Approaching the World's Religions, Volume 1 Robert Boyd, 2017-05-04 Philosophically Thinking about World Religions is different from other works in the discipline today. It deviates from the typical approaches used for the study of world religions. Its goal is to engage readers in thinking hard about world religions, not about the data surrounding those traditions. By focusing on philosophical questions, each reader should be challenged to do their own investigations that may reveal the heart of these traditions. Another stance that this project takes that distinguishes it from other texts in the discipline is that it advocates an inclusivist perspective regarding the world religions. Pluralism, which is the predominate assumption today, ends either in contradiction or in the development of a metatheory that dismisses crucial distinctions between the various traditions or eliminates some ancient religions because they do not fit the metatheory. By taking an open inclusivist approach, all religious traditions may engage at the table of dialogue. The final essay is about justice and social affairs. While that discussion is couched within the context of a particular tradition, each religious tradition must have the discussion. But it must be more than an intrareligious dialogue; it must become an interreligious dialogue. *The*

Discovering the Bible in the Non-Biblical World Pui-Lan Kwok, 2003-09-16 As a Chinese woman, a feminist theologian, and a biblical scholar, Pui lan Kwok brings a new perspective and voice to the task of hermeneutics. Her multidimensional reading of the Bible draws on a tradition much older than that of the West while it simultaneously incorporates the insights of contemporary feminist and Third World theologies. Seeing herself as wanderer between the worlds of East and West, Pui lan Kwok draws on the work of contemporary biblical scholars as well as the millennia-old commentaries on the Book of Change, the Dao de Jing, and the Bhagavad Gita. Her creativity and imagination come into play as she gradually inseparably links reader, text, and context. The first three chapters locate the context from which she approaches the Bible as an Asian woman. Pui lan considers Asian traditions as well as the social biography of Asian peoples and discusses the complex issues of using the Bible in feminist theology. Chapters Four and Five approach the unique Asian context with its long traditions of orality and exegesis of ancient scriptures. Chapter Six analyzes the challenges of Asian critics to western interpretations of scripture and raises sharp issues of colonial oppression. Finally, *Discovering the Bible in the Non-Biblical World* shows how the multiple oppressions of women provide a context for rediscovering the Bible's liberating message. Must reading for anyone engaged in biblical studies, cross-cultural education, and feminist theology. I highly recommend this richly instructive and powerful book. Elisabeth Schüssler Fiorenza, Harvard Divinity School. An important addition to the fast-growing literature on Asian biblical discourse. R. S. Sugirtharajah, University of Birmingham. A significant contribution to the hermeneutical conversation arising from the global context of reading of the Bible. Sharon H. Hinge, Wesley Theological Seminary. **INTRODUCTION TO WORLD RELIGIONS AND BELIEF SYSTEM** BERHN VINCENT C. DOSDOS, 2021-08-30 The course explores the main tenets
