Ethnic Politics and Democratic Transition in Rwanda David E. Kiwuwa, 2012 This book offers an examination of how a deeply divided post conflict society embarks on democratic transition Using Rwanda as the case study it combines analysis of democratic transition and ethnopolitical debate asking why deeply divided ethnic societies have a tendency to fail Though marginalised in existing literature on democratic transition this path breaking book shows how ethnicity has a significant impact on the direction and success of democratic process The initial failure of democratic transition in Rwanda shows that the current regime will need to be sensitive to ethnicity ethnopolitical consciousness and mobility in order to be successful in its second transition attempt Based on key informant interviews participant observation and primary resources this book develops beyond the case study of Rwanda to posit a new framework that integrates variables of unity equality trust and institutional engineering in an integrative model to study and evaluate democratic transition in divided or post conflict society Ethnic Politics and Democratic Transition in Rwanda will be of interest to students and scholars of democratization democracy and ethnic politics and conflict *Just War and the Responsibility to Protect* Robin Dunford, Michael Neu, 2019-08-15 Despite the disasters of Iraq Afghanistan Syria and ever more visible evidence of the horrors of war the concepts of Humanitarian Intervention and Just War enjoy widespread legitimacy and continue to exercise an unshakeable grip on our imaginations Robin Dunford and Michael Neu provide a clear and comprehensive critique of both Just War Theory and the Responsibility to Protect R2P doctrine deconstructing the philosophical moral and political arguments that underpin them In doing so they show how proponents of Just War and R2P have tended to treat killing in a way which obscures the complex and often messy reality of war and pays little heed to the human impact of such conflicts Going further they provide answers to such difficult questions as Surely it would have been just for us to intervene in the Rwandan genocide An essential guide to one of the most difficult moral and political issues of our age **Working Across Cultures** John Hooker, 2003 A guide to adapting and thriving within unfamiliar cultural settings challenges the notion that professional life interacts with culture only at the etiquette level distinguishing between rule based and relationship based cultures while considering the roles of such factors as competition security and lifestyle Social Science *Transboundary Protected Areas* Yale University, 2003-05-21 Top researchers share their expertise on conservation and sustainability in areas that extend across national borders This informative and insightful book examines strategies being used by governments and NGOs to protect wild areas that cross national borders and cultural linguistic and socioeconomic boundaries In addition to presenting case studies from five continents *Transboundary Protected Areas The Viability of Regional Conservation Strategies* provides several theoretical overviews that suggest viable approaches to conserving biodiversity in these difficult to protect areas From the editors Historically the borders of protected areas have been defined by convenient social political or proprietary boundaries rather than by ecological boundaries Today many scientists and practitioners are in agreement that the world s

biodiversity and other natural resources can best be conserved on an ecosystem or regional scale which may or may not be consistent with political boundaries Efforts to protect land on an ecosystem scale have led to the creation of numerous transboundary protected areas also referred to as international peace parks or transfrontier conservation areas These areas which often cross linguistic socioeconomic and cultural boundaries as well as national borders represent regional conservation at its most complex While many scientists and practitioners promote eco regional approaches to conservation many also advocate pursuing conservation goals on local or community scales Conservationists therefore endeavor to achieve a seemingly incongruous mandate to pursue top down regional goals using bottom up local approaches Transboundary Protected Areas The Viability of Regional Conservation Strategies addresses the vital questions associated with this mandate Is it reasonable and realistic to approach regional conservation this way What strategies have been employed to achieve these goals and how successful have they been Who benefits from transboundary conservation and what are the costs Reflecting the information delivered at the 2001 conference of the Yale chapter of the International Society of Tropical Foresters ISTF this book provides you with the best answers available at this time The contributors include social and natural scientists resource managers policymakers and community leaders Transboundary Protected Areas The Viability of Regional Conservation Strategies brings them together for an interdisciplinary exploration of these questions and other critical issues related to conservation in and around transboundary protected areas Specific cases that are thoughtfully examined in Transboundary Protected Areas The Viability of Regional Conservation Strategies include the public reaction to the Yellowstone to Yukon Y2Y Conservation Initiative the ways in which the establishment of southern Africa s existing and proposed Transfrontier Conservation Areas TFCAs can help conserve biodiversity aid socioeconomic development and promote international peace development and conservation efforts in the Maloti Drakensberg mountains of southern Africa which straddle the borderlands between South Africa and Lesotho the cultural aspects of protected area management in Venezuela and Guyana the impact of transfrontier collaboration as evidenced by the International Gorilla Conservation Programme IGCP in the Virunga Bwindi region of Africa Uganda Rwanda and the Democratic Republic of Congo how the Nepalese have addressed the problems of poaching commercial logging illegal harvesting and smuggling of forest products and illegal trade of wildlife and wildlife products in the eastern Himalayas by implementing a transboundary biodiversity conservation initiative Helpful maps tables and figures make geographical regions and conservation information easy to assimilate

2001 Humanitarian nongovernmental organizations NGOs grew significantly in the last decades of the 20th century The international NGO community today is a rich world of professional bodies local organizations mammoth multinationals charities advocacy groups business like organizations ad hoc agencies and voluntary associations Humanitarian NGOs are powerful actors in conflict regions and influential campaigners at the international level What are the reasons behind their growth In answering that question this book focuses on how and when NGOs became influential in humanitarian crises Four case studies in Rwanda and Afghanistan are examined The earliest is the crisis in Rwanda in the 1960s when only a few NGOs operated in Rwanda with limited budgets and experience The second case study is the Soviet invasion of Afghanistan in 1979 89 by which time NGOs had developed considerably by then they were operating on a global scale receiving more funds having closer ties with the media executing bigger projects and had also become more professional The second Afghan case study focuses on the mujahidin and Taliban rule while the second Rwandan study centres on the 1994 genocide These two studies reveal that enormous changes have taken place in the humanitarian NGO community since the 1980s In this way this book characterizes the changes that have taken place and then offers explanations for the nature and speed of the growth and change
