A Long Way from Home Tom Brokaw, 2003-09-30 Reflections on America and the American experience as he has lived and observed it by the bestselling author of *The Greatest Generation* whose iconic career in journalism has spanned more than fifty years From his parents life in the Thirties on to his boyhood along the Missouri River and on the prairies of South Dakota in the Forties into his early journalism career in the Fifties and the tumultuous Sixties up to the present this personal story is a reflection on America in our time Tom Brokaw writes about growing up and coming of age in the heartland and of the family the people the culture and the values that shaped him then and still do today His father Red Brokaw a genius with machines followed the instincts of Tom s mother Jean and took the risk of moving his small family from an Army base to Pickstown South Dakota where Red got a job as a heavy equipment operator in the Army Corps of Engineers project building the Ft Randall dam along the Missouri River Tom Brokaw describes how this move became the pivotal decision in their lives as the Brokaw family along with others after World War II began to live out the American Dream community relative prosperity middle class pleasures and good educations for their children Along the river and in the surrounding hills I had a Tom Sawyer boyhood

Brokaw writes and as he describes his own pilgrimage as it unfolded from childhood to love marriage the early days in broadcast journalism and beyond he also reflects on what brought him and so many Americans of his generation to lead lives a long way from home yet forever affected by it Praise for A Long Way from Home A love letter to the people and places that enriched a Tom Sawyer boyhood Brokaw has a knack for delivering quirky observations on small town life Bottom line Tom's terrific People Breezy and straightforward much like the assertive TV newsman himself Los Angeles Times Brokaw writes with disarming honesty The Atlanta Journal Constitution Brokaw evokes a sense of community a pride of citizenship and a confidence in American ideals that will impress his readers Richmond Times Dispatch Nuclear Country Catherine McNicol Stock,2020-09-18 Militarization and nuclearization were the historical developments most essential to the creation of the rural New Right Both North Dakota and South Dakota have long been among the most reliably Republican states in the nation in the past century voters have only chosen two Democrats Franklin Roosevelt and Lyndon B Johnson and in 2016 both states preferred Donald Trump by over thirty points Yet in the decades before World War II the people of the Northern Plains were not universally politically conservative Instead many Dakotans including Republicans supported experiments in agrarian democracy that incorporated ideas from populism and progressivism to socialism and communism and fought against bigness in all its forms including bonanza farms out of state railroads corporations banks corrupt political parties and distant federal bureaucracies but also surprisingly the culture of militarism and the expansion of American military power abroad In Nuclear Country Catherine McNicol Stock explores the question of why between 1968 and 1992 most voters in the Dakotas abandoned their distinctive ideological heritage and came to embrace the conservatism of the New Right Stock focuses on how this transformation coincided with the coming of the military and national security states to the countryside via the placement of military bases and nuclear missile silos on the Northern Plains This militarization influenced regional political culture by reinforcing or re contextualizing long standing local ideas and practices particularly when the people of the plains found that they shared culturally conservative values with the military After adopting the first two planks of the New Right national defense and conservative social ideas Dakotans endorsed the third plank of New Right ideology fiscal conservatism Ultimately Stock contends that militarization and nuclearization were the historical developments most essential to the creation of the rural New Right throughout the United States and that their impact can best be seen in this often overlooked region's history **American Culture in the 1950s** Martin Halliwell,2007-03-13 This book provides a stimulating account of the dominant cultural forms of 1950s America fiction and poetry theatre and performance film and television music and radio and the visual arts Through detailed commentary and focused case studies of influential texts and events from Invisible Man to West Side Story from Disneyland to the Seattle World's Fair from Rear Window to The Americans the book examines the way in which modernism and the cold war offer two frames of reference for understanding the trajectory of postwar culture The two core aims of this volume are to chart the changing complexion of American culture

in the years following World War II and to provide readers with a critical investigation of the 1950s The book provides an intellectual context for approaching 1950s American culture and considers the historical impact of the decade on recent social and cultural developments

Meet Joe Copper Matthew L. Basso,2022-12-22 I realize that I am a soldier of production whose duties are as important in this war as those of the man behind the gun So began the pledge that many home front men took at the outset of World War II when they went to work in the factories fields and mines while their compatriots fought in the battlefields of Europe and on the bloody beaches of the Pacific The male experience of working and living in wartime America is rarely examined but the story of men like these provides a crucial counter narrative to the national story of Rosie the Riveter and GI Joe that dominates scholarly and popular discussions of World War II In Meet Joe Copper Matthew L Basso describes the formation of a powerful white working class masculine ideology in the decades prior to the war and shows how it thrived on the job in the community and through union politics Basso recalls for us the practices and beliefs of the first and second generation immigrant copper workers of Montana while advancing the historical conversation on gender class and the formation of a white ethnic racial identity Meet Joe Copper provides a context for our ideas of postwar masculinity and whiteness and finally returns the men of the home front to our reckoning of the Greatest Generation and the New Deal era

Small-Town Dreams John E. Miller,2014-03-28 We live these days in a virtual nation of cities and celebrities dreaming a small town America rendered ever stranger by purveyors of nostalgia and dark visionaries from Sherwood Anderson to David Lynch And yet it is the small town that world of local character and neighborhood lore that dreamed the America we know today and the small town boy like those whose

stories this book tells who made it real In these life stories beginning in 1890 with frontier historian Frederick Jackson Turner and moving up to the present with global shopkeeper Sam Walton a history of middle America unfolds as entrepreneurs and teachers like Henry Ford George Washington Carver and Walt Disney artists and entertainers like Thomas Hart Benton Grant Wood Carl Sandburg and Johnny Carson political figures like William McKinley William Jennings Bryan and Ronald Reagan and athletes like Bob Feller and John Wooden by turns engender and illustrate the extraordinary cultural shifts that have transformed the Midwest and through the Midwest the nation and the world Many of these men are familiar icons even Ford and Reagan certainly Ernie Pyle Sinclair Lewis James Dean and Lawrence Welk and others like artists Oscar Micheaux and John Steuart Curry economist Alvin Hansen and composer Meredith Willson less so But in their stories as John E Miller tells them all appear in a new light unique in their backgrounds and accomplishments united only in the way their lives reveal the persisting shaping power of place and particularly the Midwest on the cultural imagination and national consciousness In a thoroughly engaging style Miller introduces us to the small town Midwestern boys who became these all American characters privileging us with insights that pierce the public images of politicians and businessmen thinkers and entertainers alike From the smell of the farm the sounds and silences of hamlets and county seats the schoolyard athletics and classroom instruction and theatrical performance we follow these men to their moments of inspiration innovation and fame observing the workings of the small town past in their very different relationships with the larger world Their stories reveal in an intimate way how profoundly childhood experiences shape personal identity and how deeply place figures in the mapping of thought belief ambition and life s course
