Reading Kristeva Kelly Oliver, 1993-02-22 both an excellent introduction and a thoroughgoing analysis of Kristeva's writing *Signs* The book is a brilliant combination of a recuperative and a critical reading of Kristeva's work *Changes An International Journal of Psychology Psychotherapy* a thorough detailed and critical analysis of the writings of Julia Kristeva Elizabeth Grosz the most involved and engaging study of Julia Kristeva's work to date *The Year's Work in Critical and Cultural Theory* This first full scale feminist interpretation of Kristeva's work situates her within the context of French feminism Oliver guides her readers through Kristeva's intellectual formation in linguistics Freud Lacan and poetics This comprehensive introduction to Kristeva makes accessible her important contributions to philosophy linguistics and psychoanalytic feminism *Philosophy and the Maternal Body* Michelle Boulous Walker, 2002-01-22 *Philosophy and the Maternal Body* gives a new voice to the mother and the maternal body which have often been viewed as silent within philosophy Michelle Boulous Walker clearly shows how some male theorists have appropriated maternity and suggests new ways of articulating the maternal body and women's experience of pregnancy and motherhood *Performing Identity and Gender in Literature, Theatre and the Visual Arts* Panayiota Chrysochou, 2017-03-07 This volume presents a compelling range of chapters focusing on the myriad ways in which performance and gender are inextricably bound to identity It shows how gender performance and identity play themselves out in various ways contexts and genres in order to illumine the very instability and fluidity of identity as a static category As such it is a must read for anyone interested in gender studies identity politics and literature in general *Knowing and Not Knowing* Claudia Lapping, Tamara Bibby, 2018-02-02 The social world is saturated with powerful formations of knowledge that colonise individual and institutional identities Some knowledge emerges as legitimised and authoritative other knowledge is resisted or repressed Psychosocial approaches highlight the unstable basis of knowledge learning and research of knowing and not knowing How do we come to formulate knowledge in the ways that we do Are there other possible ways of knowing that are too difficult or unsettling for us to begin to explore Do we need the authority of legitimised institutions and regularized methods to build secure knowledge What might it mean to build insecure edifices of knowledge How might we trouble notions of knowledge in processes of teaching learning and research This collection addresses these questions drawing on a range of psychoanalytic and social theory from Bion Freud and Lacan to Derrida Kristeva and Zizek Showcasing work from North America Europe and Japan contributors explore writing as a practice that can stabilise or unsettle subjectivities the unconscious relations between school practices subjectivities educational spaces and ideologies implications of the productive energies and the deadening inwardness associated with mourning and melancholia for formal and informal learning and the authority we invest in apparently rigid or ephemeral institutional spaces Strongly empirical as well as theoretical in approach this collection will be of interest to students and academics seeking ways to resist normative orders of legitimacy and coherence in education and research This

Understanding Kristeva, Understanding Modernism Maria Margaroni, 2022-11-03 Julia Kristeva has revolutionized the study of modernism by developing a theoretical approach that is uniquely attuned to the dynamic interplay between on the one hand linguistic and formal experimentation and on the other hand subjective crisis and socio political upheaval Inspired by the contestatory spirit of the late 1960s in which she emerged as a theorist Kristeva has defended the project of the European avant gardes and has systematically attempted to reclaim their legacy in the new societal structures produced by a global spectacle dominated capitalism Understanding Kristeva Understanding Modernism brings together essays that take up the threads in Kristeva's analyses of the avant garde offering an appreciation of her overall contribution the intellectual and political horizon within which she has produced her seminal works as well as of the blind spots that need to be acknowledged in any contemporary examination of her insights As with other volumes in this series this volume is structured in three parts The first part provides new readings of key texts or central aspects in Kristeva's oeuvre The second part takes up the task of showing the impact of Kristeva's thought on the appreciation of modernist concerns and strategies in a variety of fields literature philosophy the visual arts and dance The third part is a glossary of some of Kristeva's key terms with each entry written by an expert contributor

Hollywood Serene Jones Cleo McNelly Kearns Francoise Meltzer Sharon D Welch The Riddling between Oedipus and the Sphinx Yuan Yuan,2016-04-12 The issue of the other has always been an urgent one especially since 1980 s when the political debates over race gender class culture ethnicity and post colonialism took the central stage The Riddling between Oedipus and the Sphinx Ontology Hauntology and Heterologies of the Grotesque probes the polemic status of the other and the dubious nature of the subject from a heterodox perspective of an emblematic grotesque figure the Sphinx the mystical trickster and the guardian of sacred knowledge in Egyptian culture In Greek mythology Oedipus the epitome of Western logos solved the Sphinx s riddle with a single word Man This evocation for the phantom of a solipsistic subject discloses in effect Oedipus latent grotesque disparity The book explores the encounter of this unlikely pair to inquire the riddling relationship between the singular subject and the grotesque other in the context of modern discourses of the subject and postmodern theories of the other **Critical Perspectives on bell hooks** Maria del Guadalupe Davidson,George

Sex and Gender in Medieval and Renaissance Texts Barbara K. Gold,Paul Allen Miller,Charles Platter,1997-03-13 This collection reclaims a vast body of long neglected Latin texts from the Middle Ages and the Renaissance and examines how they represent the feminine and the female body The authors explore the ideological values explicitly encoded by the feminine in these texts other less articulated values implied by the feminine and the role of the classical tradition in communicating those values The examination of women both as subjects and as rhetorical constructions in Medieval and Renaissance Latin literature sheds light on the larger dialogue about feminism occurring throughout the humanities In addition the inclusion of a new body of texts and the rescue of others from their present isolation will expand the reach of classical and humanist scholarship Traditional studies of Latin literature end around the beginning of the fifth century C E despite the fact that Latin continued to be the dominant literary and intellectual language until at least the latter half of the sixteenth century Thus most classicists ignore over one thousand years of the Latin literary tradition Few non classicists read Latin comfortably and fewer still have a detailed understanding of the history of classical Latin literature Nevertheless a knowledge of this history was assumed by most Neo Latin writers as well as their contemporaries who wrote in the vernacular This collection supplies tools to examine more completely the construction and application of gender in both Latin and vernacular texts of the Middle Ages and the Renaissance

Heart of the Cross Wonhee Anne Joh,2006-01-01 Theologies have often pointed to the cross as a place of suffering and sacrifice while feminist critiques have frequently argued against interpretations of the cross as patriarchal valorizing of suffering Wonhee Anne Joh points toward a new interpretation of the cross as a place of love where God and humanity come together in a surprising way Interpreting the cross as performing a double gesture that has a subversive effect Joh argues that the cross works simultaneously to pay homage to and to menace complex oppressive powers Utilizing the Korean concept of jeong Joh constructs a theology that is feminist political and love centered while acknowledging the cross as source of pain and suffering Joh's innovative vision is a call for political love that is stronger than powers of oppression

The Afterlife of Christina Rossetti A. Chapman,2000-06-13 Despite new historical study of her contexts Christina Rossetti continues to haunt the reader as a displaced subjectivity emptied of history Through an analysis of the posthumous in her work the construction of Christina Rossetti by her brothers and the history of reception this study asks how speaking with the dead can avoid critical ventriloquy The figure of the mother is offered as a paradigm for theorising a new reading that refuses to exorcise the ghost of Christina Rossetti
