Volant,Alexis Soyer,1859 [The Objects and Textures of Everyday Life in Imperial Britain](#) Janet C. Myers,Deirdre H. McMahon,2017-05-15 Focusing on everyday life in nineteenth century Britain and its imperial possessions from preparing tea to cleaning the kitchen from packing for imperial adventures to arranging home decor the essays in this collection share a common focus on materiality the nitty gritty elements that helped give shape and meaning to British self definition during the period Each essay demonstrates how preoccupations with common household goods and habits fueled contemporary debates about cultural institutions ranging from personal matters of marriage and family to more overtly political issues of empire building While existing scholarship on material culture in the nineteenth century has centered on artifacts in museums and galleries this collection brings together disparate fields history of design landscape history childhood studies and feminist and postcolonial literary studies to focus

on ordinary objects and practices with specific attention to how Britons of all classes established the tenets of domesticity as central to individual happiness national security and imperial hegemony

The History of the Irish Famine Christine Kinealy, Jason King, Gerard Moran, 2020-06-04 The Great Irish Famine remains one of the most lethal famines in modern world history and a watershed moment in the development of modern Ireland socially politically demographically and culturally In the space of only four years Ireland lost twenty five per cent of its population as a consequence of starvation disease and large scale emigration Certain aspects of the Famine remain contested and controversial for example the issue of the British government s culpability proselytism and the reception of emigrants However recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis both before 1845 and after 1852 The narratives of those who perished those who survived and those who emigrated form an integral part of this history and these volumes will make available for the first time some of the original documentation relating to an event that changed not only Irish history but the history of the countries to which the emigrants fled Britain the United States Canada and Australia By bringing together letters government reports diaries official documents pamphlets newspaper articles sermons eye witness testimonies poems and novels these volumes will provide a fresh way of understanding Irish history in general and famine and migration in particular Comprehensive editorial apparatus and annotation of the original texts are included along with bibliographies appendices chronologies and indexes that point the way for further study

Spicing up Britain Panikos Panayi, 2008-04-15 Among the cuisines of Europe Britain s has long been regarded as the black sheep kippers jellied eels and blood pudding rarely elicit the same fond feelings as chocolate mousse or pasta primavera Despite these unsavory stereotypes British cuisine is anything but unremarkable today Panikos Panayi reveals in this fascinating study that British cuisine has been transformed and enriched by diverse international influences The last thirty years have seen immigrants flood British shores but Spicing Up Britain reveals that foreign influences have been infusing British cuisine for the past 150 years From the arrival of Italian ice cream vendors and German butchers in the nineteenth century to the British curry that permeates dishes today Panayi chronicles the rich and fascinating social history behind the rise of a truly multicultural cuisine The author argues that Britons eating habits have been reshaped by immigration globalization and increased wealth and he explores how other cultures have woven themselves into British society through the portal of food whether Anglo Indian fusion dishes like chicken tikka masala New British cuisine restaurants or the popular home cooked dish of spaghetti bolognese Panayi reveals how these changes in British cuisine shed light on the role of multiculturalism in the construction of modern British identity Britain is a diverse nation in which different peoples are united by willingness to sample the foods produced by other ethnic groups but those ethnic groups are at the same time ghettoized by not moving beyond their own culinary traditions A comprehensive and engaging investigation Spicing Up Britain serves up delicious new facets of food in Britain today

The London Restaurant, 1840-1914 Brenda Assael, 2018-06-28 This is the first scholarly treatment of the history of public

eating in London in the Victorian and Edwardian eras The quotidian nature of eating out during the working day or evening should not be allowed to obscure the significance of the restaurant defined broadly to encompass not merely the prestigious West End restaurant but also the modest refreshment room and even the street cart as a critical component in the creation of modern metropolitan culture The story of the London restaurant between the 1840s and the First World War serves as an exemplary site for mapping the expansion of commercial leisure the increasing significance of the service sector the introduction of technology the democratization of the public sphere changing gender roles and the impact of immigration The London Restaurant incorporates the notion of gastro cosmopolitanism to highlight the existence of a diverse culture in London in this period that requires us to think not merely beyond the nation but beyond empire The restaurant also had an important role in contemporary debates about public health and the sometimes conflicting but no less often complementary prerogatives of commerce moral improvement and liberal governance The London Restaurant considers the restaurant as a business and a place of employment as well as an important site for the emergence of new forms of metropolitan experience and identity While focused on London it illustrates the complex ways in which cultural and commercial forces were intertwined in modern Britain and demonstrates the rewards of writing histories which recognize the interplay between broad global forces and highly localized spaces *The New York Times Book Review*, 1938 *California Dish* Jeremiah Tower, 2003 Recounts the rise and fall and rise again of the award winning chef who revolutionized modern American cooking including his job at Chez Panisse his international success and his opinions regarding his competitors *The Crimean Doctors* John A. Shepherd, 1991-01-01 A comprehensive medical history of the Crimean War this work assesses the role of the British doctors 6 Army navy and civilian 6 while taking account of the contemporary state of medicine and surgery as well as the limited attention paid to the Army and navy medical services by successive governments before the war
