management of power and America's role in global politics Once again there are the issues of change and continuity In terms of change the cold war set in train a blend of integrative and disintegrative forces and trends that are adding to the complex tensions of the current transition The integrative force that increasingly linked global economies in the cold war for instance also holds out the spectral potential of global depression or at the very least nations more susceptible to disintegrative actions as the Iraqi invasion of Kuwait demonstrated In a similar manner the advances in communications and transportation that have spread the results of medical and scientific discoveries around the world are countered by the malign transnational results of nuclear technology the drug trade terrorism AIDS and global warming [Twilight's Ashes](#) Auler Ivis,2010-10-07

Kunz,1994 Although the foreign policy decisions made by Kennedy and Johnson determined the final form of postwar diplomacy and laid the foundation for the tumultuous worldwide political changes of the last five years until now no book has examined American diplomacy during 1960s as a whole During his presidency Kennedy concentrated on foreign policy The president and his staff feared that communism had taken the offensive internationally and that the U S was in danger of losing the confrontation particularly in the developing world While Johnson attempted to focus on domestic issues foreign issues nevertheless loomed large Consequently the contributors to this volume argue all aspects of American foreign policy during that decade must be viewed through the prism of the fight against communism The chapters which were commissioned for this book by the editor examine the major subjects and themes of this period in a way that provides new insight to students and general readers alike Each chapter also contains brief notes and a bibliographic sketch **The**

Caron,Crook,2021-10-01 Examining the Tribunal s structure operations and evolution in search of the underlying patterns that characterize such international institutions this valuable book records the diverse experiences and judgments of a group of outstanding lawyers each of whom has played a significant role at some stage of the Tribunal s proceedings The essays are grouped in three distinct stages in the Tribunal s history The first group deals with the creation of the Tribunal building upon the bare boned framework laid down by the Claims Settlement Declaration The second deals with the Tribunal at work processing and deciding cases during the period when it gave greatest emphasis to resolving large commercial claims The third deals with the present situation where the Tribunal has taken a docket first dominated by claims of U S Iranian dual nationals against Iran and then by a small group of large and difficult claims between the two governments Published under the auspices of the American Society of International Law Published under the Transnational Publishers imprint **Hunters**
