Talley, 2023-02-14 The daughter of a D Day paratrooper and her husband a PTSD therapist discover a family legacy of love trauma and resilience when they set out to explore a vast trove of WWII correspondence official military documents personal effects and unique militaria found in closets and basements after her father's death Young Sue Gurwell had always known that her father had been a paratrooper An old camo parachute from Holland served as her backyard tent and high on a shelf she mustn't touch eight red devils in parachutes grinned from the front of mysterious drinking glasses Dad had sent Mom during the war And then there was the special poem in his roll top desk she sometimes snuck a peek at written by a member of Dad's regiment This poem was a premonition of the sergeant's death Yes her dad told her He was right he died on D Day But it's not until 2016 after her parents had both passed away that Susan Gurwell Talley and her husband Jack L Talley begin to understand the true extent and significance of the wartime artifacts that had been staples of Sue's childhood The Talley's discovered that Sue's father Lt George L Gurwell Executive Officer HqHq 508th PIR had silently squirreled away thousands of wartime documents in the

family home Like most combat veterans George was never one to talk about the war but the historic collection of official records correspondence photographs maps memorabilia cultural artifacts and unique ephemera constitute quite possibly the most extensive various and complete documentation of the 508th held privately today This precious resource could not have passed into better hands than those of Jack and Sue Talley Jack a PhD psychologist specializing in PTSD was the first to understand that George had PTSD symptoms that still lingered from the war years when he and George were introduced on June 6 2001 That evening the 57th anniversary of D Day George first opened up about the war and preceded to talk late into the night In that conversation lies the genesis of this book Winston Churchill and the Art of Leadership William Nester, 2020-09-30 A unique biography that explores how Churchill viewed pursued and used power by the award winning author of Napoleon and the Art of Diplomacy Many indeed are the biographies of Winston Churchill one of the most influential figures of the twentieth century But what was that influence and how did he use it in the furtherance of his and his country's ambitions For the first time Professor William Nestor has delved into the life and actions of Churchill to examine just how skillfully he manipulated events to place him in positions of power His thirst for power stirred political controversy wherever he intruded Those who had to deal directly with him either loved or hated him His enemies condemned him for being an egoist publicity hound double dealer and Machiavellian accusations that his friends and even he himself could not deny He could only serve Britain as a statesman and a reformer because he was a wily politician who won sixteen of twenty one elections that he contested between 1899 and 1955 The House of Commons was Churchill's political temple where he exalted in the speeches and harangues on the floor and the backroom horse trading and camaraderie Most of his life he was a Cassandra warning against the threats of Communism Nazism and nuclear Armageddon With his ability to think beyond mental boxes and connect far flung dots he clearly foretold events to which virtually everyone else was oblivious Yet he was certainly not always right and was at times spectacularly wrong This is the first book that explores how Churchill understood and asserted the art of power mostly through hundreds of his own insights expressed through his speeches and writings
