Pettus,2017-12-06 Russian Book 1 Russian Through Propaganda is the first volume in a new series of Russian textbooks with a rigorous but rewarding approach to the language It assumes no prior knowledge of Russian and is intended for ambitious beginners or more advanced students seeking a highly structured review of the language It assumes that its readers are interested in long term mastery of the language within the rich historical cultural and literary contexts that often draw students to Russian in the first place It therefore takes the time to explain challenging grammar topics in depth striving to provide the full picture as clearly as possible It is richly illustrated with Soviet era propaganda posters whose slogans serve as examples of each lesson s grammar It is structured as a series of 50 daily lessons which build upon one another and give a clear sense of progress It is the equivalent of a semester of intensive college level study of Russian Free video lessons and a number of Russian culture resources are available online at [www.russianthroughpropaganda.com](http://www.russianthroughpropaganda.com) The Verbs of Motion in
