Wolfe, 1998 A logical presentation of the sacraments as the principle acts of worship in the Catholic church Synthesizes contemporary research on symbol ritual and sacramental liturgical and pastoral theology into a single readable resource Each chapter ends with questions for reflection and discussion

*Honest Rituals, Honest Sacraments* Joseph Martos, 2017-12-28 Honest rituals are ceremonial actions that celebrate what is actually happening in people's lives Religious rituals however often celebrate beliefs and doctrines e.g. the birth of Christ God's forgiveness of sins or the gifts of the Holy Spirit that have little to do with people's experience Martos argues that early Christian rituals were grounded in experiences such as conversion community commitment and self giving Lacking a vocabulary to name such experiences the authors of the New Testament and other early documents resorted to metaphors such as baptism into Christ receiving the Holy Spirit forgiveness by God and the presence of Christ during worship By the fourth century however those metaphors were taken to be unexperienced metaphysical realities rather than experienced realities The medieval schoolmen developed philosophical explanations of what went on in church rituals and the Catholic Church continues to teach that its sacraments are automatically effective despite growing evidence to the contrary What if religious rituals were to regain their original authenticity What if the guiding value in designing church ceremonies was honesty rather than liturgical correctness After liberating the reader from doctrinal constraints Martos invites Catholics into a re-visioning of the traditional sacraments and a reawakening of ritual imagination in non-Western cultures

*The Church-as-family and Ethnocentrism in Sub-Saharan Africa* Gerald K. Tanye, 2010 Ethnocentrism is one of the greatest obstacles to peace on the African continent Taking the Church as Family of God as a model of evangelization this work explores means of inculturating the Gospel message in African cultures in order to transform them make them blossom and enable Africans to live as authentic Christians in their cultures It examines the values of African extended families and the prospects of interreligious dialogue as means through which the various religious bodies can effectively work together to overcome ethnocentrism and its evil effects and thus establish a wholesome African society where every human person is at home irrespective of family orientation or tribal background

*The Sacraments* Joseph Martos, 2009-08-01 What are the sacraments really For centuries the religious lives of Catholics and other Christians have revolved around church rituals with generally accepted individual and social effects What precisely are those effects and how are they produced Traditional theology used Greek philosophy to understand the sacraments and how they work But is there no other way to understand

them In fact there are a number of ways and this book invites you to look at the sacraments through a variety of lenses psychology sociology anthropology history theology morality and spirituality As the introduction to this volume challenges If you read this book and especially if you engage in the interactive study to which it invites you your understanding of sacraments will be changed forever To help personalize your investigation the author has created a web site with thought provoking questions that encourage you to interact with the ideas being proposed in this volume To engage these topics more deeply see [www TheSacraments org](http://www.TheSacraments.org)

**The Seven Sacraments of the Catholic Church** Archibald L.H.M. van Wieringen, 2022-06-08 The strong relationship between the Bible and the sacraments of the Catholic Church is generally accepted in theology This monograph approaches this relationship from a synchronic perspective This fresh perspective opens up new windows providing insight into similarities found in the various rites in and outside the Catholic Church For example the basic biblical pattern of the celebration of the Eucharist Last Supper appears to be standard It also poses critical questions regarding sacramental theology in general especially to the problematic equation of the proper name Jesus and the title Christ

**Christian Ritualizing and the Baptismal Process** Susan Marie Smith, 2011-11-15 Most people even non Christians know that Christians gather for worship once a week and that they are right there to support each other when there is a baptism or a wedding or a funeral But what about other poignant vulnerable or life changing times How does the church help people handle changes that in the past in Christendom were considered secular Does the church have a role at retirement when one's ministry changes or when a family's children leave home and familiar patterns seem to grind to a halt Is there any rite possible for someone who is called to Christian ministry but not to ordination Or to someone whose vows are broken in divorce

**Christian Ritualizing and the Baptismal Process** asserts that baptism marks the beginning of a process of participation in Christ's ministry so that no part of life can finally be considered secular Susan Marie Smith shows how every passage healing and ministry vocation is holy and she lays the groundwork needed for every church to create the rituals necessary to lament and celebrate the endings and beginnings that happen in every Christian life

*Invitation and Encounter* Timothy P. O'Malley, 2022-05-02 Sacramentalized but not evangelized is a phrase often used by those in the Church involved in pastoral outreach and evangelization efforts While the phrase gets at a truth many Catholics who have received the sacraments are still in desperate need of evangelization it is theologically and spiritually imprecise The problem is not that people have only received their sacraments but that we do not

*Scieno-spirituality* S?ddhak, 2017-10-13 Modern science based on logical reasoning has made human life a wonderful experience We have almost conquered time and space with almost everything that exists within it Humans should have been the happiest beings but that is not the case Something is missing in our pursuit of happiness We need to take a deep breath and think over it Spiritualists are the happiest persons They command both respect and reverence from us Let us not confuse spiritualist with an ascetic or a religious practitioner It is all about the control of mind where all thoughts originate Vedic knowledge the repository for development of human life states that the mind is all about consciousness Consciousness is the perception of what passes in the mind Modern science looks differently at a mind Though it considers mind as a repository of all consciousness but it considers the mind as a physical process only There is nothing spiritual about it That makes the starting

point of our search for connecting science with spirituality The Vedic philosophy is developed around these thoughts Yog Sutra credited to Patanjali is a repository of yogic practices which recommend developing mental awareness through sense control while another tradition called tantra says that senses have no role in controlling the mind It provides alternative practices
