Armies of Ivan the Terrible David Nicolle, Viacheslav Shpakovsky, 2024-12-19 It is generally assumed that the military reforms which propelled Russia into the modern world were due solely to the genius of Peter the Great In fact his reforms were built upon changes that had taken place during the previous 200 years since the creation in 1550 of Russia s first full

time military force the streltsi by Ivan IV the Terrible This account traces Russia's armies from that beginning through the creation of paid regular regiments from 1630 up to the reign of Peter the Great It is illustrated with rare early drawings photos of surviving artifacts and dazzling colour reconstructions of exotic military costumes Russian Armored Fighting Vehicles George Bradford, 2007-04-12 This title is filled with fine scale drawings of Russian armoured fighting vehicles including T 34 Model 1940 BA 64B Model 1943 Light Armoured Car BT 7 Model 1937 Fast Tank SU 76i on Pz III chassis KV 8 flamethrower ZIS 42 Halftrack and dozens more **The Russian Empire** Sir Samuel Bagster Boulton (Bart.), 1882 A Cumulative Bibliography of Medieval Military History and Technology Kelly DeVries, 2001-11-01 There is perhaps no other more lively area for study in medieval history than medieval military history with its attendant and complementary field the history of medieval military technology In the past twenty years it seems that more major scholarly inroads have been made in this field than in any other historical genre of medieval studies or chronological period of military history What this has meant is that it is now more difficult to keep up with all of the trends and sources in the field than ever before Hence the need for a reference work which covers what has previously been written and which in turn can assist the scholar both the more experienced academic and the beginner to improve his or her work in medieval military history or the history of medieval military technology Utilizing library catalogues bibliographies and footnotes this bibliography has compiled the most complete list of secondary references to works in medieval military history and the history of military technology It keeps fairly strictly to a geography which centers on conventional medieval boundaries Europe Byzantium and the Middle East However the chronology does differ from the conventional medieval dates Because of its influence on the early Middle Ages references to Late Antiquity especially to the military history and technology of the third and fourth century Roman Empire have been included For the opposite reason the influence of the Middle Ages on the sixteenth and early seventeenth centuries references to military history and technology up to 1648 have been included as well This is especially important in the study of the Ottoman Turkish Wars and Arms and Armor where the end of the fifteenth century as a chronological terminus makes little sense **Library Catalog of the Metropolitan Museum of Art, New York. Supplement** Metropolitan Museum of Art (New York, N.Y.). Library, 1962 *The Russian Reproductions at the Metropolitan Museum of Art, New York City* Metropolitan Museum of Art (New York, N.Y.), John W. Miles, 1884 Russian civil-military relations and the origins of the second Chechen war Sz&ászdi, Lajos F., 2008-08-29 This book has relevance for those interested in understanding Russia's course in international relations under the leadership of Vladimir Putin This book will inform the reader and is especially relevant in light of the events of 2008 in the Caucasus and the war in Georgia in particular The author explains the ideology of Neo Eurasianism which in turn inspires the policy thinking of the Kremlin Also studied is Putin's origins in the KGB from the previous posts of Secretary of the Security Council and Director of the FSB and his rise to power in the crucial year of 1999 when he became Russian Prime Minister The author highlights the continuing trend of

appointing high ranking officers of the Russian intelligence community to senior positions in the government studying this in the context of Russian civil military intelligence relations The author reached the conclusion back in 2003 that the members of Russian intelligence hold the reins of power above the civilian and military elements of the Russian government The author returns to the Kosovo Crisis of 1999 discussing also the motives that led the Kremlin and Putin to invaded Chechnya for a second time in a decade Parallels can be drawn to the 2008 Russian invasion of Georgia and the roots of the Neo Eurasianist ideology that is behind the two invasions are examined This book will help the reader understand Russia s current and future distribution of power in the Caucasus the Balkans and the world at large Moscow s search for a multipolar world and its opposition to U S hegemony

Warriors and their Weapons around the Time of the Crusades David Nicolle,2024-10-28 The technological relationship between the three main civilizations of the Western world Byzantium the Islamic world and the West most particularly in the area of arms armour and military technology is a field of research for which Dr Nicolle is noted This volume deals principally with Western Europe and Byzantium which for many centuries learnt from the Muslims in these matters several articles also focus on military interactions in the Crusader states The work draws upon both written and archaeological sources but above all makes use of the depictions of war and military equipment in contemporary art to examine the interconnections across the medieval world
