Russias Underground Press The Chronicle Of Current Events

Meredith L. Roman

Russias Underground Press The Chronicle Of Current Events:

Russia's Underground Press Mark Hopkins,1983 Whistleblowers, Leakers, and Their Networks Jason Ross Arnold,2019-08-26 Human rights organizations Hackers Soviet dissidents Animal welfare activists Corruption reporting apps The world of whistleblowing is much more diverse than most people realize It includes the prototypical whistleblowers government and corporate employees who spill their organizations secrets to publicize abuses despite the personal costs But if you look closely at what the concept entails then it becomes clear that there are many more varieties There is a wide world of whistleblowing out there and we have only begun to understand and explain it In *Whistleblowers Leakers and Their Networks* From Snowden to Samizdat Jason Ross Arnold clarifies the elusive concept of whistleblowing Most who have tried to define or understand it have a sense that whistleblowers are justified secret spillers people who make wise decisions about their unauthorized disclosures But we still have no reliable framework for determining which secret spillers deserve the positively charged term whistleblower and which ones should get stuck with the less noble moniker leaker A better understanding can inform our frustratingly endless political debates about important cases the Snowdens Mannings Ellsbergs Deep Throats etc but it can also provide guidance to would be whistleblowers about whether or not they and their collaborators should make unauthorized disclosures *Civil Society and Corruption* Michael Johnston,Colgate University. Center for Ethics and World Societies,2005 Strong civil societies play a major role in controlling corruption in many societies and reformers agree that citizens both individual and organized should be involved in reform But accomplishing that goal has proven difficult Some civil societies are weak divided and impoverished In others undemocratic regimes dominate through intimidation And in still others development difficulties international debt and misguided aid efforts stop reform before it can begin Too often anti corruption campaigns do not engage social values or attack corruption as people experience it every day This volume based on a yearlong series of events sponsored by Colgate University s Center for Ethics and World Societies analyzes civil society and corruption from several perspectives and in several parts of the world One section considers corruption as a fact of everyday life a second analyzes techniques and incentives involved in mobilizing civil society and a third provides a unique guide to information resources on corruption and reform **The Red Pencil** Marianna Tax Choldin,Maurice Friedberg,2024-11-26 *The Red Pencil* 1989 examines the many ways in which Soviet censorship interfered in the creative process in the words of those who experienced it first hand It helps to identify the ways in which Soviet artistic and intellectual production was shaped by the practices of Soviet censorship The book goes beyond the simple recounting of banned books and taboo subjects to examine the more subtle issue of how Soviet writers attempted to strike a balance between accommodating the demands of government censorship while retaining for themselves a modicum of unfettered expression and intellectual integrity Most of the contributing authors were active as writers critics editors film and theatre specialists or scientists prior to their departure from the Soviet Union in the 1970s **The Private World of**

Soviet Scientists from Stalin to Gorbachev Maria Rogacheva, 2017-07-10 A major new contribution to understanding the transition of Soviet society from Stalinism to a more humane model of socialism

The Black Panthers and the Soviets Meredith L. Roman, 2025-05-15 The contemporaneous movements for human rights that Soviet rights defenders and the Black Panthers waged during the 1960s are analysed in a comparative fashion here for the very first time The book also examines the extra legal measures that both the KGB and FBI employed to destroy them The Black Panthers and the Soviets innovatively compares Soviet human rights activists exposure of the workings of the Soviet police state with the miniature city level surveillance police states that the Black Panthers exposed as operating across the United States It illuminates the legal tactics of counter surveillance that Soviet rights defenders and the Black Panthers employed as a means of restraining acts of state sanctioned violence The book also highlights how the U S production of knowledge about Soviet dissidents reified white supremacist anti communist notions of dissent human rights and state violence that facilitated the repression of the Black Panthers and the mass incarceration of African Americans as criminals Meredith L Roman disrupts the enduring Cold War binaries of authoritarianism democracy and oppression freedom that obscure our understanding of the complex overlapping histories of these two superpowers Roman convincingly argues that the Soviet rights defenders and the Black Panthers vast documentation of domestic human rights abuses and the repressive measures that they faced for mobilizing to end them serve as an important societal reminder they reaffirm that genuine democracy and the safeguarding of human rights are incompatible with authoritarian practices the conditions of racial capitalism and the ideology of national security

Soviet Constitutional Crisis Robert Sharlet, 2016-06-16 Moving from the adoption of the post Stalin Constitution of 1977 through its subsequent implementation under Brezhnev Andropov and Chernenko to the radical legal restructuring of the Gorbachev years Robert Sharlet traces the gradual evolution of a nascent constitutionalism in the erstwhile USSR Sharlet a noted authority on Soviet law and constitutional development demonstrates the gradual transformation of law from an instrument of Communist Party rule into the new rules of the game for nonauthoritarian political development In effect he argues one of Gorbachev s most durable achievements may be his redefinition of Soviet politics into a legal idiom along with his relocation of policymaking from behind the closed doors of Party conclaves into the more open emergent arena of constitutional government In analyzing the politics of law from the Brezhnev era to the rise of Yeltsin the author takes account of the war of laws the symbolic uses of the Soviet constitution and even the fact that the leaders of the failed coup attempted to justify their seizure of power on constitutional grounds Constitutionalism has sufficiently suffused Soviet public life the book concludes that most of the sovereign republics as successors to the former USSR have begun designing their futures to varying degrees in constitutional forms

Soviet Samizdat Ann Komaromi, 2022-05-15 Soviet Samizdat traces the emergence and development of samizdat one of the most significant and distinctive phenomena of the late Soviet era as an uncensored system for making and sharing texts Based on extensive research of the underground journals bulletins art

folios and other periodicals produced in the Soviet Union from the mid 1950s to the mid 1980s Ann Komaromi analyzes the role of samizdat in fostering new forms of imagined community among Soviet citizens Dissidence has been dismissed as an elite phenomenon or as insignificant because it had little demonstrable impact on the Soviet regime Komaromi challenges these views and demonstrates that the kind of imagination about self and community made possible by samizdat could be a powerful social force She explains why participants in samizdat culture so often sought to divide political from cultural samizdat Her study provides a controversial umbrella definition for all forms of samizdat in terms of truth telling arguing that the act is experienced as transformative by Soviet authors and readers This argument will challenge scholars in the field to respond to contentions that go against the grain of both anthropological and postmodern accounts Komaromi s combination of literary analysis historical research and sociological theory makes sense of the phenomenon of samizdat for readers today Soviet Samizdat shows that samizdat was not simply a tool of opposition to a defunct regime Instead samizdat fostered informal communities of knowledge that foreshadowed a similar phenomenon of alternative perspectives challenging the authority of institutions around the world today

Dewberry Culture George McMillan Darrow,1916 **Special Bibliography Series** ,1957 **Special Bibliography Series** United States Air Force Academy. Library,1988 Soviet Ukrainian Dissent Jaro Bilockowycz,2019-07-11 In this book the author focuses on an important variant of Soviet dissent from 1963 through March 1985 to deepen understanding of the phenomena of political alienation and dissent and to stimulate further study of political dissent in the USSR and elsewhere

The Oxford World History of Empire Peter Fibiger Bang,Christopher Alan Bayly,Walter Scheidel,2021 This is the first world history of empire reaching from the third millennium BCE to the present By combining synthetic surveys thematic comparative essays and numerous chapters on specific empires its two volumes provide unparalleled coverage of imperialism throughout history and across continents from Asia to Europe and from Africa to the Americas Only a few decades ago empire was believed to be a thing of the past now it is clear that it has been and remains one of the most enduring forms of political organization and power We cannot understand the dynamics and resilience of empire without moving decisively beyond the study of individual cases or particular periods such as the relatively short age of European colonialism The history of empire as these volumes amply demonstrate needs to be drawn on the much broader canvas of global history Volume Two The History of Empires tracks the protean history of political domination from the very beginnings of state formation in the Bronze Age up to the present Case studies deal with the full range of the historical experience of empire from the realms of the Achaemenids and Asoka to the empires of Mali and Songhay and from ancient Rome and China to the Mughals American settler colonialism and the Soviet Union Forty five chapters detailing the history of individual empires are tied together by a set of global synthesizing surveys that structure the world history of empire into eight chronological phases

Soviet Disunion Bohdan Nahaylo,Victor Swoboda,1990 Ethnic upheaval throughout the USSR now threatens the very reforms introduced by Gorbachev and may well

decide the fate of his government This volume describes the histories of the suppressed and angry nationalities their drive for the restoration of national rights and the implications for the future Annotation copyrighted by Book News Inc Portland OR

Global Communications Paula Chakravartty, Yuezhi Zhao, 2008 This provocative book takes a new approach toward understanding the uneven flows of global communications Rather than guiding its discussion by geography types of media or traditional separations of power and resistance Global Communications examines political economic power and communication in relation to historically specific encounters with modernity It underscores lived experiences in its approach to globalization showing that the state and the market can both be sites of empowerment just as civil society might also be a site of repression Taking a political economic analysis of communication and culture this dynamic group of international authors looks beyond developments in the North American information and culture industries to map new forms of citizenship and exclusion The chapters spotlight China Ghana India Japan Palestine Russia Singapore and Venezuela and foreground the transnational formations of the European Union the pan Arab and Spanish speaking markets and civil society actors in sub Saharan African the Middle East and North America Theoretically driven and empirically grounded Global Communications defines communication broadly to include production circulation and consumption and addresses urgent questions about the inequalities of globalization and the possibilities of hybrid cultural forms and practices

International Handbook of Human Rights Jack Donnelly, Rhoda E. Howard-Hassmann, 1987-11-06 This collection of essays on the current human rights climate in 19 countries includes Canada Chile China Cuba Israel Poland the USA and USSR and represents a variety of regimes cultural traditions and geographical areas For analysis of the facts this volume excels A well crafted introduction describes current debate about human rights theory and practice traces the development of human rights instruments and discusses problems of implementation Strongly recommended Library Journal The bulk of the scholarly literature on human rights deals with international law and politics In contrast this volume offers nineteen case studies of national human rights practices Although international factors cannot be ignored most human rights violations are perpetrated by states against their own citizens the principal causes of the respect for and violation of human rights lie in national social and political structures *Problems of Communism*, 1986 **Policing Soviet Society** Louise

Shelley, 2005-08-02 The first book to look in depth at the Soviet militia A crucial aid to understanding the authoritarianism of the communist system and its legacy for Russia and the successor states **Remembering Stalin's Victims** Kathleen E. Smith, 2018-05-31 In Remembering Stalin's Victims Kathleen E. Smith examines how government reformers repudiation of Stalin's repressions both in the 1950s and in the 1980s created new political crises Drawing on interviews she tells the stories of citizens and officials in conflict over the past She also addresses the underlying question of how societies emerging from repressive regimes reconcile themselves to their memories Soviet leaders twice attempted to liberalize communist rule and both times their initiatives hinged on criticism of Stalin During the years of the Khrushchev thaw and again during

Gorbachev's glasnost anti-Stalinism proved a unique catalyst for democratic mobilization. Under Gorbachev, dissatisfaction with half-truths about past atrocities united citizens from all walks of life in the Memorial Society, an independent mass movement that eventually challenged the very notion of reform communism. Smith investigates why citizens risked confrontation with the Communist Party in order to promote recognition of the victims of Stalinism and recompense for their survivors. Efforts to acknowledge the bitter legacy of totalitarian rule while originally supporting a stable state-society reform coalition ultimately provoked radical demands for openness about the past, official accountability, and institutional guarantees of human rights. Smith explains the battle over the Soviet past, which suggests not only illuminates the dynamic between elite and mass political actors during liberalization but also reveals the scars that totalitarian rule has left on Russian society and the long-term obstacles to reform it has created.

Sophisticated Rebels Henry Stuart Hughes, 1988. Examines two decades of European dissent, discusses the influence of the 1968 invasion of Czechoslovakia, and assesses the role of dissenters in the modern world.

When people should go to the book stores, search commencement by shop, shelf by shelf, it is in point of fact problematic. This is why we allow the books compilations in this website.
