**A Russian European; Paul Miliukov in Russian Politics** Thomas Riha, 1969      Late Tsarist Russia, 1881-1913 Beryl Williams, 2020-09-17 This book brings together the large volume of work on late Tsarist Russia published over the last 30 years to show an overall picture of Russia under the last two tsars before the war brought down not only the Russian empire but also those of Germany Austria Hungary and Turkey It turns the attention from the old emphases on workers revolutionaries and a reactionary government to a more diverse and nuanced picture of a country which was both a major European great power facing the challenges of modernization and industrialization and also a multi ethnic and multi confessional empire stretching across both Europe and Asia      Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989      **Russia and the Idea of Europe** Iver B. Neumann, 2016-10-14 The end of the Soviet system and the transition to the market in Russia coupled with the inexorable rise of nationalism brought to the fore the centuries old debate about Russia s relationship with Europe In this revised and updated second edition of *Russia and the Idea of Europe* Iver Neumann discusses whether the tensions between self referencing nationalist views and Europe orientated liberal views can ever be resolved Drawing on a wide range of Russian sources this book retains the broad historical focus of the previous edition and picks up from where the it off in the early 1990s bringing the discussion fully up to date Discussing theoretical and political developments it relates the existing story of Russian identity formation to new foreign policy analysis and the developments in the study of nationalism The book also offers an additional focus on post Cold War developments In particular it examines the year 2000 when Putin succeeded Yeltsin as president and 2014 when Russian foreign policy turned from cooperation to confrontation Bringing to life the various debates surrounding this complicated relationship in an accessible and clear manner this book continues to be a unique and vital resource for both students and scholars of international relations      **Russia Under the Last Tsar** Theofanis G. Stavrou, 1969 The reign of Russia s last tsar Nicholas II from 1894 to 1917 constitutes a period of continuing controversy among historians Interesting in its own right it is also a time of great importance to an understanding of the cataclysmic events which follo      *Russia's World Order* Paul Robinson, 2025-04-15 *Russia s World Order* explores the ideas underlying the undeclared New Cold War between Russia and the West The first Cold War was a struggle between capitalism and communism most Western politicians and policymakers imagine the new one to be a struggle between democracy and autocracy *Russia s World Order* explains that in Russian eyes the conflict is about something very different it is a fight between two incompatible visions of where history is leading *Russia s World Order* describes the civilizational theory that has come to dominate Russian official discourse and that has come to dominate Russian official discourse and that is being used by the Russian state to justify its clashes with the West Whereas the West promotes a vision of history that drives all nations toward convergence on a single social political and economic model that of modern Western liberalism Russia s political leaders increasingly portray the world as consisting of numerous

distinct civilizations each diverging toward its own unique destination The Russian state portrays itself as defending the right of all civilizations to chart their own independent path of development and is having some success in using this logic to win allies around the world Paul Robinson recounts how ideas of inevitable convergence once dominated Russian thought as well but were gradually pushed out by civilizational theories He outlines where these theories came from what they propose and how they became popular Russia's World Order thereby reveals the true nature of today's New Cold War and the challenge that Russian civilizationism poses to the West

Russia in World History Choi Chatterjee, 2022-01-27 Russia in World History uses a comparative framework to understand Russian history in a global context The book challenges the idea of Russia as an outlier of European civilization by examining select themes in modern Russian history alongside cases drawn from the British Empire Choi Chatterjee analyzes the concepts of nation and empire selfhood and subjectivity socialism and capitalism and revolution and the world order in the 19th 20th and 21st centuries In doing so she rethinks many historical narratives that bluntly posit a liberal West against a repressive authoritarian Russia Instead Chatterjee argues for a wider perspective which reveals that imperial practices relating to the appropriation of human and natural resources were shared across European empires both East and West Incorporating the stories of famous thinkers such as Leo Tolstoy Emma Goldman Wangari Maathai Arundhati Roy among others This unique interpretation of modern Russia is knitted together from the varied lives and experiences of those individuals who challenged the status quo and promoted a different way of thinking This is a ground-breaking book with big and provocative ideas about the history of the modern world and will
