H. McLeod, 2009-07-24 Contrary to popular opinion there is more to Sikhism than the distinctive dress First of all there is the emergence of Guru Nanak the founder of Sikhism and the long line of his successors There are the precepts many related to liberation through the divine name or nam There is a particularly turbulent history in which the Sikhs have fought to affirm their beliefs and resist external domination that continues to this day There is also more recently the dispersion from the Punjab throughout the rest of India and on to Europe and the Americas With this emigration Sikhism has become considerably less exotic but hardly better known to outsiders This reference is an excellent place to learn more about the religion It provides a chronology of events a brief introduction that gives a general overview of the religion and a dictionary with several hundred entries which present the gurus and other leaders trace the rather complex history expound some of the precepts and concepts describe many of the rites and rituals and explain the meaning of numerous related expressions All this along with a bibliography provides readers with an informative and accessible guide toward understanding Sikhism *Asa Di Var* Sohan Singh (Director), 1982 **Sacred and Secular Musics** Virinder S. Kalra, 2014-11-20 How does the sacred secular opposition explain itself in the context of musical production This volume traces this binary as it frames Western Classical music and Indian Classical music in the 18th and 19th centuries laying the ground for a contemporary exploration of what is ostensibly sacred music in South Asia Offering a potent critique of musicological knowledge making

Virinder S Kalra explores examples of South Asian musics in various domains and traverses a new cartography of music in which the sacred and the secular overlap Drawing on examples which include Qawwali kirtan and popular devotional genres Sacred and Secular Musics offers new empirical material as well as new insights into conceptualising religion and music and the ways in which music performs sacredness and secularity across the contested India Pakistan border in the region of Punjab Through its deconstruction of the sacred secular opposition Sacred and Secular Musics explores the relationship of religion and music to wider questions of religion and politics Its postcolonial approach brings Asia into the Western sacred secular opposition and provides a set of analytical tools a language and range of theories to allow further exploration of non western religious music Sacred Asa Di Var H. Sacred as Secular Abdolmohammad Kazemipur,2022-02-28 Debates about Islam and Muslim societies have intensified in the last four decades triggered by the 1979 Islamic Revolution in Iran and later by the events of 9 11 Too often present in these debates are wrongheaded assumptions about the attachment of Muslims to their religion and the impossibility of secularism in the Muslim world At the heart of these assumptions is the notion of Muslim exceptionalism the idea that Muslims think believe and behave in ways that are fundamentally different from other faith communities In Sacred as Secular Abdolmohammad Kazemipur attempts to debunk this flawed notion of Muslim exceptionalism by looking at religious trends in Iran since 1979 Drawing on a wide range of data and sources including national social attitudes surveys collected since the 1970s he examines developments in the spheres of politics and governance schools and seminaries contemporary philosophy and the self expressed beliefs and behaviours of Iranian men women and youth He reveals that beneath Iran's religious facade is a deep secularization that manifests not only in individual beliefs but also in Iranian political philosophy institutional and clerical structures and intellectual life Empirically and theoretically rich Sacred as Secular looks at the place of religion in Iranian society from a sociological perspective expanding the debate on secularism from a predominantly West centric domain to the Muslim world

Beyond Religion in India and Pakistan Virinder S. Kalra,Navtej K. Purewal,2019-12-12 Drawing on insights from theoretical engagements with borders and

subalternity *Beyond Religion in India and Pakistan* suggests new frameworks for understanding religious boundaries in South Asia. It looks at the ways in which social categories and structures constitute the bordering logics inherent within enactments of these boundaries and positions hegemony and resistance through popular religion as an important indication of wider developments of political and social change. The book also shows how borders are continually being maintained through violence at national, community and individual levels. By exploring selected sites and expressions of piety including shrines, texts, practices and movements, Virinder S. Kalra and Navtej K. Purewal argue that the popular religion of Punjab should neither be limited to a polarised picture between formal institutional religion nor the enchanted universe of rituals, saints, shrines and village deities. Instead, the book presents a picture of religion as a realm of movement, mobilization, resistance and power in which gender and caste are connate of what comes to be known as religious. Through extensive ethnographic research, the authors explore the reality of the complex, dynamic and contested relations that characterize everyday material and religious lives on the ground. Ultimately, the book highlights how popular religion challenges the borders and boundaries of religious and communal categories, nationalism and theological frameworks while simultaneously reflecting gender, caste, society.
