

A close-up photograph of an ancient Egyptian gold mask. The mask is made of a highly reflective, textured gold. A large, dark, almond-shaped eye is prominently featured in the upper center. The eye has a dark, possibly black, pupil and iris, surrounded by a lighter, brownish-gold ring. The eyelids are defined by dark, slightly raised lines. The background of the mask shows the intricate texture of the gold, with some darker, possibly carved or inlaid, areas visible around the eye and on the left side.

## **Sacred Profane:**

**The Sacred and the Profane** Mircea Eliade, 1959 Famed historian of religion Mircea Eliade observes that even moderns who proclaim themselves residents of a completely profane world are still unconsciously nourished by the memory of the sacred Eliade traces manifestations of the sacred from primitive to modern times in terms of space time nature and the cosmos In doing so he shows how the total human experience of the religious man compares with that of the nonreligious This book serves as an excellent introduction to the history of religion but its perspective also encompasses philosophical anthropology phenomenology and psychology It will appeal to anyone seeking to discover the potential dimensions of human existence P 4 of cover      Discourse on Sacred and Profane Images Gabriele Paleotti, 2012 In the wake of the Counter Reformation Cardinal Gabriele Paleotti the archbishop of Bologna wrote a remarkable treatise on art during a time when the Church feared rampant abuse in the arts Translated into English here for the first time Paleotti's Discourse on Sacred and Profane Images argues that art should address a broad audience and explains the painter's responsibility to his spectators The Discourse is introduced by historian Paolo Prodi who explains how even if the archbishop did not succeed in reforming the arts Paleotti's treatise constituted one last synthesis of art as a reading of creation and salvation history and sacred art as a vehicle of devotion      Culture and Power David Swartz, 1997 Pierre Bourdieu is one of the world's most important social theorists and is also one of the great empirical researchers in contemporary sociology However reading Bourdieu can be difficult for those not familiar with the French cultural context and until now a comprehensive introduction to Bourdieu's oeuvre has not been available David Swartz focuses on a central theme in Bourdieu's work the complex relationship between culture and power and explains that sociology for Bourdieu is a mode of political intervention Swartz clarifies Bourdieu's difficult concepts noting where they have been misinterpreted by critics and where they have fallen short in resolving important analytical issues The book also shows how Bourdieu has synthesized his theory of practices and symbolic power from Durkheim Marx and Weber and how his work was influenced by Sartre Levi Strauss and Althusser Culture and Power is the first book to offer both a sympathetic and critical examination of Bourdieu's work and it will be invaluable to social scientists as well as to a broader audience in the humanities      **Hierarchy** Knut Mikkelsen, Olaf H. Smedal, 2009 On the basis of diverse ethnographic contexts in Oceania Asia and the Middle East the author's challenge current conceptions of hierarchical formations and reassess former debates both with regard to new theoretical issues and the new world situation of post colonial and neocolonial agendas      **The Paradoxical Breakthrough of Revelation** Uwe Carsten Scharf, 1999 No detailed description available for The Paradoxical Breakthrough of Revelation      World Scriptures Kenneth Kramer, 1986 World Scripture is a guidebook to the primary source materials of the classical living religions of the world It is a guidebook which innovatively blends critical and interpretative tools with sacred symbols and stories of Ultimacy      **Key Concepts in Classical Social Theory** Alex Law, 2011-01-19 This book's individual entries introduce explain and contextualise the key

Alexander, Philip Smith, 2005-05-26 An authoritative and comprehensive collection of essays redefining the relevance of Durkheim to the human sciences in the twenty first century **Illness and Healing Among the Sakhalin Ainu** Emiko Ohnuki-Tierney, 1981-08-31 Originally published in 1981 this book explores the issue of how a society understands human illness in the absence of a germ theory This is done through an interpretation of the illness categories and healing practices of the Sakhalin Ainu a hunting and gathering people resettled in Japan The text illustrates how illnesses relate to the Ainu view of the universe and how their medical system is intimately interwoven with their moral cosmology and social networks Even such minor ailments as headaches and boils are meticulously classified to mirror the classifications of such basic perceptual structures as space and time With the Ainu medical system as an example this book probes questions central to research in symbolic medical and linguistic anthropology structuralism and the anthropology of women The Sacred Is the Profane William Arnal, Russell T. McCutcheon, 2012-10-23 The Sacred Is the Profane collects nine essays by William Arnal and Russell McCutcheon that advance current scholarly debates on secularism debates The essays return again and again to the question of what religion word and concept accomplishes now for those who employ it whether at the popular political or scholarly level The focus here is on the efficacy costs and the tactical work carried out by dividing the world between religious and political church and state sacred and profane *Cultures and Societies in a Changing World* Wendy Griswold, 2008 The author takes a global approach by considering cultural examples from various countries and time periods be delving into the ways globalization processes are affecting cultures and by offering an explanation of post Cold War culture related conflicts Readers will develop a deeper appreciation of culture and society from this text gleaned useful insights that will help them overcome cultural misunderstandings conflicts and ignorance and equip them to live their professional and personal lives as effective wise citizens of the world **BOOK JACKET** *Myth and Religion in Mircea Eliade* Douglas Allen, 2002 This is an interesting study with a great deal of information on Eliade s main themes and a detailed account of his understanding of myth **Structure and Creativity in Religion** Douglas Allen, 2019-05-20 No detailed description available for Structure and Creativity in Religion **Baby, You are My Religion** Marie Cartier, 2014-09-11 Baby You Are My Religion argues that American butch femme bar culture of the mid 20th Century should be interpreted as a sacred space for its community Before Stonewall when homosexuals were still deemed mentally ill these bars were the only place where many could have any community at all Baby You are My Religion explores this community as a site of a lived corporeal theology and political space It reveals that religious institutions such as the Metropolitan Community Church were

founded in such bars that traditional and non traditional religious activities took place there and that religious ceremonies such as marriage were often conducted within the bars by staff Baby You are My Religion examines how these bars became not only ecclesiastical sites but also provided the fertile ground for the birth of the struggle for gay and lesbian civil rights before Stonewall     In Search of Dreamtime Tomoko Masuzawa,1993-12 Extended discussion of the concepts of time and origin in the work of Durkheim Muller and Freud Ch 5 contrasts the representation of the Dreaming in Eliade s Australian religions and Munns Walbiri iconography role of dreams and graphic representation in Walbiri womens lives their relation to formal analysis of the Dreaming argues that the Dreaming should be seen as a measure of difference and against its perception as an origin ground sand designs historical consciousness     *Modernity and Subjectivity* Harvie Ferguson,2000 Few concepts have come to dominate the human sciences as much as modernity yet there is very little agreement over what the term actually means Every aspect of contemporary human reality modern society modern life modern times modern art modern science modern music the modern world has been cited as a part of modernity s distinctive and all embracing presence But what is the exact nature of the reality to which the term modern refers Has not such a promiscuous ill defined concept come to obscure and confuse rather than clarify a genuine understanding of our experience Harvie Ferguson proposes a new view of modernity arguing that although it may variously be associated with the Renaissance the European discovery of the New World the Reformation the Industrial Revolution and many other significant ruptures with primitive or premodern society modernity fails as an idea if it only defines itself against what it replaced Instead he writes modernity finds its clearest definition through an exploration of subjectivity For the modern world there is no higher authority than experience No longer is the human world subordinate to a divine reality beyond the capacity of its own senses This idea finds its greatest expression in the philosophy of doubt originated by Descartes Doubt seemed the radical starting point from which to found a wholly modern philosophy that makes the distinction between subject and object but those who came after Descartes soon reached the limits of self discovery and became trapped in deepening levels of despair This despair in turn found expression in the concepts of self and other and eventually in a dialectic of ego and world which distinguishes and links together the most important social cultural and psychological aspects of modernity Moving beyond these dualities of subject and object mind and body ego and world and replacing them with the triad of body soul and spirit Ferguson redraws the map of contemporary experience finding links with the premodern world that modernity s self founding concealed     *Louis Dumont and Hierarchical Opposition* Robert Parkin,2009-03 The work of Louis Dumont who died in 1998 on India and modern individualism represented certain theoretical advances on the earlier structuralism of Claude L vi Strauss One such advance is Dumont s idea of hierarchical opposition which he proposed as a truer representation of indigenous ideologies than L vi Strauss s binary opposition In this book the author argues that although structuralism is often thought to have gone out of fashion Dumont s greater concern with praxis and agency makes his own version of structuralism more contemporary

The work of his followers and fellow travelers as well as his own indicates that hierarchical opposition is capable of taking structuralism in new and more realistic directions reminding us that it has never been the preserve of L vi Strauss alone
