H. Tang, 1958 *Russian Politics in Exile* F. Patrikeeff, 2002-08-06 This work explores Russian life in Northern Manchuria during the period of political economic and social upheaval leading to its eventual de facto control by Japan and disruption of the balance of power in the Northeast Asian Region Presenting a fresh interpretation of the combined impact of the 1929 Sino Soviet Conflict and the onset of the Great Depression the book examines the interplay of Soviet and emigr Russian interests in Manchuria and their role in generating the instability that led to Japanese intervention and Russian decline **Anglo-Soviet Relations, 1917-1921, Volume 1** Richard H. Ullman, 2019-01-29 In an intriguing work based largely on new sources Richard H Ullman shows how the British government the politicians civil servants military and naval officers dealt with the problem of Russia during the critical period between the Bolshevik Revolution in November 1917 and Britain's de facto recognition of the Soviet government in March 1921 Volume 1 describes the tragic misunderstandings and desperate hopes of the British in the troubled year before the Armistice which stands as a watershed in the history of Anglo Soviet policy As diplomacy failed British forces found themselves fighting not only in North Russia but in the Caucasus and on the frontiers of India The second volume to be published later will cover the story to 1921 Dr Ullman's exciting portrayal of these events is a companion work to George Kennan's several volume study of the same period Soviet American Relations 1917 1920 Originally published in 1961 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Russian General Staff and Asia, 1860-1917** Alex Marshall, 2006-11-22 This new book examines the role of the Tsarist General Staff in studying and administering Russia's Asian borderlands It considers the nature of the Imperial Russian state the institutional characteristics of the General Staff and Russia's relationship with Asia During the nineteenth century Russia was an important player in the so called Great Game in central Asia Between 1800 and 1917 officers of the Russian General Staff travelled extensively through Turkey central Asia and the Far East gathering intelligence that assisted in the formation of future war plans It goes on to consider tactics of imperial expansion and the role of military intelligence and war planning with respect to important regions including the Caucasus

central Asia and the Far East In the light of detailed archival research it investigates objectively questions such as the possibility of Russia seizing the Bosphorus Straits and the probability of an expedition to India Overall this book provides a comprehensive account of the Russian General Staff its role in Asia and of Russian military planning with respect to a region that remains highly strategically significant today Recognition in International Law Stefan Talmon, 2021-10-18 The bibliography lists the literature and State practice on the question of recognition in international law for the last two hundred years It contains books and articles ie contributions to journals and other collected works such as Festschriften and Encyclopaedias as well as published and unpublished theses pamphlets compilations of diplomatic documents and case notes As many of the monographs on recognition in international law will not be available in all libraries book reviews have been included in the bibliography in order to enable the user to decide whether it may be advisable to order a certain work by inter library loan Its 4 500 entries are arranged systematically according to subject categories in fourteen main sections Each main section is further subdivided with ever increasing specificity into sub sections on codification codification attempts general studies studies of certain recognition questions and studies of specific recognition cases The bibliography employs a broad meaning of recognition It is not restricted to the question of status of an authority or entity in international law but encompasses also the question of relations with it As many of the recognition cases must be considered and can only be understood against their historic political and sometimes even economic background the bibliography includes not only purely legal treaties but also publications of a primarily historical political or economic content which incidentally deal with aspects of recognition in international law This is reflected by the titles of the 730 journals from more than 50 countries in 20 different languages which have been used to compile the bibliography The bibliography contains both an author and a comprehensive subject index to enable users to locate works of a particular writer or a specific problem *Mongolia in the Twentieth Century* Stephen Kotkin, Bruce Allen Elleman, 2015-02-12 The remote vastness of Mongolia has remained somewhat of a mystery to most Westerners no less so in the 20th century Homeland of the legendary conqueror Chingiz Khan in modern times Mongolia itself has been the object of imperial rivalry For most of the 20th century it was under Soviet domination Mikhail Gorbachev began the withdrawal of Soviet troops from Mongolia in 1989 a process completed in 1992 By 1996 a coalition of opposition parties triumphed in national elections and Mongolia launched itself on a new course It is perhaps the most intriguing of the post community transition societies This volume examines Mongol history over the past century embracing not only Mongolia proper but also Mongol communities in Russia and China Contributions based on new archival research and the latest fieldwork are from the world s top experts in the field including four authors from Mongolia and others from Japan Russia Taiwan Great Britain and the United States Stephen Kotkin s introductory chapter is an overview of Mongol studies The essays in part 1 examine Sino Russian competition over Outer Mongolia Part 2 looks at international diplomacy in Mongolia including the role of Japan Part 3 focuses on contemporary issues ranging from
