in which the colonies declared independence from England The Civil War which established that the states were indeed one nation not just a collection of un united states and thirdly the New Deal which rescued the U S from economic depression prepared it to be the decisive power in winning World War II and laid the foundation for the modern U S and to a great extent the modern world The threat of a third party effort by Ross Perot throwing the election to the House of Representative persuades him to withdraw and support the better financed and organized Bill Clinton for the November election This history is delivered in a dramatic fictional saga written in a newspaper style which makes it easy to digest for the average reader Its characters are well defined and its narrative plausible in the final analysis It is anti war pro democracy and advocates political campaigns without a lot of consultants and image makers
