Schwann Inside Jazz & Classical ,2000 **Harvard Dictionary of Music** Willi Apel,1969 Contains nearly 1000 pages of precise and accessible information on all musical subjects *The Handbook of World Opera* ,1961 **One Hundred Years of Music** Gerald Abraham,2017-07-05 One Hundred Years of Music provides a full account of the history of music from the death of Beethoven to the modern era It covers a period of exceptional interest The last hundred years coincide roughly with the rise and decline of Romanticism include the various nationalist movements and extend to the advent of neo classicism the twelve tone system and still more modern techniques Abraham devotes ample space to modernist and avant garde music in which he explains the difficulties we experience in listening to the work of such composers as Schnberg Bart k and Berg He also throws new light on many more familiar topics In its earlier editions One Hundred Years of Music became a standard work on this subject it has since been brought updated to include coverage of later developments Abraham approaches his subject as an historian of style rather than an esthetic critic Rather than pass judgment on particular works or composers he shows how music has developed and thus provides a clear and connected history that is more substantial than most books of musical appreciation An extensive chronology and a full bibliography and index add to the usefulness of the book for students professionals and musical laymen alike This third edition incorporates some corrections of fact further enlarges the bibliography and chronology and adds commentary on developments in music techniques In order to correct the historical perspective the author has included a prelude and three interludes giving rough sketches of general conditions in the musical world at intervals of thirty years As the reader s sense of chronology is very apt to get confused when a number of simultaneous streams of development have to be described the author has inserted the date of composition or performance both if they are widely separated of each work at the first mention of it [A Hundred Years of Music](#) Gerald Abraham,1974 [A Cyclopaedic Dictionary of Music ...](#) Ralph Dunstan,1909 **Polart Index to Record Reviews** ,1965 [Arts & Humanities Citation Index](#) ,1988 A multidisciplinary index covering the journal literature of the arts and humanities It fully covers 1 144 of the world s leading arts and humanities journals and it indexes individually selected relevant items from over 6 800 major science and social science journals **Parsifal** Richard Wagner,2018-01-01 These Opera Guides are ideal companions to the opera They provide stimulating introductory articles together with the complete text of each opera in English and the original More than any other work in the operatic repertory Parsifal demands a personal commitment and response As the culmination of half a lifetime s preoccupation with the issues of compassion and redemption it has profound philosophical implications As the ultimate example of Wagner s idiom it is an extraordinary musical structure The unique quality of the subject inspired a wholly original musical conception Here are four very different essays designed in their variety to set you thinking about it what it means to you The translation was commissioned for the first production by English National Opera in 1986 Contents A Very Human Epic Mike Ashman Recapitulation of a Lifetime Dieter Borchmeyer
