youthful and vital into our final years Finding health then is not about seven ways to detox or the five best vitamins The body is far more complex than that and in an approach aimed specifically at the layperson Younger for Longer traces the exciting path of how the body works to help the reader create the best person they can be for the rest of their life **Long-Life Surfaces for Busy Roads** International Transport Forum,2008-04-15 Explores the feasibility of using epoxy asphalt and high performance cementitious materials which are more expensive but last longer and require less maintenance than conventional materials for high traffic roads *Economic Evaluation of Long-Life Pavements Phase 1* European Conference of Ministers of Transport,2005-03-18 With maintenance costs accounting for a large proportion of road budgets this report assesses the economic and technical feasibility of innovative wearing courses for long life road pavements While having higher initial costs such wearing courses **A Brief Report on the Status of Long-life Cardiac Pacemaker Development** National Heart and Lung Institute,1973 **Early Vascular Aging (EVA)** Michael Hecht Olsen,Peter M Nilsson,Stephane Laurent,2015-08-06 Early Vascular Aging EVA New Directions in Cardiovascular Protection brings together the last decade of research related to the characterization of EVA as well as the predictive power of pulse wave velocity PWV The book presents a novel approach to the problem of cardiovascular disease showing it in relation to great vessels disease and revealing a comprehensive approach to the problem of increased rigidity of the great vessels its causes and further consequences Information provided is accompanied by online access to a supplemental website with video clips of anatomic specimens cardiac imaging and surgical procedures Introduces the latest information on early vascular aging EVA complete with summaries of recent evidence and guidelines for relevant risk factor control Ideal reference for the study of vascular aging pulse wave velocity arteriosclerosis EVA arterial stiffness vascular PWV biomarkers and cardiovascular disease Contains all the relevant information available from different fields of knowledge from basic biology to epidemiology in regard to EVA Provides evidence that leads to a new target for interventions early vascular aging EVA in subjects with early onset increased arterial stiffness Includes online access to a supplemental website with video clips of anatomic specimens cardiac imaging and surgical procedures **Divine Healing** Festus Akininifesi,2005-06 This book presents compelling insights and practical blueprint and balanced perspectives to the less travelled road faith based health care Every believer ought to read this book Your time has come **The Oxford Handbook of Philosophy of Death** Ben Bradley,Fred Feldman,Jens Johansson,2015 This Handbook consists of 21 new essays on the nature and value of death the relevance of the metaphysics of time and personal identity for questions about death the desirability of immortality and the wrongness of killing *Planning For Long-Term Care For Dummies* Carol Levine,2014-02-19 Expert advice on planning for your own or a relative s future care needs As we live longer and healthier lives planning for the long term has never been more important Planning gives you more control but it s not easy to find accurate information and answers to your questions That s where AARP s Planning For Long Term Care For Dummies comes in This comprehensive guide gives you questions to ask yourself

Prioritarianism Richard J. Arneson, 2022-06-02 Prioritarianism holds that improvements in someone's life gains in well being are morally more valuable the worse off the person would otherwise be The doctrine is impartial holding that a gain in one person's life counts exactly the same as an identical gain in the life of anyone equally well off If we have some duty of beneficence to make the world better prioritarianism specifies the content of the duty Unlike the utilitarian the prioritarian holds that we should

not only seek to increase human well being but also distribute it fairly across persons by tilting in favor of the worse off A variant version adds that we should also give priority to the morally deserving to saints over scoundrels The view is a standard for right choice of individual actions and public policies offering a distinctive alternative to utilitarianism maximize total well being sufficiency make everyone s condition good enough and egalitarianism make everyone s condition the same
