Sacred Origin And Nature Of Sports And Culture:

The Sacred Origin and Nature of Sports and Culture Ghazi bin Muhammad (Prince of Jordan.),1998 This unique study defines two aspects of modern society sports and culture from a traditional perspective carefully examining their sacred origin and their relevance throughout history in philosophical and religious thought **International Sport** Richard William Cox,2004 There has been an explosion in the quantity of sports history literature published in recent years making it increasingly difficult to keep abreast of developments The annual number of publications has increased from around 250 to 1 000 a year over the last decade This is due in part to the fact that during the late 1980s and 90s many clubs leagues and governing bodies of sport have celebrated their centenaries and produced histories to mark this occasion and commemorate their achievements It is also the result of the growing popularity and realisation of the importance of sport history research within academe This international bibliography of books articles conference proceedings and essays in the English language is a one stop for the sports historian to know what is new *The Games People Play* Robert Ellis,2014-04-21 In *The Games People Play* Robert Ellis constructs a theology around the global cultural phenomenon of modern sport paying particular attention to its British and American manifestations Using historical narrative and social analysis to enter the debate on sport as religion Ellis shows that modern sport may be said to have taken on some of the functions previously vested in organized religion Through biblical and theological reflection he presents a practical theology of sport s appeal and value with special attention to the theological concept of transcendence Throughout he draws on original empirical work with sports participants and spectators *The Games People Play* addresses issues often considered problematic in theological discussions of sport such as gender race consumerism and the role of the modern media as well as problems associated with excessive competition and performance enhancing substances As Ellis explains Sporting journalists often use religious language in covering sports events Salvation features in many a headline and talk of moments of redemption is not uncommon Perhaps somewhere beyond the cliched hyperbole there is some theological truth in all this after all **Islam, Fundamentalism, and the Betrayal of Tradition, Revised and Expanded** Joseph E.B. Lumbard,2009-08-16 This fully revised edition of the critically acclaimed book contains a series of essays that explain the misconceptions that lie at the heart of Western attitudes towards Islam Including a new essay on the role of women in Islam an updated chapter containing insights into the concept of Jihad and three fully revised chapters that bring the discussion up to date with the current global situation this book is a must read for anyone interested in Islam and its relation to the West Ways to Go Beyond and Why They Work Rupert Sheldrake,2019-01-24 To go beyond is to move into a higher state of consciousness to a place of bliss greater understanding love and deep connectedness a realm where we finally find life s meaning experiences for which all spiritual seekers seek Dr Rupert Sheldrake writing as both a scientist and a spiritual explorer looks at seven spiritual practices that are personally transformative and have scientifically measurable effects He combines the latest scientific research with his extensive

knowledge of mystical traditions around the world to show how we may tune into more than human realms of consciousness through psychedelics such as ayahuasca and by taking cannabis He also shows how everyday activities can have mystical dimensions including sports and learning from animals He discusses traditional religious practices such as fasting prayer and the celebration of festivals and holy days Why do these practices work Are their effects all inside brains and essentially illusory Or can we really make contact with forms of consciousness greater than our own We are in the midst of a spiritual revival This book is an essential guide A Weberian Perspective on Home, Nature and Sport Michael Symonds, 2024-05-30 This book extends Max Weber's theory of the value spheres of modernity into wholly new areas showing that the addition of home nature and sport to Weber's own list of five spheres economic scientific intellectual political legal erotic and aesthetic yields original insights into these aspects of modernity and modernity itself It shows how each of these new spheres is able to create its own inner cosmos of salvation from rationalised senselessness just as Weber's irrational spheres offer release from the grim reality of capitalism the disenchanted universe and the bureaucratic state formed by the more rationalised spheres Drawing on a wide cross disciplinary range of sources the author sheds light on the role of home in creating a sense of our enchanted past of nature in helping to restore to the world a teleological meaning constructed from innocence and purity and of sport in imposing sense on the world at least temporarily A Weberian Perspective on Home Nature and Sport Disenchantment and Salvation will appeal to scholars of sociology and social theory with interests in classical sociological theory and the analysis of modernity **Proceedings & Newsletter** North American Society for Sport History, 1999

Spain Under the Crescent Moon Angus Macnab, Rama P. Coomaraswamy, 1999 Historical sketches so irresistibly readable they might have been lifted straight from the Arabian Nights **The Culture of Nature** Alexander Wilson, 1991 In this celebrated work Alexander Wilson examines environments built over the past fifty years as humans have continued to discover exploit protect restore and sometimes re-enchant a natural world in convulsion Extensively illustrated
