*Chinese Politics in the Hu Jintao Era: New Leaders, New Challenges* Willy Lam, 2016-07-01 Drawing on hundreds of interviews with top Chinese officials, parliamentarians, scholars, and businessmen, Willy Lam, a renowned journalist and writer on Chinese affairs, presents a first-hand, multi-dimensional account of twenty-first century China and the impact of fourth-generation leaders, including President Hu Jintao and Premier Wen Jiabao. Lam goes behind the glitzy facade of nouveau riche Beijing and Shanghai to examine how the Hu leadership has tried to extend the Communist Party's mandate of heaven by tackling an array of daunting problems: the weakening legitimacy of the Party's leadership, restless peasants, angry workers, political stagnation, over the lack of reform, foreign relations difficulties, unreliable energy supplies, resurgent nationalism, and the increasingly dubious Chinese model of development. The author assesses possible contributions that the new classes of private businessmen, professionals, and intellectuals, as well as new ideas such as nationalism, globalization, and federalism, will make to economic prosperity and political liberalization. The book also includes a chapter on foreign policy, which contains an insightful account of Beijing's evolving and sometimes difficult relations with the United States, Europe, Japan, and other major countries, as well as the role of the People's Liberation Army.

*The Media and Political Change in Southeast Asia* Jonathan Woodier, 2009-01-01 The book is in a comprehensive, readable format; the book is logically organized, rich in data and statistics regarding the issues that it covers, as well as accessibly written such that its points would not be lost on the average upper-level undergraduate student with some preparation in Asian studies and the social sciences. Jane M. Ferguson, *South East Asia Research*, a serious academic work that should be on the official reading list of every media studies course. Chris Roberts, *Presenter Sky News*. Jonathan Woodier has written an excellent book on the politics of media control in Southeast Asia. He shows how political elites in the region are using major events such as the 1997 Asian Financial Crisis and the 2001 September 11 terror attacks, as well as innovations in media tools such as public relations and the internet, to control information flow to their citizens. This book is a must-read for anyone interested in an explanation why Southeast Asian models of authoritarianism are surviving. A brilliant analysis, it combines media theory with a critical discussion of contemporary developments in Asia. James Gomez, *Keio University, Japan*. True to the old Chinese adage, 'kill a chicken to scare a monkey', the few who once challenged Southeast Asia's ruling elites disappeared, and the majority were silent. Crude but effective. Modern times, however, demand a more sophisticated approach. Ruling elites now strip cultures naked and micro-manage people's minds. Their preferred tools of penetration and manipulation are a compliant media and a money-hungry PR

industry Jonathan Woodier's insights will ensure that you will never read a newspaper or watch TV news in quite the same way again Trevor Watson Professional Public Relations Pty Ltd Australia This is an engaging and informative analysis of the media landscape in South East Asia It uncovers the pervasive impact of the global media on the political process and raises important academic and policy issues in the process This book is timely and will be a must read for policymakers academics and students across communications media studies politics and democratization as well as for everyone with an interest in current day developments in South East Asia Joep Cornelissen Leeds University Business School UK Jonathan Woodier's latest work considers what impact the media has upon the democratization process in Southeast Asia Has the media had a liberalizing effect or become subject to elite control in Southeast Asia and if so why What role does the global media play in this process particularly given its conglomerization and commoditization By examining the communications media and its relationship to political change in Southeast Asia this fascinating study will endeavour to provide both a regional comparative analysis and a more balanced interpretation of the mass communication media in the wake of September 11 2001 The book also investigates the durability of authoritarian regimes and the enduring capacity of the media controlled state alongside the growing sophistication of political communications particularly the use of PR consultants The author provides an insider's view with unique insights into the practice of political communication and its development throughout the strategically important region of Southeast Asia with its large Moslem states as well as much further afield to countries such as China and post industrial Europe As such the book will be warmly welcomed by academics of politics international relations media communications and PR It will also appeal to researchers interested in political change the rise of the global media giants and the influence of authoritarian states such as China **Public Administration Singapore-Style** Jon S. T.

Quah, 2010-04-21 Singapore was ranked first for the competence of its public officials from 1999 to 2002 by The Global Competitiveness Report This book intends to provide a detailed study of public administration Singapore style Routledge Handbook of Internet Politics Andrew Chadwick, Philip N. **Jihad in Paradise: Islam and Politics in Southeast Asia** Mike Millard, 2015-01-28 Written in an accessible journalistic style Jihad in Paradise focuses on Southeast Asia's struggle to deal with Islamic extremists and terrorism at the hands of Jemah Islamiyah al Qaeda's Southeast Asian arm Although the book gives particular attention to Singapore's attempts to deal with these issues the story extends into Malaysia Indonesia and the Philippines All of these countries have significant Muslim populations and recent violent events have affected the business environment tourism and the region's tradition of religious tolerance The author draws on personal interviews with experts in the field as well as key political and religious figures in Singapore Malaysia and Indonesia including Prime Minister Lee Kuan Yew Minister for Muslim Affairs Jaacoub Ibrahim and expelled Muslim dissident Zulfikar Mohamad Sharif Millard examines the Bali bombing Malaysia's conservative Islamic party PAS the Malaysian province of Kelantan which is a Muslim political hotbed Abu Saayaf of the Philippines and Fateha.com and the use of the Internet He also provides a glimpse of how Singapore the region's most developed nation has engineered its society in order to impose a degree of racial and religious tolerance *A Democratic Architecture for the Welfare State* Victor A. Pestoff, 2008-10-27 The welfare state faces various challenges in Scandinavia and many European countries today including a poor work environment in the public sector a growing democracy deficit and demographic obstacles In this new book Victor A. Pestoff argues that the state cannot resolve these challenges alone or together with the market rather it requires the active participation of citizens and the third sector in order to overcome them and become more sustainable and flexible in the future This book addresses the need for a more democratic architecture for the European welfare state opening new perspectives for developing alternative channels for direct citizen participation at the sub-municipal level of governance Pestoff finds that neither democratic theory nor welfare state theory devotes adequate attention to the contemporary role of the third sector as a service provider or to greater direct citizen participation in the provision of welfare services He shifts the focus of analysis from the input to the output side of the political system and explores new ways to promote a greater role for the third sector and more citizen participation in the provision of universal tax-financed welfare

services Part 1 discusses social economy actors in Sweden and Scandinavia both from a historical and future perspective Part 2 explores major issues for the third sector and welfare state including the allocation of an organization's surplus or profit work environment and service quality in public services and the third sector consumer perspectives on the social economy democratizing medical and health care in Japan and co production of childcare services in eight European countries Part 3 revisits the third sector and state in democratic theory and welfare theory as well as recognizing major hurdles to the third sector and democratization of the welfare state Part 4 concludes by summarizing the politics of participation in the welfare state

Governance, Politics and the Environment Maria Francesch-Huidobro, 2008-07-09 In the past two decades research on environmental issues in East and Southeast Asian countries has mainly focused on existing institutional mechanisms of environmental management the establishment of new environmental management structures the introduction of incentives to improve natural capital and foster environmental protection and the culture of environmental or green groups Virtually no rigorous research has been directed into the nature and significance of the existing relationship between government and civil society in individual country studies with specific reference to the environmental policy sector or into how this relationship may be evolving This book explores this connection in Singapore and what causes it to evolve through three case narratives Its rationale is to address this gap in the literature from a governance theory perspective that focuses on state adaptation to the external environment and new forms of coordination and collaboration between government and civil society to tackle new societal problems The application of the governance theory approach to specific case studies is itself a topic that deserves much greater study than what it has so far received
