James Schlesinger, and an unparalleled bipartisan group of senior civilian and military experts critically examine eight basic assumptions of Minimum Deterrence against available evidence. In general, Minimum Deterrence does not fare well under the careful scrutiny. Proponents of a Minimum Deterrent US nuclear force posture believe that anywhere from a handful to a few hundred nuclear weapons are adequate to deter reliably and predictably any enemy from attacking the United States now and in the future. Because nuclear weapons are so destructive, their thinking goes, no foreign leader would dare challenge US capabilities. The benefits advocates claim of reducing US nuclear weapons to the minimum level needed are better relations with Russia and China, reinforcement of the arms control and Nonproliferation Treaty, billions of defense dollars in savings, and greater international stability on the way to nuclear zero. As political pressure builds to pursue this vision of minimum US deterrence, *Minimum Deterrence Examining the Evidence* stands as the seminal study to address the many claims of great benefit using available evidence. This book was published as a special issue of *Comparative Strategy*. **Nuclear Weapons Modernization in Russia and China** United States. Congress. House. Committee on Armed Services. Strategic Forces Subcommittee,2012 *Li Hung-chang and China's Early Modernization* Samuel C. Chu,Kwang-Ching Liu,1994 Li Hung-chang 1823-1901 was a Chinese statesman particularly notable for his promotion of industrialization and advocacy of bureaucratic reform. Most of the papers in this volume were first presented in two panels devoted to Li at the 1987 annual meeting of the Pacific Coast Branch of the American Historical Association. The volume is divided into six parts: introduction, The Beginnings of China's Modernization, the rise of Li Hung-chang, Li in the role of a national official, Li as diplomat, Li as modernizer, and conclusion, including a bibliographical essay. Paper edition,unseen 22.50. Annotation copyright by Book News, Inc.,Portland,OR **Congressional Record** United States. Congress,2000 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States* 1789-1824, the *Register of Debates in Congress* 1824-1837, and the *Congressional Globe* 1833-1873 **The Independent** ,1900 **Liu Hung-Chang and China's Early Modernization** Samuel C. Chu,Kwang-Ching Liu,2016-09-16 This is a study of Li Hung-chang which represents a collaboration of Li experts among Chinese and Western scholars. The biography examines the beginnings of China's modernisation, the Confucian as a patriot and pragmatist, his formative years 1823-1866, and other aspects of his life.

Yetiv,Katerina

Oskarsson,2018-01-23 Few issues in international affairs and energy security animate thinkers more than the classic topic of hegemony and the case of the Persian Gulf presents particularly fertile ground for considering this concept Since the 1970s the region has undergone tumultuous changes with dramatic shifts in the diplomatic military and economic roles of the United States China and Russia In this book Steve A Yetiv and Katerina Oskarsson offer a panoramic study of hegemony and foreign powers in the Persian Gulf offering the most comprehensive data driven portrait to date of their evolving relations The authors argue that the United States has become hegemonic in the Persian Gulf ultimately protecting oil security for the entire global economy Through an analysis of official and unofficial diplomatic relations trade statistics military records and more they provide a detailed account of how U S hegemony and oil security have grown in tandem as simultaneously China and Russia have increased their political and economic presence The book sheds light on hegemony's complexities and challenges and reveals how local variations in power will continue to shape the Persian Gulf in the future **The South**

China Sea: A Look into China's Modern Times Maritime Silk Road and Its Geopolitical Implications Fritz Dufour, Linguist, MBA, DESS,2017-07-08 Westward expansion has always been more important to China than eastward expansion because except for the Korean peninsula and Japan China is looking at the vast Pacific Ocean The west has always been and continues to be China's lifeline China has come a long way Civilizations rise and fall They come and go But the Chinese civilization is one of the oldest and most stable The Chinese engaged in world trade way before America was even discovered They did that thanks to the Silk Road which was an ancient caravan route linking Xi'an in central China with the eastern Mediterranean It was established during the period of Roman rule in Europe and took its name from the silk which was brought to the west from China Although trading with the West was quintessential China has always sought to retain their

own economic model When the four leading powers of the West England France Spain and Portugal decided to build their politico economic empires on triangular trade or face failure China was thriving as it had been for millennia But World War II dealt a serious blow to China s economy as the United states emerged as the only superpower on both the political and economic levels and put shortly after a policy of containment towards China That along with past failures exacerbated if not China s resentment at least its mistrust towards the West and especially towards the United States *The Literary Digest* Edward Jewitt Wheeler,Isaac Kaufman Funk,William Seaver Woods,Arthur Stimson Draper,Wilfred John Funk,1910
