the later Middle Ages many writers claimed that prose is superior to verse as a vehicle of knowledge because it presents the truth in an unvarnished form without the distortions of meter and rhyme Beginning in the thirteenth century works of verse narrative from the early Middle Ages were recast in prose as if prose had become the literary norm Instead of dying out however verse took on new vitality In France verse texts were produced in both French and Occitan with the explicit intention of transmitting encyclopedic political philosophical moral historical and other forms of knowledge In Knowing Poetry Adrian Armstrong and Sarah Kay explore why and how verse continued to be used to transmit and shape knowledge in France They cover the period between Jean de Meun's *Roman de la rose* c 1270 and the major work of Jean Bouchet the last of the grands rhétoriciens c 1530 The authors find that the advent of prose led to a new relationship between poetry and knowledge in which poetry serves as a medium for serious reflection and self reflection on subjectivity embodiment and time They propose that three major works the *Roman de la rose* the *Ovide moralisé* and Boethius' *Consolation of Philosophy* form a single influential matrix linking poetry and intellectual inquiry metaphysical insights and eroticized knowledge The trio of thought world contingency poetically represented by Philosophy Nature and Fortune grounds poetic exploration of reality poetry and community

literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study **Art And The Unconscious** Thorburn, John M,2013-07-04 First published in 1999 This is a reproduction of John Thorburn s work of 1925 Art and the Unconscious A Psychological Approach to a Problem of Philosophy covering the psychology of the artistic process and a discussion on symbolic or eternal **Poetry and Contemplation** G. Rostrevor Hamilton,2014-07-24 Originally published in 1937 this book by G Rostrevor Hamilton examines the place of poetry in human life *Chinese Narrative Poetry* Dore Jesse Levy,1988 Chinese Narrative Poetry brings a new perspective to some of China s best loved and most influential poems including Ts ai Yen s Poem of Affliction Po Chu yi s Song of Everlasting Sorrow and Wei Chuang s recently discovered Song of the Lady of Ch in Composed in the shih form during the Late Han Six Dynasties and T ang periods these poems stand out as masterworks of narrative art Yet paradoxically their narrative qualities have been little recognized or explored in either traditional Chinese or modern Western scholarship The reason for this neglect is that Western literary traditions acknowledge their origins in epic poetry and thus take narrative for granted but the Chinese tradition is fundametally based on lyric and does not admit of a separate category for narrative poetry Drawing on both classical Chinese critical works and the most recent Western contributions to the theory of narrative Levy shows how narrative elements developed out of the lyrical conventions of shih In doing so she accomplishes a double purpose guiding the modern reader to an understanding of the nature of narrative in Chinese poetry and shedding light on the ways in which Chinese poets adapted the devises of lyric to the needs of a completely different expressive mode Students of Chinese literature will welcome this pathbreaking study but Chinese Narrative Poetry will interest other scholars as well because it addresses questions of crucial importance for literary theory and comparative literature particularly the central issue of the applicability of Western critical concepts to non Western literature and culture Poetry-Painting Affinity as Intersemiotic Translation Chengzhi Jiang,2020-04-16 This book interprets the close intimacy between poetry and painting from the perspective of intersemiotic translation by providing a systematic examination of the bilingual and visual representation of landscape in the poetry of Wang Wei a high Tang poet who won worldwide reputation The author s subtle analysis ranges from epistemological issues of language philosophy and poetry translation to the very depths where the later Heidegger and Tao oriented Chinese wisdom can co work to reveal their ontological inter rootedness through a two level cognitive stylisitic research methodology The Poetry of Experience Robert Woodrow Langbaum,1957 **On the Nature of Poetry** Kenneth Verity,2012-08-08 Some guides to a subject could more or less be written by any expert in that field but a small minority are unique creations of a rare individual who has their own view Unfortunately most of the latter types of guides fail to be good general guides Verity s genius makes him the exception This book is arranged in chronological chapters that trace the evolution of poetry as an art form At the same time each chapter gives a most practical explanation of how that aspect of poetry that it covers works and why The book is

immensely readable hugely informative and adds to the ability of the reader to enjoy and to create poetry It is a classic Epictetus Amazon review The great merit of Verity s approach is that he quotes lavishly throughout not only from the poems themselves but also from a variety of critics LIBRARY REVIEWS Of his first book of sonnets Kingsley Amis wrote They belong within the corpus of English poetry Excerpts of Interview with Kenneth Verity on The Vanessa Phelps BBC Radio programme on June 2009 on the News Page off the Home page The amount of reading which underpins this book is breathtaking The great merit of Verity s approach is that he quotes lavishly throughout not only from the poems themselves but also from a variety of critics The chapter on poetry s figurative element is a model of lucid definition and telling illustration showing how many layers of meaning may lie behind a single word LIBRARY REVIEWS The author writes The intention of this book is to examine and analyse the essential nature of the phenomenon we call poetry to seek an understanding of the power this art form exerts over mind and heart to comprehend its potency and to explain its perennial ability to command the respect of mankind Almost a library in one volume this unusual book written by an accomplished poet examines the 4000 years old phenomenon of poetry

Twentieth-Century War Poetry Philippa Lyon,2004-10-28 Poets have written about wars throughout the 20th century questioning protesting and sometimes celebrating the nature and purpose of conflict Attracting an enthusiastic popular readership war poetry has often been seen as a way of remembering and re imagining wars Today war poems are not only part of our memorial culture on epitaphs and in Remembrance Day services but have inspired books and films and become studied widely around the world This Guide examines the genesis and development of the important genre of war poetry in the twentieth century focusing in particular on the role of the two world wars in the literary and cultural construction of a war poetry category Philippa Lyon draws upon a range of key historical and contemporary critical responses from poetic memoir and journalism to sophisticated academic criticism to demonstrate the rich diversity of expectations and evaluations elicited by the developing genre

The Radical Demand in Løgstrup's Ethics Robert Stern, 2019-01-03 How much does ethics demand of us On what authority does it demand it How does what ethics demand relate to other requirements such as those of prudence law and social convention Does ethics really demand anything at all Questions of this sort lie at the heart of the work of the Danish philosopher and theologian K E Løgstrup 1905 1981 and in particular his key text The Ethical Demand 1956 In The Radical Demand in Løgstrup's Ethics Robert Stern offers a full account of that text and situates Løgstrup's distinctive position in relation to Kant Kierkegaard Levinas Darwall and Luther For Løgstrup the ethical situation is primarily one in which the fate of the other person is placed in your hands where it is then your responsibility to do what is best for them The demand therefore does not come from the other person as such as what they ask you to do may be different from what you should do It is also not laid down by social rules nor by God or by any formal principle of practical reason such as Kant's principle of universalizability Rather it comes from what is required to care for the other and the directive power of their needs in the situation Løgstrup therefore rejects accounts of ethical obligation based on the commands of God or on abstract principles governing practical reason or on social norms instead he develops a different picture at the basis of which is our interdependence which he argues gives his ethics a grounding in the nature of life itself
