

SELLING POLITICS

Selling Politics

Anthony J. Nownes

Selling Politics:

Investor Politics John Hood, 2001 Represents an attempt to sketch out across a host of policy topics a realistic strategy for shrinking the welfare state This book looks backward to human history and even to prehistory to examine the origins of capital formation

Interest Groups in American Politics Anthony J. Nownes, 2023-06-20 Americans regularly rail against so called special interests Yet many members of society are themselves represented in one form or another by organized groups trying to affect government decisions Interest Groups in American Politics Third Edition is grounded by the role of information in interest group activity a theme that runs through the book This concise thorough text demonstrates that interest groups are involved in the political system at all levels of government federal state and local and in all aspects of political activity from election campaigns to agenda setting to lawmaking and policy implementation Rather than an anomaly or distortion of the political system interest group activity is a normal and healthy function of a pluralist society and democratic governance Nonetheless Nownes warns of the dangers of unwatched interest group activity especially in the realms of the electoral process and issue advocacy This much anticipated third edition of Nownes s text retains a student friendly tone It thoroughly updates the references to interest group research social media activity new foreign actors in American politics and political action committee PAC and party connections Numerous figures and tables throughout the book help students visualize significant trends and information New to the Third Edition A new section in Chapter 1 Interest Groups in the United States on social movements in the US A new section in Chapter 4 The Non Lobbying Activities of Interest Groups on how interest groups use social media to recruit members and burnish their image A new section in Chapter 5 Direct Lobbying about lobbying regulation how it affects group behavior and shadow interests New data in Chapter 6 Electoral Lobbying on how and how much groups spend on PACs super PACs and other vehicles for election spending A new section in Chapter 7 Indirect Lobbying on how interest groups use social media and new technology to affect political outcomes A new section in Chapter 8 Interest Groups and Political Parties on interest groups the Republican Party and President Donald Trump New information in Chapter 9 The Influence of Interest Groups on the latest research on interest group power and influence The new section will cite the latest literature on the growing power of business

Politics: The Basics Stephen D Tansey, Nigel Jackson, 2014-09-25 Now in its fifth edition Politics The Basics explores the systems movements and issues at the cutting edge of modern politics A highly successful introduction to the world of politics it offers clear and concise coverage of a range of issues and addresses fundamental questions such as Why does politics matter Why obey the state What are the key approaches to power How are political decisions made What are the current issues affecting governments worldwide Accessible in style and topical in content the fifth edition has been fully restructured to reflect core issues systems and movements that are at the centre of modern politics and international relations Assuming no prior knowledge in politics it is ideal reading for anyone approaching the study of politics for the first time **The**

Politics of Punk David A. Ensminger, 2016-08-11 Punk rock has long been equated with the ever shifting concepts of dissent disruption and counter cultural activities As a result since its 1970s and 1980s incarnations when bands in Britain from The Clash and Sex Pistols to Angelic Upstarts U K Subs and Crass offered alternative political convictions and subversive lifestyle choices the media has often deemed punk a threat Bands like Circle Jerks Dead Kennedys Bad Religion and Millions of Dead Cops followed suit in America pushing similar boundaries as the music mutated into a harsher hardcore style that branched deep into suburban enclaves Those antagonisms and ideals were in turn translated by another wave of bands from Fugazi to Anti Flag whose commitment to community building was as pronounced as their taut explosive tunes In *The Politics of Punk* David Ensminger probes the conscience of punk by going beyond the lyrics and slogans of the pithy culture war He paints a broad nuanced and well documented picture of the ongoing activism and outreach inherent in punk Creating a people s history of punk s social cultural aesthetic and political features the book features original interviews with members of Dead Kennedys Dead Boys MDC Channel 3 Snap Her Screem Minutemen TSOL the Avengers Blowdryers and many more Ensminger highlights punk money s influence on philanthropy and community involvement and paints a contextualized picture of how punk critiqued dominant culture by channeling support and media coverage for a wide array of humanitarian programs for gays and lesbians the homeless the disabled environmental and health research and other causes

Political Communication Today Duncan Watts, 1997 Duncan Watts looks at the development and role of the press and television in Britain as he explores the relationship between politicians and the media in this new study of modern political communication

Independent Politics Samara Klar, Yanna Krupnikov, 2016-01-19 The number of independent voters in America increases each year yet they remain misunderstood by both media and academics Media describe independents as pivotal for electoral outcomes Political scientists conclude that independents are merely undercover partisans people who secretly hold partisan beliefs and are thus politically inconsequential Both the pundits and the political scientists are wrong argue the authors They show that many Americans are becoming embarrassed of their political party They deny to pollsters party activists friends and even themselves their true partisanship instead choosing to go undercover as independents *Independent Politics* demonstrates that people intentionally mask their partisan preferences in social situations Most importantly breaking with decades of previous research it argues that independents are highly politically consequential The same motivations that lead people to identify as independent also diminish their willingness to engage in the types of political action that sustain the grassroots movements of American politics

Building a Business of Politics Adam D. Sheingate, 2016 Today politics is big business Most of the 6 billion spent during the 2012 campaign went to highly paid political consultants In *Building a Business of Politics* a lively history of political consulting Adam Sheingate examines the origins of the industry and its consequences for American democracy

Understanding American Government and Politics Duncan Watts, 2002 After setting the subject in context the book provides an introduction to and analysis of the

American Constitution and the make up of the federal states considering the Executive Branch before looking in depth at the legislature and the judiciary

The SAGE Handbook of Political Communication Holli A Semetko, Margaret Scammell, 2012-04-03 This authoritative and comprehensive survey of political communication draws together a team of the world's leading scholars to provide a state of the art review that sets the agenda for future study It is divided into five sections Part One explores the macro level influences on political communication such as the media industry new media technology and political systems Part Two takes a grassroots perspective of the influences of social networks real and online on political communication Part Three discusses methodological advances in political communication research Part Four focuses on power and how it is conceptualized in political communication Part Five provides an international regional and comparative understanding of political communication in its various contexts The SAGE Handbook of Political Communication is an essential benchmark publication for advanced students researchers and practitioners in the fields of politics media and communication sociology and research methods

The Political Economy of International Commodity Cartels Elina Kuorelahti, 2020-12-29 The Political Economy of International Commodity Cartels examines how international commodity cartels in the 1930s were impacted not only by commercial rivalry but also by international trade political and diplomatic concerns This work presents the rise and decline of the European Timber Exporters Convention ETEC and analyses how firms navigated through the cartel game under increasing international competition pressures from the national governments and the interventionist endeavours of the League of Nations Cartels are often associated with in the standard economic interpretation business collusion However in using vast archive sources and historical methodology the chapters in this book shed light onto how international relations shaped cartels The rise of British protectionism the emergence of the Soviet Union as an industrial power and the economic rapprochement of the League of Nations in the early 1930s created a wave of political and diplomatic challenges in the timber trading countries and affected cartelisation Timber firms in the biggest producer countries Finland and Sweden were uninterested in international cartel collaboration but under pressure joined the ETEC nevertheless This book makes a strong contribution to the fields of business history and cartel studies It is an essential read for economic historians interested in how political pressure shaped international cartels and how cartels became avenues of diplomacy

Political Campaigning in Referendums Holli A. Semetko, Claes H. de Vreese, 2004-08-02 This book reviews the research on campaigns and elections and investigates the effects of campaigning in referendums drawing on panel survey data media content data focus groups and interviews with journalists and campaign managers The authors argue that the media coverage not only influences public perceptions of the campaign the referendum issue and the party leaders but that in a close race it also shapes the voting and the political future of the incumbent party The first study to investigate the dynamics and effects of a referendum campaign on politicians media and citizens this innovative volume will be of interest to students and researchers of political communication

The Idea of Political

Marketing Nicholas O. O'Shaughnessy, Stephan C.M. Henneberg, 2002-06-30 O'Shaughnessy Henneberg and their contributors examine how the theory and practice of marketing has been and can be applied to politics. Particular attention was paid to the theory of political marketing with conceptual definitions developed to better facilitate communication between marketing professionals and political science researchers. Political marketing is about the making and unmaking of governments in a democracy. Despite its growing importance, the marketing academic profession has shown very little interest in the political ramifications of their discipline while political scientists often come to political marketing with the view that it is cosmetic if not trivial. O'Shaughnessy Henneberg and their contributors examine how the theory and practice of marketing has been and can be applied to politics. As they show, elections are a persuasion task writ large, most especially with the demise of inherited class loyalties. Following elections, governments can employ marketing techniques to build support for their actions while opposition parties can press the government and its supporters through similar marketing approaches. Of particular interest to scholars, researchers, and policy makers involved with politics, political communication, and the making of public policy.

Political TV Chuck Tryon, 2016-02-05 This book serves as an accessible critical introduction to the broad category of American political television content. Encompassing political news and scripted entertainment, Political TV addresses a range of formats including interview news programs, political satire, fake news, drama, and reality TV. From long running programs like *Meet the Press* to more recent offerings including *Veep*, *The Daily Show*, *House of Cards*, *Last Week Tonight*, and *Scandal*, Tryon addresses ongoing debates about the role of television in representing issues and ideas relevant to American politics. Exploring political TV's construction of concepts of citizenship and national identity, the status of political TV in a post-network era, and advertisements in politics, Political TV offers an engaging, timely analysis of how this format engages its audience in the political scene. The book also includes a videography of key and historical series, discussion questions, and a bibliography for further reading.

The Handbook of Election News Coverage Around the World Jesper Strömbäck, Lynda Lee Kaid, 2009-09-10 The Handbook of Election Coverage Around the World focuses on the news coverage of national elections in democracies around the globe. It brings together and compares election news coverage within a single framework, offering a systematic consideration of various factors. Considering the prominence and power of the press in the election process, this volume will offer unique breadth in its global consideration of the topic. The volume will appeal to scholars in political communication, political science, mass media, and society, and others studying elections and media coverage around the world.

Mediating Politics: Newspapers, Radio, Television and the Internet Neil Washbourne, 2010-04-16 For anyone interested in the relationship between politics and mass media, this is a key book. Neil Washbourne combines a compendious knowledge of modern forms of communication with an astute and sophisticated analysis of contemporary politics. *Mediating Politics* is theoretically subtle and empirically detailed, offering a new perspective on a vital topic. Professor John Street, University of East Anglia, UK. In the vast field that political communication has become

Neil Washbourne's book stands out as an admirable and helpful work for both students and scholars new to the topic. Professor Liesbet van Zoonen, Erasmus University Rotterdam, asks: How is politics reported in the media? How does the relationship between the media and political organizations affect the political messages that are conveyed? How do members of the public access and make sense of political messages? This book critically analyses the complex relationship between media and politics, beginning with a discussion of what is meant by the mediating of politics. The author outlines the ways in which political messages are formulated, broadcast, and received, as well as examining the ways in which the media and political organisations are linked to one another. The author also analyses the relationship between the media and Globalisation, De-regulation of the media, Apathy of audiences, and is illustrated throughout with case studies from the US, UK, and from across the world. The book also explores Celebrity politicians, How different national media systems encourage or discourage political engagement, How young people engage with the media and politics, and How the Internet has affected the organization of politics and news media. *Mediating Politics* is key reading for media communication, cultural, and political studies students. *The Oxford Handbook of Political Communication* Kate Kenski, Kathleen Hall Jamieson, 2017-06-23. Since its development shaped by the turmoil of the World Wars and suspicion of new technologies such as film and radio, political communication has become a hybrid field largely devoted to connecting the dots among political rhetoric, politicians, and leaders, voters, opinions, and media exposure to better understand how any one aspect can affect the others. In *The Oxford Handbook of Political Communication*, Kate Kenski and Kathleen Hall Jamieson bring together leading scholars, including founders of the field of political communication, Elihu Katz, Jay Blumler, Doris Graber, Max McCombs, and Thomas Paterson, to review the major findings about subjects ranging from the effects of political advertising and debates and understandings and misunderstandings of agenda setting, framing, and cultivation to the changing contours of social media use in politics and the functions of the press in a democratic system. The essays in this volume reveal that political communication is a hybrid field with complex ancestry, permeable boundaries, and interests that overlap with those of related fields such as political sociology, public opinion, rhetoric, neuroscience, and the new hybrid on the quad media psychology. This comprehensive review of the political communication literature is an indispensable reference for scholars and students interested in the study of how, why, when, and with what effect humans make sense of symbolic exchanges about sharing and shared power. The sixty-two chapters in *The Oxford Handbook of Political Communication* contain an overview of past scholarship while providing critical reflection of its relevance in a changing media landscape and offering agendas for future research and innovation.

Political Power in America Anthony R. DiMaggio, 2019-12-01. Analyzing major political institutions such as Congress, the courts, the presidency, and the media, this book chronicles how the interests of affluent Americans, particularly business, professional, and corporate interests, dominate over those of average citizens. Anthony R. DiMaggio examines American political behavior as it relates to lobbying, citizen activism, media consumption, and voting to demonstrate how the public is

often misinformed and manipulated regarding major political and economic matters. However, record public distrust of the government and the increasing popularity of mass protests suggest that most Americans are deeply unhappy with the political status quo and many are willing to fight for change. *Political Power in America* details this interplay between a political system dominated by the affluent few and the rise of mass political distrust and protest. It offers information and tools needed to better understand the democratic deficit in American politics while providing opportunities for discussing what we might do to address the mounting crisis of declining democracy. **Political Marketing** Jennifer

Lees-Marshment, 2009-09-10 *Political Marketing* is the first comprehensive textbook to focus on political marketing and introduces students to how candidates, parties, elected officials and governments around the world utilise marketing concepts and tools to win elections and remain in office. It analyses the implications of political marketing for democracy: are we happy to be citizen consumers? Drawing on the latest theoretical work and providing the broadest collation of international political marketing research available, this text examines a wide range of political marketing topics including the rise of the political consumer market, intelligence and segmentation, opposition research, e-marketing, direct mail, market orientation and strategy, internal marketing, product re-development, branding, local political marketing, marketing in government, delivery and global knowledge transfer. Features over 40 case studies written by international specialists in over 20 countries and practitioner perspectives from those currently engaged in political marketing. Illustrates theories with clear examples integrated with topical discussion points and provides essay and applied assessment suggestions in each chapter. Presented in clear and engaging style, this textbook offers sophisticated understanding of this exciting new area. Written by a leading expert in the field, it is essential reading for all students of political marketing, parties and elections and comparative politics. Routledge

Handbook of Political Advertising Christina Holtz-Bacha, Marion R. Just, 2017-02-24 This Handbook provides the most comprehensive overview of the role of electoral advertising on television and new forms of advertising in countries from all parts of the world currently available. Thematic chapters address advertising effects, negative ads, the perspective of practitioners and gender role. Country chapters summarize research on issues including political and electoral systems, history of ads, the content of ads, reception and effects of ads, regulation of political advertising on television and the Internet, financing political advertising and prospects for the future. The Handbook confirms that candidates spend the major part of their campaign budget on television advertising. The US enjoys a special situation with almost no restrictions on electoral advertising, whereas other countries have regulation for the time, amount and sometimes even the content of electoral advertising or they do not allow television advertising at all. The role that television advertising plays in elections is dependent on the political, the electoral and the media context and can generally be regarded as a reflection of the political culture of a country. The Internet is relatively unregulated and is the channel of the future for political advertising in many countries. Critical Political Economy of the Media Jonathan Hardy, 2014-06-20 How the media are organised and funded is

central to understanding their role in society Critical Political Economy of the Media provides a clear comprehensive and insightful introduction to the political economic analysis of contemporary media Jonathan Hardy undertakes a critical survey of political economy scholarship encompassing worldwide literature issues and debates and relationships with other academic approaches He assesses different ways of making sense of media convergence and digitalisation media power and influence and transformations across communication markets Many of the problems of the media that prompted critical political economy research remain salient he argues but the approach must continue to adapt to new conditions and challenges Hardy advances the case for a revitalised critical media studies for the 21st century Topics covered include media ownership and financing news and entertainment convergence and the Internet media globalisation advertising and media alternative media media policy and regulation Introducing key concepts and research this book explains how political economy can assist students researchers and citizens to investigate and address vital questions about the media today
