The View from Vermont Blake A. Harrison, 2006 With its small native population proximity to major metropolitan areas and bucolic rural beauty Vermont was fated to be a tourist mecca forever associated in the popular imagination with maple syrup fall colors and ski bunnies Tourism for good and ill has always been the decisive factor in the conception of rural Vermont What is surprising however is the degree to which we have accepted this notion of rural Vermont as a somehow timeless entity Blake Harrison's rich and rewarding study instead presents the construction of Vermont's landscape as a complex and ever changing dynamic informed by progressive modernist and reformist thought competing views of economic expansion rural and urban prejudice and social exclusion and more recently by land use planning and environmentalism This broad based study includes the early history of Vermont tourism the concomitant abandonment of farms with the rise of the summer home the creation of an unspoiled Vermont from billboards at least the impact of Vermont's ski industry on tradition bound tourism and later efforts to legislate growth and protect an increasingly static ideal of a rural Vermont While grounded within a specific Vermont view Harrison has much to contribute to broader studies of rural places tourism and landscapes in American culture His analysis of how physical landscapes affect and are affected by our imagined landscape and the insight afforded by his juxtaposition of leisure and labor will deeply inform our understanding of rural tourist landscapes for years to come This is a truly interdisciplinary work that will satisfy and challenge historians and geographers alike

New Deal Art in Arizona Betsy Fahlman, 2016-05-26 Arizona's art history is emblematic of the story of the modern West and few periods in that history were more significant than the era of the New Deal From Dorothea Lange and Ansel Adams to painters and muralists including Native American Gerald Nailor the artists working in Arizona under New Deal programs were a notable group whose art served a distinctly public purpose Their

photography paintings and sculptures remain significant exemplars of federal art patronage and offer telling lessons positioned at the intersection of community history and culture Art is a powerful instrument of historical record and cultural construction and many of the issues captured by the Farm Security Administration photographers remain significant issues today migratory labor the economic volatility of the mining industry tourism and water usage Art tells important stories too including the work of Japanese American photographer Toyo Miyatake in Arizona s internment camps murals by Native American artist Gerald Nailor for the Navajo Nation Council Chamber in Window Rock and African American themes at Fort Huachuca Illustrated with 100 black andwhite photographs and covering a wide range of both media and themes this fascinating and accessible volume reclaims a richly textured story of Arizona history with potent lessons for today
