Twentieth-Century Russian Poetry Katharine Hodgson, Joanne Shelton, Alexandra Smith, 2017-04-21 The canon of Russian poetry has been reshaped since the fall of the Soviet Union A multi authored study of changing cultural memory and identity this revisionary work charts Russia's shifting relationship to its own literature in the face of social upheaval Literary canon and national identity are inextricably tied together the composition of a canon being the attempt to single out those literary works that best express a nation's culture This process is of course fluid and subject to significant shifts particularly at times of epochal change This volume explores changes in the canon of twentieth century Russian poetry from the 1991 collapse of the Soviet Union to the end of Putin's second term as Russian President in 2008 In the wake of major institutional changes such as the abolition of state censorship and the introduction of a market economy the way was open for wholesale reinterpretation of twentieth century poets such as Iosif Brodskii Anna Akhmatova and Osip Mandelstam their works and their lives In the last twenty years many critics have discussed the possibility of various coexisting canons rooted in official and non official literature and suggested replacing the term Soviet literature with a new definition Russian literature of the Soviet period Contributions to this volume explore the multiple factors involved in reshaping the canon understood as a body of literary texts given exemplary or representative status as classics Among factors which may influence the composition of the canon are educational institutions competing views of scholars and critics including figures outside Russia and the self canonising activity of poets themselves Canon revision further reflects contemporary concerns with the destabilising effects of emigration and the internet and the desire to reconnect with pre revolutionary cultural traditions through a narrative of the past which foregrounds continuity Despite persistent nostalgic yearnings in some quarters for a single canon the current situation is defiantly diverse balancing both the Soviet literary tradition and the parallel contemporaneous literary worlds of the emigration and the underground Required reading for students teachers and lovers of Russian literature Twentieth Century Russian Poetry brings our understanding of post Soviet Russia up to date

English Rhythms in Russian Verse: On the Experiment of Joseph Brodsky Nila Friedberg, 2011-10-27 Readers of poetry make aesthetic judgements about verse It is quite common to hear intuitive statements about poets rhythms It is said for example that Joseph Brodsky the Russian poet and 1987 Nobel Prize laureate sounds English when he writes in Russian Yet it is far from clear what this statement means from a linguistic point of view What is English about Brodsky's Russian poetry And in what way are his English rhythms different from the verse of his Russian predecessors The book provides an analysis of Brodsky's experiment bringing evidence from an unusually wide variety of disciplines and theories rarely combined in a single study including the generative approach to meter the Russian quantitative approach analysis of readers

intuitions about poetic rhythm analysis of the poet's source readings as well as acoustic phonetics statistics and archival research. The distinct analytic approaches applied in this book to the same phenomenon complement one another each providing insight alternate approaches do not and showing that only a combination of theories and methods allows us to fully appreciate what Brodsky's English accent really was and what any poetic innovation means.

Towards a Typology of Poetic Forms Jean-Louis Aroui, Andy Arleo, 2009-09-30 Metrics is often defined as a discipline that concerns itself with the study of meters In this volume the term is used in a broader sense that more or less coincides with the traditional notion of versification Understood this way metrics is an eminently complex object that displays variation over time and in space that concerns forms of a great variety and with different statuses meters rhymes stanzas prescribed forms syllabification rules nursery rhymes slogans musical textsetting ablaut reduplication etc and that as a cultural manifestation is performed in a variety of ways sung chanted spoken read that can have direct consequences on how it is structured This profusion of forms is thought to correspond at the level of perception to a limited number of cognitive mechanisms that allow us to perceive and to represent regularly iterating forms This volume proposes a relatively coherent overall vision by distinguishing four main families of metrical forms each clearly independent of the others and amenable to separate typologies

Brodsky in English Zakhar Ishov, 2023-08-15 A deeply researched account of Joseph Brodsky's evolution in English as a self translator and a poet in translation Joseph Brodsky's translations of his own Russian language poems into English new originals have been criticized for their un-Englishness an

appraisal based on a narrow understanding of translation itself With this radical reassessment of the Nobel Prize winner's self-translations Zakhar Ishov proposes a fresh approach to poetry translation and challenges the assumption that poetic form is untranslatable Brodsky in English draws on previously unexamined archival materials including drafts and correspondence with translators and publishers to trace the arc of Brodsky's experience with the English language Ishov shows how Brodsky's belief in the intellectual continuity between his former life in the Soviet Union and his new career in the United States including as Poet Laureate anchored his insistence on maintaining the formal architecture of his poems in translation locating the transmission of poetic meaning in the rhythms of language itself This book highlights Brodsky's place within the long history of the compromises translation must make between linguistic material and poetic process [The Cambridge Companion to Modern Russian Culture](#) Nicholas Rzhevsky, 2012-04-05 A fully updated new edition of this overview of contemporary Russia and the influence of its Soviet past [All the World on a Page](#) Andrew Kahn, Mark Lipovetsky, 2025-04-15 The rich and ongoing development of Russian lyric poetry explored through close readings of thirty-four poems by poets ranging from Alexander Blok to Maria Stepanova The Russian cultural tradition treats poetry as the supreme artistic form with Alexander Pushkin as its national hero Modern Russian lyric poets often on the right side of history but the wrong side of their country's politics have engaged intensely with subjectivity aesthetic movements ideology usually subversive and literature itself All the World on a Page gathers thirty-four poems written between 1907 and 2022 presenting each poem in the original Russian and an English translation accompanied by an essay that places the poem in its cultural historical and biographical contexts The poems both canonical and lesser known works extend across a range of moods and scenes Velimir Khlebnikov's Futurist revolutionary prophecy Anna Akhmatova's lyric cycle about poetic inspiration Vladimir Nabokov's Symbolist erotic dreamworld Joseph Brodsky's pastiche of a Chekhovian play set on a country estate Maria Stepanova's pandemic allegory of political repression Galina Rymbu's energetic manifesto My Vagina An introduction explores the abiding inspiration of modernism on the Russian lyric tradition Kahn and Lipovetsky's separate chapter essays informed by extensive knowledge of the existing scholarship and critical styles of interpretation consider how the interplay of originality and tradition and form and voice work to engage the reader The poems themselves many of them in newly commissioned translations operate outside state-mandated poetic styles to address the reader directly t t e t e as Brodsky said in his 1987 Nobel lecture With each chapter devoted to a different poem All the World on a Page allows readers to experience the richness of Russian poetry through poems and poets rather than through movements
