Looking At Great Britain Looking At Other Countries:

The UK's energy supply Great Britain: Parliament: House of Commons: Energy and Climate Change Committee,2011-10-25 The Government must start thinking strategically about energy security to protect the UK's energy supply against short term shocks and rising global energy prices according to a report by MPs on the Energy and Climate Change Committee Gas storage capacity needs to be increased in the UK to minimise the potential damage from supply interruptions or price spikes the report argues It reveals that the UK's current storage capacity amounts to only 14 days worth of gas supply a dangerously low level compared with France which has 87 days worth of gas storage Germany 69 and Italy 59 19 gigawatts GW of ageing electricity plant will close by 2018 and the UK will become increasingly reliant on energy imports as North Sea oil and gas reserves decline The report concludes that new electricity generation currently being built or planned will fill this gap But it urges the Government to ensure security of supply by delivering on its energy efficiency targets rolling out smart meters that can balance demand and maintaining a diverse energy mix

The International Social Survey Programme 1984-2009 Max Haller,Roger Jowell,Tom W Smith,2009-09-11 The social sciences rely more on the comparative method than on experimental data mainly because the latter is difficult to acquire amongst human populations The International Social Survey Programme has played a pioneering role in creating and sustaining methodologically sophisticated mass attitude surveys across the globe Starting in 1984 with five nations it now encompasses forty five nations spread over five continents each administering an identical annual survey to a random sample of their population Analyses of the data or descriptions of the methodology already appear in over 3 000 publications This book contains new contributions from three dozen eminent scholars who analyse and compare the perceptions and attitudes of citizens across all five continents nations and over time Subjects range from inequality and the role of the state ethnic national and global identities the changing relevance of religion beliefs and practices gender roles family values and work orientations household and society Some chapters focus on methodological issues others focus on substantive findings This book sets new standards for cross cultural research

Europe moves East Great Britain: Parliament: House of Commons: Trade and Industry Committee,2007-10-18 In May 2004 the fifth enlargement of the European Union saw the accession of eight Central and Eastern European states the A8 countries of the Czech Republic Estonia Hungary Latvia Lithuania Poland Slovakia and Slovenia with Cyprus and Malta joining at the same

time This was the largest expansion in the EU's history adding ten member states and 75 million people In January 2007 the accession of Bulgaria and Romania the A2 countries added a further 30 million people The Committee's report examines the impact on UK business of the accession of the A8 and A2 countries following on from two previous inquiries Industrial and Trade Relations with Central Europe HCP 893 session 1997-98 ISBN 9780105550785 and Industrial and Trade Relations with the Baltic States HCP 835 session 1999-2000 ISBN 9780102524000 The Committee's report concludes that the EU accession of these countries has been beneficial to the UK economy and business chiefly through the plugging of gaps in the UK labour market as well as through increased opportunities for exports and investment However these benefits could be greater if businesses were better informed about the resulting opportunities and the Government should consider what it can do to reduce the fear factor of investing outside UK businesses comfort zones particularly in the new member states which are accessible to small and medium sized companies The Committee also highlights the importance of improving the skills base of the domestic workforce if UK business wishes to remain globally competitive The Break-Up of Britain Tom Nairn, 2021-06-22 The classic text with a new introduction by Anthony Barnett In this classic text first published in 1977 Tom Nairn memorably depicts the slow foundering of the United Kingdom on the rocks of constitutional anachronism its fall from empire and the gathering force of civic nationalism Rich in comparisons between the nationalisms of the British Isles and those of the wider world The Break Up of Britain concludes by reflecting on the Janus faced nature of national identity Postscripts from the Thatcher and New Labour years trace the political strategies whose upshot accelerated the demise of a British order they were intended to serve As a second Scottish independence referendum beckons a new introduction by openDemocracy's Anthony Barnett underlines the book's enduring relevance *Parliamentary Debates* New Zealand. Parliament, 1884 **Globalisation** Great Britain: Parliament: House of Commons: Treasury Committee, 2006-07-13 The Committee's report examines the future role of the International Monetary Fund including issues of governance and finance its surveillance and analysis functions and the UK Government's report on its dealings with the IMF Findings include support for the idea of a focused Fund with a greater role in crisis prevention than crisis resolution the need for governance reforms to ensure that the IMF is more representative of its stakeholders and accountable to them including a more open selection process for the next Managing Director and greater representation for low income countries and emerging market economies via a reform of the quota allocations and the need for a more transparent decision making process especially around the workings of the Executive Board to ensure the Fund remains accountable to its stakeholders The Committee supports the Exogenous Shocks Facility to provide assistance to countries suffering from crisis events such as natural disasters In promoting IMF financial reforms the UK Government should seek to ensure that the IMF maintains both its independence in surveillance and its ability to support low income countries **Cobbett's Parliamentary Debates** Great Britain.
