Russian Women Writers Christine D. Tomei, 1999 **A Sociological Approach to Poetry Translation** Jacob S. D. Blakesley, 2018-10-31 This volume provides an in depth comparative study of translation practices and the role of the poet translator across different countries and in so doing demonstrates the need for poetry translation to be extended beyond close reading and situated in context Drawing on a corpus composed of data from national library catalogues and Worldcat the book examines translation practices of English language French language and Italian language poet translators through the lens of a broad sociological approach Chapters 2 through 5 look at national poetic movements literary markets and the historical and socio political contexts of translations with Chapter 6 offering case studies of prominent and representative poet translators from each tradition A comprehensive set of appendices offers readers an opportunity to explore this data in greater detail Taken together the volume advocates for the need to study translation data against broader aesthetic historical and political trends and will be of particular interest to students and scholars in translation studies and comparative literature [Gadfly in Russia](#) Alan Sillitoe, 2016-07-12 This memoir and literary travelogue from one of the UK s most esteemed novelists offers rare insight into Cold War era Russia In 1967 seeking an escape from his writing life bestselling British novelist Alan Sillitoe embarks on a road trip from England to Russia via Harwich and Finland in his sturdy Peugeot During his teens the author had a cartographic fascination with the Battle of Stalingrad and decades later he is still armed with intricate maps of the country based on British military intelligence including one of the road from Leningrad to Moscow to Kiev which he drew himself Also in tow are a prismatic compass binoculars and a shortwave radio receiver However despite being so well prepared Sillitoe embarks with naiveté about the political precariousness of an Englishman in the eyes of the Soviet regime After passing through the endless days of a Scandinavian summer and a prolonged stop at a border control checkpoint with his maps hidden in a secret compartment of the car Sillitoe arrives in Leningrad There he meets George Andjaparidze a worldly and candid English student who has been

assigned by the Writers Union to serve as the author's guide and keep him out of trouble. Though Sillitoe would rather continue his journey solo, Andjaparidze grows on him and they begin what will become a lasting friendship. As soon as the duo leaves Leningrad, adventures and misadventures ensue. En route to Moscow, Sillitoe and Andjaparidze end up racing a pack of middle-aged men in German sports cars partaking in a Berlin to Moscow rally. Sillitoe and Andjaparidze's time in the capital is equally fast-paced, consisting of late nights fueled by vodka, impounded rubles, caviar breakfasts, erudite parties, and a pat on the back from a traffic cop for writing about the working class. A winding drive across western Russia and into Yugoslavia follows, replete with rebellious literature students, a speech on freedom, a visit to Tolstoy's estate, accusations of espionage, and a near-fatal run-in with a brigade of Red Army tanks. At last, the writer and guide reach their destination, Kursk, that fateful place where a Soviet victory in 1943 turned back the Nazi tide. But the story continues long after the road trip ends. Back in England, Andjaparidze visits Sillitoe, and the two are caught up in a controversy surrounding the defection of the Soviet writer Anatoly Kuznetsov. Written from the perspective of another trip to Russia forty years later, Sillitoe was invited in 2005 by the British Council to return to Moscow; this travelogue provides a rare and intimate look at the country's history, a compassionate understanding of its troubled ideology, and a frank portrayal of its undeniable lure.

Literature and Chemistry Margareth Hagen, Margery Vibe Skagen, 2014-02-21 Literature and Chemistry: Elective Affinities investigates literary and chemical encounters from medieval alchemy to contemporary science fiction in works of the likes of Dante, Goethe, Baudelaire, and Dag Solstad, as well as in literary writing of scientists such as Humphry Davy, Ludwig Boltzmann, and Oliver Sachs. Sixteen authors break new ground in demonstrating chemistry's particular status as one of the sciences in which humanities should interest itself: the overlaps and reciprocities of the two fields, and perhaps most importantly, chemistry's role in the production of narrative metaphor and literary form. The anthology makes the silent presence of chemistry perceptible, uncovering its historical and present appeal to material sensitivity, imagination, and creativity, as well as its call for philosophical and ethical concern and for wonder.

Khotimsky, Friederike Reents, Henrieke Stahl, William Waters, 2025-01-07 This book investigates the hybrid multiform nature of contemporary poetry with particular emphasis on recent Russian lyric and its translations into German and English Poetry translation thriving and obstinately open ended is not so much a defined process as a practice of ongoing transit across linguistic and national borders The book's innovative format invites contemporary poets into dialogue with literary translators editors publishers and scholars the conversations among their wide ranging essays poems and exchanges both model and investigate the work of transcultural dialogue As a kind of transition poetry translation engages the composition and disintegration of forms revises relations of producers to receivers mixes and rethinks genres and media translates itself as multilingual writing or language experiment Multiple translations of a poem do not compete but interact reshaping the putative gulf between source and target language In the end this volume underscores the aesthetic productivity of poetry translation and the need to nurture it A must read for anyone interested in the dynamic interplay of poetry language and culture

International Anthologies of Literature in Translation Harald Kittel, 1995-01-01 **The Testimonies of Russian and American Postmodern Poetry** Albena Lutzkanova-Vassileva, 2016-06-30 This book

challenges the belief in the purely linguistic nature of contemporary poetry and offers an interpretation of late twentieth century Russian poetry as a testimony to the unforeseen annulment of communist reality and its overnight displacement by a completely unfathomable post totalitarian order Albena Lutzkanova Vassileva argues that because of the sudden invalidation of a reality that had been largely seen as unattained and everlasting this shift remained secluded from the mind and totally resistant to cognition thus causing a collectively traumatic psychological experience The book proceeds by inquiring into a school of contemporary American poetry that has been likewise read as cut off from reality Executing a comparative analysis Vassileva advances a new understanding of this poetry as a testimony to the overwhelming and traumatic impact of contemporary media which have assailed the mind with far more signals than it can register digest and furnish with semantic weight
