Proust's Lesbianism Elisabeth Ladenson, 1999 For decades Elisabeth Ladenson says critics have misread or ignored a crucial element in Marcel Proust's fiction his representation of lesbians Her challenging new book definitively establishes the centrality of lesbianism as sexual obsession and aesthetic model in Proust's vast novel *A la recherche du temps perdu* Traditional readings of the Recherche have dismissed Proust's Gomorrah his term for women who love other women as a veiled portrayal of the novelist's own homosexuality More recently queer positive rereadings have viewed the novel's treatment of female sexuality as ancillary to its accounts of Sodom and its meditations on time and memory Ladenson instead demonstrates the primacy of lesbianism to the novel showing that Proust's lesbians are the only characters to achieve a plenitude of reciprocated desire The example of Sodom by contrast is characterized by frustrated longing and self loathing She locates the work's paradigm of hermetic relations between women in the self sufficient bond between the narrator's mother and grandmother Ladenson traces Proust's depictions of male and female homosexuality from his early work onward and contextualizes his account of lesbianism in late nineteenth century sexology and early twentieth century thought A vital contribution to the fields of queer theory and of French literature and culture Ladenson's book marks a new stage in Proust studies and provides a fascinating chapter in the history of a literary masterpiece's reception

Tiresian Poetics Ed Madden, 2008 Blind seer articulate dead and mythic transsexual the figure of Tiresias has always represented a liminal identity and forms of knowledge associated with the crossing of epistemological and ontological boundaries In twentieth century literature the boundaries crossed and embodied by Tiresias are primarily sexual and the liminal and usually prophetic knowledge associated with Tiresias is based in sexual difference and sexual pleasure Indeed in literature of the twentieth century Tiresias has come to function as a cultural shorthand for

queer sexualities This book argues for the emergence of a Tiresian poetics at the end of the nineteenth century As Victorian and modernist writers reimagined Ovid's tale of sex change and sexual judgment they also created a poetics that grounded artistic or performative power in figures of sexual difference most often a feminized often homosexual male body which this study links to the developing discourses of homosexuality and sexual identity **BOOK JACKET** **Modernism and the**

Aesthetics of Violence Paul Sheehan, 2013-06-24 This book addresses the subject of violence as it features in celebrated modernist works from the early twentieth century It traces the modernist fascination with violence back to the middle decades of the nineteenth century when certain writers in France and England sought to celebrate dissident sexualities and stylized criminality **Autobiographical Writing Across the Disciplines** Diane P. Queering Christ Robert Goss, 2002 Many aspects of the work are guaranteed to be highly controversial within and outside of the LGBT community **BOOK JACKET** Political Manhood Kevin P. Murphy, 2010-08-06 In a 1907 lecture to Harvard undergraduates Theodore Roosevelt claimed that colleges should never turn out mollycoddles instead of vigorous men warning that the weakling and the coward are out of place in a strong and free community A paradigm of ineffectuality and weakness the mollycoddle was all inner life whereas his opposite the red blood was a man of action Kevin P. Murphy reveals how the popular ideals of American masculinity coalesced around these two distinct categories Because of its similarity to the emergent homosexual type the mollycoddle became a powerful rhetorical figure often used to marginalize and stigmatize certain political actors Murphy's history follows the redefinition of manhood across a variety of classes especially in the work of late nineteenth century reformers who trumpeted the virility of the laboring classes Challenging the characterization of the relationship between political machines and social and municipal reformers at the turn of the twentieth century he revolutionizes our understanding of the gendered and sexual meanings attached to political and ideological positions of the Progressive Era *Today's Transgender Youth* Ryan J. Watson, Jaimie F. Kincheloe, Danny Weil, 2001-12-07 In this definitive three volume set top scholars illuminate the historical social cultural political administrative psychological and philosophical issues behind the standards debate The nation s demand for more sophisticated knowledge workers who can easily access information using computers requires that they be able to interpret that information judge and assess it and give it meaning In short students must be taught how to think Is education as it now exists in the United States a mere memorization and regurgitation of facts If so is this a pseudo education In this three volume encyclopedia a 100 page introductory overview and 41 essays by top scholars present a new vision of education and educational rigor in a variety of classroom contexts and subject areas Essays cover the most important issues in education today the purpose of education regulating teachers school accreditation testing nontraditional schools bilingual education justice and education the politics of education learning theory and cognition and opposition to standards and more The encyclopedia also includes a historical timeline of educational reform and an annotated bibliography Work and Unseen Chronic Illness Margaret Vickers, 2002-09-09 In an increasingly ageing society medicine hygiene and nutrition have reduced the impact of acute and life threatening illnesses However whilst we are living longer the chance of developing or contracting a chronic illness is increasing There are a growing number of working adults affected by chronic health conditions that may be largely invisible to those around them In this book the author explores the silent problem of unseen illness at work The author employs qualitative research methods to challenge the idea that if you look well you must be well While demonstrating the effectiveness of this controversial methodology she uses it to expose the voices of a group of marginalized workplace actors who have hitherto remained unheard Stories from people with cancer multiple sclerosis endometriosis and other illnesses are interspersed with the author s reflections about life and work with illness that others cannot see These stories reflect a passage of trauma and marginalization but also foreground themes of survival
