**Spanish Poetry of the Twentieth Century** Andrew Debicki, 2021-12-14 Twentieth century Spanish poetry has received comparatively little attention from critics writing in English Andrew Debicki now presents the first English language history published in the United States to examine the sweep of modern Spanish verse More important he is the first to situate Spanish poetry in the context of European modernity to trace its trajectory from the symbolists to the postmodernists Avoiding the rigid generational schemes and catalogs of names found in traditional Hispanic literary histories Debicki offers detailed discussions of salient books and texts to construct an original and compelling view of his subject He demonstrates that contemporary Spanish verse is rooted in the modern tradition and poetics that see the text as a unique embodiment of complex experiences He then traces the evolution of that tradition in the early decades of the century and its gradual disintegration from the 1950s to the present as Spanish poetry came to reflect features of the postmodern especially the poetics of text as process rather than as product By centering his study on major periods and examining within each the work of poets of different ages Debicki develops novel perspectives The late 1960s and early 1970s for example were not merely the setting for a new aestheticist generation but an era of exceptional creativity in which both established and new writers engendered a profound intertextual and often self referential lyricism This book will be essential reading for specialists in modern Spanish letters for advanced students and for readers inter ested in comparative literature

**The Feeling of History** Charles Hirschkind, 2020-12-25 In today s world the lines between Europe and the Middle East between Christian Europeans and Muslim immigrants in their midst seem to be hardening Alarmist editorials compare the arrival of Muslim refugees with the Muslim conquest of 711 warning that Europe will be called on to defend its borders Violence and paranoia are alive and well in Fortress Europe Against this xenophobic tendency The Feeling of History examines the idea of Andalucismo a modern tradition founded on the principle that contemporary Andalusia is connected in vitally important ways with medieval Islamic Iberia Charles Hirschkind explores the works and lives of writers thinkers poets artists and activists and he shows how taken together they constitute an Andalusian sensorium Hirschkind also carefully traces the various itineraries of Andalucismo from colonial and anticolonial

efforts to contemporary movements supporting immigrant rights The Feeling of History offers a nuanced view into the way people experience their own past while also bearing witness to a philosophy of engaging the Middle East that experiments with alternative futures

*The Cultural Politics of Twentieth-Century Spanish Theater* Carey Kasten, 2012-02-16 The Cultural Politics of Twentieth Century Spanish Theater argues that twentieth century artists used the Golden Age Eucharist plays called autos sacramentales to reassess the way politics and the arts interact in the Spanish nation's past and present and to posit new ideas for future relations between the state and the national culture industry The book traces the phenomenon of the twentieth century auto to show how theater practitioners revisited this national genre to manifest different oftentimes opposing ideological and aesthetic agendas It follows the auto from the avant garde stagings and rewritings of the form in the early twentieth century to the Francoist productions by the Teatro Nacional

de la Falange to postmodern parodies of the form in the era following Franco's death to demonstrate how twentieth century Spanish dramatists use the auto in their reassessment of the nation's political and artistic past and as a way of envisioning its future

Voices from the Fuente Viva Amy Naus Millay, 2005 Many twentieth century Spanish American writers sought to give voice to their country's native inhabitants Drawing upon anthropology and literary theory this book explores the representation of orality by major Spanish American anthropologist writers Lydia Cabrera, José María Arguedas and Miguel Barnet These writers played a quintessential role of the Spanish American writer from colonial times to the present they inscribed the mythical world of a vanishing Other by creating a poetic effect of orality in their ethnographies and narratives This book argues that supposed differences between oral and written culture are rhetorical devices in the elaboration of literature specifically modern fiction in Spanish America Fictionalization of the oral requires adherence to the theory of a great divide between orality and literacy Because the texts considered here are predicated on the ideality of speech a contradiction underlies their shared desire to salvage oral tradition This book explores how anthropologist writers have addressed this compelling dilemma in their anthropological and narrative writings at Tufts University
