collection of essays on Russian religious thought focuses on the extent to which Russian culture and ideology has been informed by the nation's roots in Orthodox Christianity Faith and Science in Russian Religious Thought Teresa Obolevitch, The book brings forth a comprehensive analysis of the relationship between science and faith in Russian religious thought **The Oxford Handbook of Russian Religious Thought** Caryl Emerson, George Pattison, Randall A. Poole, 2020-09-04 The Oxford Handbook of Russian Religious Thought is an authoritative new reference and interpretive volume detailing the origins development and influence of one of the richest aspects of Russian cultural and intellectual life its religious ideas After setting the historical background and context the Handbook follows the leading figures and movements in modern Russian religious thought through a period of immense historical upheavals including seventy years of officially atheist communist rule and the growth of an exiled diaspora with e.g. its journal *The Way* Therefore the shape of Russian religious thought cannot be separated from long running debates with nihilism and atheism Important thinkers such as Losev and Bakhtin had to guard their words in an environment of religious persecution whilst some views were shaped by prison experiences Before the Soviet period Russian national identity was closely linked with religion linkages which again are being forged in the new Russia Relevant in this connection are complex relationships with Judaism In addition to religious thinkers such as Philaret Chaadaev Khomiakov Kireevsky Soloviev Florensky Bulgakov Berdyaev Shestov Frank Karsavin and Alexander Men the Handbook also looks at the role of religion in aesthetics music poetry art film and the novelists Dostoevsky and Tolstoy Ideas institutions and movements discussed include the Church academies Slavophilism and Westernism theosis the name glorifying imiaslavie controversy the God seekers and God builders Russian religious idealism and liberalism and the Neopatristic school Occultism is considered as is the role of tradition and the influence of Russian religious thought in the West **The Role of Russian Religious Thought in the Writings of Nicolas Aleksandrovich Berdiaev, 1874-1948** Margaret Mary Donovan, 1960 Hans Urs von Balthasar and the Critical Appropriation of Russian Religious Thought Jennifer Newsome Martin, 2015-09-15 In *Hans Urs von Balthasar and the Critical Appropriation of Russian Religious Thought* Jennifer Newsome Martin offers the first systematic treatment and evaluation of the Swiss Catholic theologian's complex relation to modern speculative Russian religious philosophy Her constructive analysis proceeds through Balthasar's critical reception of Vladimir Soloviev Nikolai Berdyaev and Sergei Bulgakov with respect to theological aesthetics myth eschatology and Trinitarian discourse and examines how Balthasar adjudicates both the possibilities and the limits of theological appropriation especially considering the degree to which these Russian thinkers have been influenced by German Idealism and Romanticism Martin argues that Balthasar's creative reception and modulation of the thought of these Russian philosophers is indicative of a broad speculative tendency in his work that deserves further attention In this respect Martin consciously challenges the prevailing view of Balthasar as a fundamentally conservative or nostalgic thinker In her discussion of the relation between tradition and theological speculation Martin also draws upon the understudied relation

between Balthasar and F W J Schelling especially as Schelling's form of Idealism was passed down through the Russian thinkers. In doing so she persuasively recasts Balthasar as an ecumenical, creatively anti-nostalgic theologian hospitable to the richness of contributions from extra-magisterial and non-Catholic sources.

Henry Corbin and Russian Religious Thought Hadi Fakhoury, 2014. This study addresses the influence of Russian religious thought on the French philosopher and Islamicist Henry Corbin (1903-1978). In the 1930s Corbin came into contact with religious thinkers of the Russian emigration in Paris, particularly Nikolai Berdyaev (1874-1948) who had an important role in his critical reception of contemporary German philosophy and theology. In 1939 Corbin moved to Istanbul where, parallel to his work on the first critical edition of the writings of the Iranian philosopher Shahab al-Din al-Suhrawardi (1155-1191), he deepened his knowledge of Byzantine theology and translated some of the writings of the Russian theologian Fr. Sergius Bulgakov (1871-1944). Corbin's post-war writings thus contain important references to Russian thinkers such as Berdyaev, Bulgakov, Aleksey Khomiakov (1804-1860), Fyodor Dostoevsky (1821-1881), Konstantin Leontiev (1831-1891), and Vasily Rozanov (1856-1919). These thinkers had a unique role in Corbin's ecumenical project. He was indeed convinced that Russian Orthodoxy has an important role in mediating between East and West Christianity and Islam. Until now there has been no attempt to study the Russian connection in Corbin's thought. The present work explores this influence as reflected in the themes of East and West, Sophiology, Divine humanity, eschatology, angelology, and Orthodox iconography. In the process it sheds light on the sources of Corbin's philosophical positions, interest in certain themes, and choice of terminology.

Religious and Anti-religious Thought in Russia George Louis Kline, 1968. The Role of Russian Religious Thought in the Writings of Nicolai Berdiaev, 1874-1948. Margaret Mary Donovan, 19?? *Ultimate Questions. An Anthology of Modern Russian Religious Thought. Edited and with an Introduction by Alexander Schmemmann*. Aleksandr Dmitrievich SHMEMAN, 1965. *The Oxford Companion to Christian Thought*. Adrian Hastings, Alistair Mason, Hugh S. Pyper, 2000-12-21. Embracing the viewpoints of Catholic, Protestant, or Orthodox thinkers of conservatives, liberals, radicals, and agnostics, Christianity today is anything but monolithic or univocal. In *The Oxford Companion to Christian Thought*, general editor Adrian Hastings has tried to capture a sense of the great diversity of opinion that swirls about under the heading of Christian thought. Indeed, the 260 contributors who hail from twenty countries represent as wide a range of perspectives as possible. Here is a comprehensive and authoritative, though not dogmatic, overview of the full spectrum of Christian thinking. Within its 600 alphabetically arranged entries, readers will find lengthy survey articles on the history of Christian thought on national and regional traditions and on various denominations from Anglican to Unitarian. There is ample coverage of Eastern thought as well as examining the Christian tradition in China, Japan, India, and Africa. The contributors examine major theological topics such as resurrection, the Eucharist, and grace, as well as controversial issues such as homosexuality and abortion. In addition, short entries illuminate symbols such as water and wine, and there are many profiles of leading theologians of non-Christians who have deeply influenced Christian thinking.

including Aristotle and Plato and of literary figures such as Dante Milton and Tolstoy Most articles end with a list of suggested readings and the book features a large number of cross references The Oxford Companion to Christian Thought is an indispensable guide to one of the central strands of Western culture An essential volume for all Christians it is a thoughtful gift for the holidays Orthodox Christian Bioethics Rabee Toumi,2020-10-07 This book advocates a substantive common ground in global bioethics It starts from an Orthodox Christian anthropology to highlight the relationship between hospitality dignity and vulnerability as the meeting point between strangers regardless of their value system The universal experience of suffering and death is the unifying starting point of that anthropology Therefore in medicine where physicians and patients meet as utter strangers not only as moral strangers hospitality highlights the human dignity and vulnerability of both parties and establishes gratitude compassion and solidarity as the constructive building blocks of a healing practice of medicine and a humane medical system locally and globally Holy Russia, Sacred Israel Dominic Rubin,2010 This is a truly exceptional book I have reread chapters time and again In these pages there are so many things of immediate interest mainly I think for Orthodox theologians and Church leaders The presentation and commentary on landmark figures like Soloviev Bulgakov Berdyaev and Florensky will be of great benefit in helping Orthodox Christians in the twenty first century understand in depth the past relationship between Christianity and Judaism in the Orthodox context during a period that was of crucial importance for both faiths Very few people are aware of the details of this relationship and this book is invaluable in assessing how today s Orthodox Christians can learn from this past Fr Vasile Mihoc Professor of New Testament Studies Lucian Blaga University of Sibiu Romania **Religion and Secular Modernity in Russian Christianity, Judaism, and Atheism** Ana Siljak,2024-11-15 Religion and Secular Modernity in Russian Christianity Judaism and Atheism is a multifaceted account of the engagement between religion and the secular in Russia s Christian Jewish and atheist traditions Ana Siljak brings together an interdisciplinary group of leading scholars to present unique perspectives on the secularization dynamic in Russia and the Soviet Union telling stories about theologians sects churches poets and artists From the Jewish Christian priest Alexander Men to the cross dressing poet Zinaida Gippius to the Soviet promoter of Yiddish theater Solomon Mikhovels Religion and Secular Modernity in Russian Christianity Judaism and Atheism gives a voice to a variety of actors who have grappled with the possibilities of faith and unbelief in an industrialized modern and seemingly secular world Now more than ever as one narrative of Russia s religious history dominates official Russian accounts alternative perspectives of the relationship between Russian religion and secularism should be highlighted and emphasized **Analogia** Andreas Andreopoulos,Nikolaos Loudovikos,Dionysios Skliris,Stavros J.
