The Iraqi Ba'th Regime's Atrocities Against the Faylee Kurds Adel Soheil,2025-08-07 The history of the relationship between the Iraqi Baath party and the Faylee Kurds an integral part of the Kurdish nation provides ample evidence of insecurity and large scale violations of fundamental human rights The Baathists employed different strategical methods

against the Faylee Kurds ranging from discrimination and social exclusion on the one extreme to mass expulsion and genocide on the other They justified their systematic prosecution and repression of one of the main components of the Iraqi society on the basis of national security The animosity towards the Faylee Kurds intensified during the rule of Saddam Hussein as they were accused of being of Iranian origin and constituting a fifth column in Iraq and hence a threat to be removed As a result the Baath regime expelled hundreds of thousands of Faylee Kurds to Iran and exterminated about 22 000 of them The Faylee Kurds have lived in Iraq for centuries and played a significant role in the history of modern Iraq and most notably for being expelled and killed on a vast scale yet they are still an unknown community to the outside world This book attempts to address this shortcoming From the introduction Cover photo Monument in Baghdad honouring the killed and disappeared Faylee Kurds

Arabic in the Fray Yasir Suleiman, 2013-07-22 The pre modern period saw a background of inter ethnic strife among Arabs and non Arabs mainly Persians Starting from the symbolic and cognitive roles of language Yasir Suleiman shows how discussions about the inimitability and untranslatability of the Qur an in this period were at some deep level concerned with issues of ethnic

election In this respect theology and ethnicity emerge as partners in theorising language Staying within the symbolic role of language Suleiman goes on to investigate the role of paratexts and literary production in disseminating language ideologies and in cultural contestation He shows how language symbolism is relevant to ideological debates about hybrid and cross national literary production in the Arab milieu In fact language ideology appears to be everywhere and a whole chapter is devoted to discussions of the cognitive role of language in linking thought to reality
