Clancy, 2003 Defining an artistic era or movement is often a difficult task as one tries to group individualistic expressions and artwork under one broad brush Such is the case with impressionism which culls together the art of a multitude of painters in the mid 19th century including Monet C zanne Renoir Degas and van Gogh Basically impressionism involved the shedding of traditional painting methods The subjects of art were taken from everyday life as opposed to the pages of mythology and history In addition each artist painted to express feelings of the moment instead of hewing to time honoured standards This description of impressionism obviously is quite broad and can apply to a wide array of styles Nonetheless it remains a very important school in the annals of art Any current or budding art aficionado should become familiar with the impressionist movement and its impact on the art world This book presents a sweeping study of this artistic period from its origins to its manifestations in the works of some of art history s most revered painters Following this overview is a substantial and selective bibliography featuring access through author title and subject indexes **An Outline Of 19th Century European Painting** Lorenz Eitner, 2021-11-28 This one volume edition contains both text and plates and includes corrections in the text and bibliography made since the books publication in 1987 There are concise monographic chapters on the important artists and movements of the period with material on each artists life and work characteristics of style and the relationship of the artistic movements to historical and intellectual currents of the time The author covers a wide range of material and his presentation is lucid and perceptive Neoclassicism Romanticism Realism Academics and Salon Painters and Impressionism are covered and the following artists are included David Gros Girodet Grard Gurin Prudhon Goya Fuseli Blake Runge Friedrich Turner Constable Igres Gricault Delacroix Corot Rousseau Daumier Millet Courbet Manet Degas Monet Renoir Sisley Pissarro and Czanne *Monet's Passion*, 1989 In this best selling book Elizabeth Murray discusses the development and maintenance of Claude Monet s Giverny estate as well as Monet s color theories design elements and use of light and shade Richly illustrated with Murray s lush photographs of the present day Giverny gardens

Monet's Passion also offers full color illustrations of the gardens drawn to scale and four Giverny based garden plans that can be executed anywhere

Impressionists and Politics Philip Nord, 2014-04-04 Impressionists and Politics is an accessible introduction to the current debates about Impressionism Was the artistic movement really radical and innovative Is the term Impressionism itself an adequate characterization of the movement of painters and critics that took the mid nineteenth century Paris art world by storm By providing an historical background and context the book places the Impressionists roots in wider social and economic transformations and explains its militancy both aesthetic and political Impressionists and Politics is a concise history of the movement from its youthful inception in the 1860s through to its final years of recognition and then crisis

Monet Jackie Wullschläger, 2024-09-24 A groundbreaking look at the life and art of one of the most influential modern painters of the late nineteenth century and founder of the Impressionist movement Wullschläger emerges with a strikingly different picture of the artist Passionate prickly edgy and unstable her Monet the unrecognizable Monet is a powerful new character in art The Sunday Times London Drawing on thousands of never before translated letters and unpublished sources this biography reveals dramatic new information about the life and work of one of the late nineteenth century's most important painters Despite being mocked at the beginning of his career and living hand to mouth Monet risked all to pursue his vision and his early work along the banks of the Seine in the 1860s and 70s would come to be revered as Impressionism In the following decades he emerged as its celebrated leader in one of the most exciting cultural moments in Paris before withdrawing to his house and garden to paint the late Water Lilies which were ignored during his lifetime and would later have a major influence on all twentieth century painters both figurative and abstract This is the first time we see the turbulent life of this volatile and voracious man who was as obsessed by his love affairs as he was by nature He changed his art decisively three times when the woman at the center of his life changed Wullschläger brings these unknown passionate and passionately committed women to the foreground Monet's closest friend was Prime Minister Georges Clemenceau strong intellectual currents connected him to writers from Zola to Proust as well as to his friends Manet Renoir and Pissarro Brilliant and absorbing this biography will forever change our understanding of Monet's life and work

Varieties of Realism Margaret A. Hagen, 1986-05-31 Varieties of Realism argues that it is not possible to represent the layout of objects and surfaces in space outside the dictates of formal visual geometry the geometry of natural perspective The book examines most of the world's coherent representational art styles both in terms of the geometry of their creation and in terms of their perceptual effects on the viewer A lucid exposition of modern geometrical principles and relations accessible to the nonmathematical reader is followed by an analysis of all known styles as variants of natural perspective as true varieties of realism Delineating the physical and mechanical constraints that determine the act of visual representation in painting and drawing the author traces the intimate relations among seemingly distant styles and considers the kind of perceptual information about the world each can carry Margaret Hagen is a perceptual psychologist with an ecological point of view Her

rigorous but readable presentation of visual theory and research offers provocative new insights into the connections among vision geometry and art

The Perception of Pictures Margaret A. Hagen, 2014-05-10 Durer's Devices Beyond the Projective Model of Pictures is a collection of papers that discusses the nature of picture making and perception One paper presents a perceptual theory of pictorial representation in which cultural and historical options in styles of depiction that appear to be different are actually closely related perceptually Another paper discusses pictorial functions and perceptual structures including pictorial representation perceptual theory flat canvass and the deep world One paper suggests that perception can be more a matter of information make up than pick up Light becomes somewhat informative and the eye correspondingly becomes less or more presumptive Another paper notes that human vision is transformed by our modes of representation that image formation can be essentially incomplete false or misleading primarily as regards dramatic performance and pictorial representation One paper makes three claims that 1 the blind have untapped depiction abilities 2 haptics involving the sense of touch have an intuitive sense of perspective and 3 depiction is perceptual based on graphic elements and pictorial configurations The collection is suitable for psychologists physiologists psychophysicists and researchers in human perception or phenomenology
